Building a Prosperous Southeast Asia Kunio Yoshihara, 2013-01-11 Professor Yoshihara an international expert on the Southeast Asian economies looks beyond the causes of the current crisis to discuss what can be done to build a dynamic economy in Asia to ensure prosperity for the future He takes the viewpoint that the only way to achieve this is to promote integration into the global economy through free trade and free capital movement He puts forward a convincing argument that government intervention is not the way forward and has in fact helped cause the present crisis But a prosperous future is possible he argues by renovating institutions and adapting new attitudes A most timely book with lessons for other parts of the world as well as for Southeast Asia *Regionalization in a Globalizing World* Michael Schulz, Fredrik Soderbaum, Joakim Öjendal, 2001-05 The emerging role of regional systems of relations is an important feature of the new global politics While the European Union is the most advanced case most other parts of the world display at least the beginnings of regional systems Using a multidisciplinary approach the contributors examine these processes from a comparative perspective concentrating on the following questions what constitute a region how is the historical process of region formation unfolding what motives and factors underlie this drive to regionalisation what forms a regional awareness and institutionalisation are emerging and where what are the future prospects **Ersatz Capitalism and Industrial Policy in Southeast Asia**

The Rise of Ersatz Capitalism in South-East Asia Kunio Yoshihara, 1988 This book by a leading expert considers the growth of an inefficient superlayer in Southeast Asian economies and assesses the problems that this poses for future economic development Yoshihara argues that as technological backwardness the low quality of government intervention and discrimination against those of Chinese descent have prevented capitalism from stimulating development there has emerged a brand of ersatz capitalism very different from the capitalism in Japan and the West He goes on to offer recommendations for creating a dynamic capitalism while acknowledging that obstacles to their implementation exist in current Southeast Asian social and political systems

Southeast Asia beyond Crises and Traps Boo Teik Khoo, Keiichi Tsunekawa, Motoko Kawano, 2017-09-18 This book examines five countries in South East Asia that are instructive case studies of how the region has had to negotiate pathways of development beyond crises and traps At two ends of just one decade 1997 2007 Indonesia Malaysia the Philippines Thailand and Vietnam all had to weather the shocks of an East Asian financial crisis and a global financial crisis Some economies might have buckled completely under those shocks and been condemned to long term stagnation Yet these five economies part of the larger Asian region emerged with continued if slower economic growth An important theme of this book is that their resilience has been partly derived from the pursuit of growth and competitiveness along less known or recommended pathways The chapters of this book take a novel approach to South East Asia's search for growth and improvement They do not begin by evaluating how far macro level performances would take a particular country towards high income status Instead they provide original insights into actual cases of intermediate ways of achieving growth upgrading and income improvement in non privileged sectors Such cases may hold more relevant lessons for the majority of developing countries than the experiences of highly developed economies

Local Cultures and the New Asia C.J.W.-L Wee,2003-08-01 Southeast Asia until the Asian economic crisis of 1997 2000 was a high economic growth area However despite the neo liberal and globalizing logic of capitalism local conditions and cultures determine that capitalism will spread in ways not entirely consonant with its Western origins Capitalism is not a free floating entity it is a socially embodied phenomenon that needs to function in various cultural contexts Consequently the tension between the universal status that some claim capitalism now occupies in the post Cold War world and the particularities of the local cultures it enters should be of great concern
