Building Jewish In The Roman East Paperback:

Building Jewish in the Roman East Peter Richardson, 2005-02-01 Archaeology has unearthed the glories of ancient Jewish buildings throughout the Mediterranean But what has remained shrouded is what these buildings meant Building Jewish first surveys the architecture of small rural villages in the Galilee in the early Roman period before examining the development of synagogues as Jewish associations Finally Building Jewish explores Jerusalem s flurry of building activity under Herod the Great in the first century BCE Richardson s careful work not only documents the culture that forms the background to any study of Second Temple Judaism and early Christianity but he also succeeds in demonstrating how architecture itself like a text conveys meaning and thus directly illuminates daily life and religious thought and practice in the ancient world

Synagogues in the Hellenistic and

Roman Periods Lutz Doering, Andrew R. Krause, Hermut Löhr, 2020-12-14 The study of ancient Judaism has enjoyed a steep rise in interest and publications in recent decades although the focus has often been on the ideas and beliefs represented in ancient Jewish texts rather than on the daily lives and the material culture of Jews Judaeans and their communities The nascent institution of the synagogue formed an increasingly important venue for communal gathering and daily or weekly practice This collection of essays brings together a broad spectrum of new archaeological and textual data with various emergent theories and interpretative methods in order to address the need to understand the place of the synagogue in the daily and weekly procedures community frameworks and theological structures in which Judaeans Galileans and Jewish people in the Diaspora lived and gathered The interdisciplinary studies will be of great significance for anyone studying ancient Jewish belief practice and community formation

Continuity and Innovation in the Aramaic Legal Tradition Andrew Gross, 2008-10-31 Ever since the Elephantine papyri were first published over a century ago scholars have speculated on the origins of the well developed legal formularies used in these documents Since then many more Aramaic deeds of conveyance both from Elephantine and from elsewhere have been published especially within the last decade or so With this expanded text base now available the time is ripe for a comprehensive re assessment of these legal formularies This book endeavors to show that these disparate Aramaic documents whose chronological scope spans several centuries form a discrete and coherent tradition It isolates and identifies the distinctive elements that form the core of this tradition and traces the histories of these elements back through the cuneiform record

Jewish Funerary Customs, Practices and Rites in the Second Temple Period Rachel Hachlili, 2005-01-01 Research of burials constitutes one of the main reliable sources of information related to various aspects of funerary practices and rituals and offers a perception of ancient social life and community organization The material remains of mortuary rituals is effective in reconstructing the history of a society its religious beliefs and its social outlook Tombs offer ample data on the artistic taste evinced by funerary architecture and the ornamentation of receptacles and objects Changes in Jewish funerary practices did not alter the plan and architecture of the

tombs Though the funerary rites changed from inhumation in coffins and loculi to secondary burial by collecting bones in ossuaries the artifacts associated with these graves did not modify much and indicate that these were culturally and socially identical people The study outlines the material preserved in the ancient Jewish cemeteries of the Second Temple period first century BCE to first century CE at Jerusalem Jericho En Gedi Qumran and some other tomb sites *American Book Publishing Record* ,2003

Contours of Coherence in Rabbinic Judaism Jacob Neusner,2022-11-28 This book shows that the disputes that characterize Rabbinic writings in the formative age underscore the coherence of Rabbinic Judaism It is in three separate monographs The first shows that disagreements concern secondary and tertiary issues They therefore reinforce the primary norm by identifying as moot only trivial details The second demonstrates alternatively that Halakhic disputes articulate unresolved conflict over generative principles Sometimes in the presentation of topics of the law disputes not only indicate the range of consensus but bring to expression conflicting alternatives theories that claim equal validity but contradict one another Third in some presentations of the law and in all presentations of theology where disputes occur disputes simply gloss details in the application of accepted principles They form a part of the exercise of legal or theological exegesis filling in gaps with alternative facts The print edition is available as a set of two volumes 9789004142312
