Best Practices in Mentoring for Teacher and Leader

Development Linda J. Searby, Susan K. Brondyk, 2015-10-01 Mentoring in educational contexts has become a rapidly growing field of study both in the United States and internationally. Fletcher Kappa Delta Pi Presidential Commissioner. This volume *Best Practices in Mentoring for Teacher and Leader Development* forwards principles of effective mentoring including the role and importance of talk in mentoring using tools that make mentoring talk more purposeful, analyzing practice involving mentors in opportunities to share their practice, providing space for mentees to have a voice in mentoring conversations, and promoting learning at all levels as part of instructional leadership in schools. Much research is still needed to build a sense of urgency that mentoring can matter, and ideas promoted within this book can contribute to this important conversation. Randi Nevins Stanulis, Professor, Department of Teacher Education, Michigan State University and Director of Launch into Teaching. This book is a huge first step in a field where best practices have not yet been agreed upon, and it is sure to be a leading voice in research on teacher and principal mentoring. As such, this book helps to bring together a variety of beliefs, evidence, and practices in teacher and principal mentoring and gives a clear pathway for others trying to establish best practices in their mentoring fields. For those in the K-12 fields and in all mentoring practices, this is a thought-provoking must-read. Nora Domínguez, International Mentoring Association President and CEO.

Handbook of Research-Based Practice in Early Education

D. Ray Reutzel, 2014-07-09 Written expressly for early childhood educators and those who support their professional development, this handbook distills essential knowledge about how to help all PreK-3 learners succeed. Leading experts describe doable ways to create effective learning environments and implement instructional practices with a strong evidence base. Engaging vignettes illustrate discussions of such topics as differentiated instruction, response to intervention, the Common Core standards, social and emotional learning, assessment, and teaching across the curriculum. Each chapter links cutting-edge research to practical applications, examples, and professional development activities.

Handbook of Research on Teachers of Color and Indigenous Teachers Conra D. Gist, Travis J. Bristol, 2022-10-15 Teachers of Color and Indigenous Teachers are underrepresented in public schools across the United States of America, with Black, Indigenous, and People of Color making up roughly 37% of the adult population and 50% of children, but just 19% of the teaching force. Yet research over decades has indicated their positive impact on student learning and social and emotional development, particularly for Students of Color and Indigenous Students. A first of its kind, the *Handbook of Research on Teachers of Color and Indigenous Teachers* addresses key issues and obstacles to ethnoracial diversity across the life course of teachers' careers, such as recruitment and retention, professional development, and the role of minority-serving institutions. Including chapters from leading researchers and policy makers, the Handbook is designed to be an important resource to help bridge the gap between scholars, practitioners, and policy makers. In doing so, this research will serve as a launching pad for discussion and change at this critical moment in our country's history. The volume's goal is to drive conversations around

the issue of ethnoracial teacher diversity and to provide concrete practices for policy makers and practitioners to enable them to make evidence based decisions for supporting an ethnoracially diverse educator workforce now and in the future
