THOMAS,2018 *The Secret History of Liverpool Cathedral* Geoffrey Johnson,2018-06-21

The building of a card model of Liverpool Cathedral needed a lot of research and the Vere E Cotton s work *The Book of Liverpool Cathedral* was the most helpful of all the sources of information Written by a long serving member of the Cathedral Building Committee it was a treasure trove of early photographs and drawings The reason for the drastic alteration of the building from the competition winning three tower building to one with a single tower in 1910 was never explained by the architect and for 84 years people have looked at the architecture trying to solve the mystery without success Because the project made the author look at the cathedral from a viewpoint other than at its architecture which nobody appears to have done before he discovered the secret purpose of and the motivation behind the radical redesign of 1910 In his book Cotton virtually admits that he was mystified at some aspects of the building Strangely it also contains the clues which helped resolve the mystery So this work is the sequel to *The Book of Liverpool Cathedral* as it exposes the architect s secret and explains how and why the present design evolved **Men and Women who Built Liverpool Cathedral** DR ALEC. ELLIS,2017 **The Construction of Gothic Cathedrals** John Fitchen,1981 Describes the process of erecting the great cathedrals in the Gothic era This text explains the building equipment and falsework needed the actual operations undertaken and the sequence of these operations as far as they can be deduced from manuscript illuminations and pictorial representations *The Secret History of Liverpool Cathedral* Geoffrey Johnson,2016-11-28 Before the author started building a model of Liverpool Cathedral in 1994 he had to research its history and architecture Of all the published information one book stands out as by far the most useful It is Vere E Cotton s work *The Book of Liverpool Cathedral* published by Liverpool University Press in 1964 on behalf of the Cathedral Committee but at the time the book was written construction of the Nave had only just begun and needed supplementing with photographs Because the project made the author look at the Cathedral from a viewpoint other than at its architecture he discovered the secret purpose of and the motivation behind the radical redesign of 1910 In his book Cotton virtually admits that he was mystified at some aspects of the building Strangely it also contained the clues which helped the author resolve the mystery although Cotton seemed not to have been aware of them So this work is the sequel to *The Book of Liverpool Cathedral* as it reveals the architect s secret and explains how and why the present design evolved which Cotton was unable to do A History of the Church Through Its Buildings Allan Doig,2020 Allan Doig explores the Christian Church through the lens of twelve particular churches looking at their history archaeology and how the buildings changed over time

Constructing Identity, "souped-up" and "unplugged" ,1998 **English Cathedral Music and Liturgy in the Twentieth Century** Martin Thomas,2016-03-09 This book examines the stylistic development of English cathedral music during a period of liturgical upheaval looking at the attitudes of cathedral clergy liturgists composers leading church music figures and organisations to music and liturgy Arguments that were advanced for retaining an archaic style in cathedral music are considered including the linking of musical style with liturgical language the recommending of a subservient role for music in the liturgy and the development of a language of fittingness to describe church music The roles of the RSCM and other influential bodies are explored Martin Thomas draws on many sources the libraries and archives of English cathedrals contemporary press coverage and the records of church music bodies publishing practices secondary literature and the music itself Concluding that an arresting of development in English cathedral music has prevented appropriate influences from secular music being felt Thomas contrasts this with how cathedrals have often successfully and dynamically engaged with the world of the visual arts particularly in painting and sculpture Presenting implications for all denominations and for patronage of the arts by churches and the place of musical aesthetics in the planning of liturgy this book offers an important resource for music theology liturgy students and ministry teams worldwide **The Art of Disruption** Paul
