Building Hoover Dam An Oral History Of The Great Depression:

Building Hoover Dam Andrew J. Dunar, Dennis McBride, 2016-06-01 Andrew J Dunar and Dennis McBride skillfully interweave eyewitness accounts of the building of Hoover Dam These stories create the richest existing portrait of the building of Hoover Dam and its tremendous effect on the lives of those involved in its creation the gritty sometimes grisly realities of living in cardboard boxes and tents during several of the hottest Southern Nevada summers on record the fearsome carbon monoxide deaths of tunnel builders who it was claimed had died of pneumonia the uproarious life of nearby Las Vegas versus the tightly controlled existence of the workers in the built overnight confines of Boulder City and of course the astounding accomplishment of building the Dam itself and completing the task not only early but under budget Doing Oral History : A Practical Guide Donald A. Hoover Dam Renee Corona Kolvet, 2013 Hoover Dam was America s largest federal works project of its time constructed during the Great Depression after years of scientific study and political maneuvering by California boosters This thirsty state looked to the untapped Colorado River to supply reliable water for Imperial Valley farms and the fast growing Los Angeles metropolitan area Harnessing the unruly Colorado River would be no easy task An unprecedented high dam over 700 feet tall was designed to store two years of river flow trap tons of silt and gain control of the river The project was financed by the sale of hydroelectric power to southern California Arizona and southern Nevada Today Imperial Valley is an American garden spot and Los Angeles is one of the nation s most influential cities The Las Vegas Valley also witnessed tremendous growth beginning with the dam and followed by legalized gambling defense industries and tourism From publisher description
