Building Of A Department Chemistry At Southern Illinois University 1927 1967 The:

Physical Chemistry from Ostwald to Pauling John W. Servos, 2021-05-11 John Servos explains the emergence of physical chemistry in America by presenting a series of lively portraits of such pivotal figures as Wilhelm Ostwald A A Noyes G N Lewis and Linus Pauling and of key institutions including MIT the University of California at Berkeley and Caltech In the early twentieth century physical chemistry was a new hybrid science the molecular biology of its time The names of its progenitors were familiar to everyone who was scientifically literate studies of aqueous solutions and of chemical thermodynamics had transformed scientific knowledge of chemical affinity By exploring the relationship of the discipline to industry and to other sciences and by tracing the research of its leading American practitioners Servos shows how physical chemistry was eclipsed by its own offspring specialties like quantum chemistry

The Building of a Department James Winfred Neckers, 1979 In the beginning there was chemistry Dr Neckers writes literally in the school s first curriculum in 1874 and the development of the department of chemistry nurtured by the dedication of a distinguished faculty lent distinction to an emerging university Concentrating on the second fifty years of the university s history Dr Neckers s firsthand account of the building of the chemistry department is one of growth and accomplishment In his forty years in the university Neckers was an active participant in university affairs the first president of the faculty senate and a member of nearly every university committee and council His observations are both pertinent and acute and his insights into campus events no doubt will bring about new interpretations of the university s recent history Written with warmth and affection Dr Neckers s chronicle is nevertheless direct and principled exhibiting his stalwart character and the forthrightness remembered by his former students and colleagues
