Building Together A Memoir Of Our Lives In Seattle:

Building Together William James Bain, Mildred Clark Bain, 1991 **1015 Second Avenue**, 2010 Seattle Genealogical Society Bulletin, 1992 *Forthcoming Books* Rose Arny, 2004 **Shaping Seattle Architecture** Jeffrey Karl Ochsner, 2016-06-01 The first edition of *Shaping Seattle Architecture* published in 1994 introduced readers to Seattle's architects by showcasing the work of those who were instrumental in creating the region's built environment. Twenty years later the second edition updates and expands the original with new information and illustrations that provide an even richer exploration of Seattle architecture. The book begins with a revised introduction that brings the story of Seattle architecture into the twenty-first century and situates developments in Seattle building design within local and global contexts. The book's fifty-four essays present richly illustrated profiles that describe the architects' careers, provide an overview of their major works, and explore their significance. *Shaping Seattle Architecture* celebrates a wide range of people who helped form the region's built environment. It provides updated information about many of the architects and firms profiled in the first edition. Four individuals newly included in this second edition are Edwin J. Ivey, a leading residential designer; Fred Bassetti, an important contributor to Northwest regional modernism; L. Jane Hastings, one of the region's foremost women in architecture; and Richard Haag, founder of the landscape architecture program at the University of Washington and designer of Gas Works Park and the Bloedel Reserve. The book also includes essays on the buildings of the Coast Salish people who inhabited Puget Sound prior to Euro-American settlement; the role that architects played in speculative housing developments before and after World War II; and the vernacular architecture built by nonprofessionals that makes up a portion of the fabric of the city. *Shaping Seattle Architecture* concludes with a substantial reference section updated to reflect the last twenty years of research and publications. A locations appendix offers a geographic guide to surviving works. The research section directs interested readers to further resources, and the appendix *Additional Significant Seattle Architects* provides thumbnail sketches of nearly 250 important figures not included in the main text. **Subject Guide to Books in Print**, 1993

Pacific Northwest Quarterly, 1999 *PNLA Quarterly* Pacific Northwest Library Association, 1993 *Being Seen* Elsa Sjunneson, 2022-11 A Deafblind writer and professor explores how the misrepresentation of disability in books, movies, and TV harms both the disabled community and everyone else. As a Deafblind woman with partial vision in one eye and bilateral hearing aids, Elsa Sjunneson lives at the crossroads of blindness and sight, hearing and deafness, much to the confusion of the world around her. While she cannot see well enough to operate without a guide dog or cane, she can see enough to know when someone is reacting to the visible signs of her blindness and can hear when they're whispering behind her back. And she certainly knows how wrong our one-size-fits-all definitions of disability can be. As a media studies professor, she's also seen the full range of blind and deaf portrayals on film, and here she deconstructs their impact, following common tropes through horror, romance, and everything in between. Part memoir, part cultural criticism, part history of the Deafblind

experience *Being Seen* explores how our cultural concept of disability is more myth than fact and the damage it does to us all
