Destiny by Design Jeremy Sherman Snapp, 2000 Author photographer Jeremy Snapp has produced a dramatic photo essay of rare images that depict events in the decade preceding the opening of the Panama Canal in 1914 Original photos taken by Snapp s great grandfather Gerald Sherman a respected mining engineer of the day deliver a technical perspective of this undertaking unlike anything previously published Finally as the U S ceded authority over the canal to the Panamanian government in 1999 Jeremy Snapp travelled to the canal zone with an antique camera to capture images of the original buildings and construction relics that remained

Building the Panama Canal Russell Roberts, 2020-02-04 The building of the Panama Canal was one of the great engineering feats of the twentieth century For hundreds of years mankind had dreamed about cutting through the Isthmus of Panama to build a canal but the jungle insects and the damp humid conditions had always combined to defeat any and all attempts to construct the waterway It took the discovery of the mosquito as a disease carrier the tenacity of the workmen and the single minded stubbornness of Theodore Roosevelt to make the canal dream a reality But if the canal made some men great it also destroyed the lives of others That was the sad fate of Count Ferdinand de Lesseps of France a national hero who had done the impossible by building the Suez Canal then failed in Panama The fate of

de Lesseps is as much the story of the Panama Canal as is the success of Roosevelt The Panama Canal Charles River Charles River Editors,2014-12-03 Includes pictures Includes accounts of the construction written by workers and their family members Includes a bibliography for further reading Includes a table of contents It is not the critic who counts not the man who points out how the strong man stumbled or where the doer of deeds could have done them better The credit belongs to the man who is actually in the arena whose face is marred by dust and sweat and blood Theodore Roosevelt Most people have heard of the Seven Wonders of the Ancient World but while not as many have heard of the Seven Wonders of the Modern World those who have are aware that the Panama Canal is considered one of them In a world where few natural rivers carved out over eons of time have reached a length of more than 50 miles the idea that a group of men could carve a canal of that length seemed impossible In fact many thought it could not be done On the other hand there was a tremendous motivation to try because if a canal could be successfully cut across Central America to connect the Atlantic and Pacific Oceans it would cut weeks off the time necessary to carry goods by sea from the well established East Coast of the United States to the burgeoning West Coast Moreover traveling around the tip of South America was fraught with danger and European explorers and settlers had proposed building a canal in Panama or Nicaragua several centuries before the Panama Canal was actually built By the late 19th century the French actually tried to build such a canal only to fail after a great deal of resources were put into construction and after workers died of malaria and other illnesses At the turn of the 20th century not only was the need for a canal still there but the right man was in the White House Indeed President Theodore Roosevelt a celebrated outdoorsman might have been the only president who could have foreseen and accomplished such an audacious feat and even he considered it one of his crowning achievements He wrote in his memoirs There are plenty of other things I started merely because the time had come that whoever was in power would have started them But the Panama Canal would not have started if I had not taken hold of it because if I had followed the traditional or conservative method I should have submitted an admirable state paper to Congress the debate would be proceeding at this moment and the beginning of work on the canal would be fifty years in the future Fortunately the opportunity came at a period when I could act unhampered Accordingly I took the Isthmus started the canal and then left Congress not to debate the canal but to debate me Building the Panama Canal was a herculean task in every sense Taking about 10 years to build workers had to excavate millions of cubic yards of earth and fight off hordes of insects to make Roosevelt s vision a reality Roosevelt also had to tie up the U S Navy in a revolt in Colombia to ensure Panama could become independent and thus ensure America had control of the canal By 1914 ships were finally traversing through the Panama Canal just as World War I was about to start and a century later the Panama Canal remains one of the world s most vital waterways The Panama Canal looks at the origins and history of the important trade link between the Atlantic and Pacific Along with pictures of important people places and events you will learn about the Panama Canal like never before in no time at all **Panama Canal** Rebecca Stefoff,2016-01-01 This title

Matthew Parker,2009-03-10 The Panama Canal was the costliest undertaking in history its completion in 1914 marked the beginning of the American Century Panama Fever draws on contemporary accounts bringing the experience of those who built the canal vividly to life Politicians engaged in high stakes diplomacy in order to influence its construction Meanwhile engineers and workers from around the world rushed to take advantage of high wages and the chance to be a part of history Filled with remarkable characters Panama Fever is an epic history that shows how a small fiercely contested strip of land made the world a smaller place and launched the era of American global dominance **Panama Canal Treaties (United States Senate Debate), 1977-78: March 17 thru April 19, 1978** ,1979 *Panama Canal Treaties: March 17 thru April 19, 1978* United States.
