Building Citizenship:

Building Citizenship from Below Marcel Paret, Shannon Gleeson, 2017-05-18 Focusing on the precarity agency migration nexus this book leverages the political economic and social dynamics of migration to better understand deepening inequality and popular resistance Drawing on rich ethnographic and interview based studies of the USA and Latin America the authors show how migrants are navigating and challenging conditions of insecurity and structures of power Anchoring the study of migration in the opposition between precarity and agency the authors provide a new window into the continuously unfolding relationship between national borders global capitalism and human freedom This book was originally published as a special issue of Citizenship Studies [Building Citizenship](#) Richard C. Remy, 2016

Building Equality and Opportunity Through Social Guarantees Estanislao Gacitúa-Marió, Andrew Norton, Sophia V. Georgieva, 2009 This book examines the validity of a social guarantees approach as a framework for evaluating monitoring and improving the design of social policy Social guarantees are defined as sets of policy mechanisms that determine citizens entitlements related to basic services and ensure their fulfillment on the part of the state The social guarantee concept gives operational expression to fundamental human rights principles by providing mechanisms for awareness participation equity and redress in the delivery of social policy In addition the social guarantees approach responds to an emerging

The Single Currency and European Citizenship Giovanni Moro, 2013-02-28 Established in 2002 the Euro is now the currency of 17 countries used by over 335 million people daily Although the single currency is much discussed in terms of macroeconomics and global finances policymakers rarely address its impact on European citizenship in social cultural political and everyday life economics terms This hidden side of the single currency is the focus of the essays which use various approaches from economic history and political sociology to citizenship and legitimacy to reveal the connections between the Euro and European citizenship This timely contribution by renowned experts provides a greater understanding of the Euro at a time when it is not clear whether it should be celebrated or commemorated and looks into aspects of the single currency that are the base of the social trust that supports it and that is at stake in the present crisis It will be an essential tool to anyone studying the political social and economic development of the E U

Making Of Southeast Asian Nations, The: State, Ethnicity, Indigenism And Citizenship Leo Suryadinata, 2014-11-21 The idea of the nation is a Western concept which has been applied to Southeast Asia It is a project which has been in progress since the last century but is still incomplete Various theoretical frameworks which are associated with nation and nation building in the Southeast Asian region have been briefly dealt with The book aims to examine the making of the nations in Southeast Asia using both historical and political science approaches Concepts related to nation such as ethnicity state indigenism and citizenship have also been analysed in the Southeast Asian context Specific examples of nation building in five major Southeast Asian countries are presented Problems and prospects of Southeast Asia's nation building and citizenship building in the era of globalisation are also discussed

Civil Society, Citizenship and Learning Agnieszka Bron, Michael Schemmann, 2001 Writing the story of democracy might seem like writing a story of success In more and more countries all over the world democracy has been established as the leading form of government However democracy also has a less positive and optimistic side Political scandals and corruption continue to shatter people s trust in its promises and institutions This brings us to the topic of active democratic citizenship and civil society Since the late 1980s these topics have continued to rise in importance in the fields of social and political sciences and their influence has yet to reach a peak In comparison civil society and citizenship remain relatively new topics for adult education dating to the beginning of the 1990s We also see that the respective national discourses within the different European countries differ immensely Whereas the discourse on adult education and active democratic citizenship is quite lively in Great Britain or in Poland in Germany there is only very little interest Civil Society

Citizenship and Learning the second volume of the Bochum Studies in International Adult Education presents a variety of different perspectives on the topics of citizenship and civil society The goal of this book is to give an overview of the European discourse on citizenship and civil society as well as on the discourse in some selected countries Agnieszka Bron ist Professorin am Institut f r P dagogik der Universit t Bochum **The State-Democracy Nexus** Jørgen Møller, Svend-Erik Skaaning, 2016-04-14 The great dilemma of democracy revolves around the state Historically the state has played a crucial role as enforcer of liberal democratic constitutions but it has also been used by autocratic rulers to entrench their rule The state is thus a two edged sword It can both be the guarantee of democratic rights and a tool that can be used to suppress such rights One corollary of this is that the influence of state structures on democratic development depends on who holds government power But the opposite observation can also be made as governments play an important role in shaping the state apparatus The state and the regime are thus intertwined Against this backdrop this book presents a series of attempts authored by influential experts such as Francis Fukuyama and Gerardo Munck to disentangle the relationship between the state and political regimes The contributions differ in terms of their particular theoretical and empirical focus But they share the assumption that three criteria need to be observed to achieve a better understanding of the state democracy nexus First it is valuable to distinguish conceptually between different aspects of the state Second the potential relationships between democracy and these attributes of state should be carefully theorized Third the consequent propositions must be interrogated using comparative approaches This book was originally published as a special issue of Democratization

Citizenship Education in Multicultural Society Daria Hejwosz-Gromkowska, Celina Czech-Włodarczyk, Dobrochna Hildebrandt-Wypych, Inetta Nowosad, 2025-01-20 Analysing the citizenship education approaches of England the Netherlands Canada Ontario and Singapore offers an interesting glimpse into how different societies handle the interplay between cultural diversity national identity and educational strategies This study illuminates the shared challenges and unique responses shaped by each country s historical cultural and political context The study aims to analyse the selected issues concerning the agenda of citizenship education policy and school practices in the selected countries The authors undertake a comprehensive review of the development of multicultural societies and delve into an analysis discussion and reconstruction of the current socio political context of citizenship education in the aforementioned countries *From Prohibited*

Immigrants to Citizens Jonathan Klaaren, 2017-10-31 Jonathan Klaaren blends legal and social history in this engaging account of early conceptions of South African citizenship He argues that distinctively South African notions of citizenship and nationality come out of the period 1897 to 1937 through legislation and official practices employing the key concept of prohibited immigrant and seeking to regulate the mobility of three population groups African Asian and European Further he makes the case that the regulation and administration of immigrants from the Indian sub continent in particular provided the basis for the vision and eventual reality of a unified although structurally unequal South African population This book fits into

the growing field of Mobility Studies which seeks to understand and document the migration of people both within and across national borders while exploring the origins of those borders In addition to nationality and citizenship it touches on African pass laws the origins of the Public Protector the scheme importing Chinese labour to the gold mines the development of internal bureaucratic legality and India South Africa intra imperial relations With its attention to the role of law in state building and its understanding of the central place of implementation and administrative law in migration policy this book offers a distinctive focus on the relationship between migration and citizenship **The New Public Service** Janet V Denhardt, Robert B. Denhardt, 2015-02-12 This widely praised book is built around seven core principles that provide a framework for the many voices calling for the reaffirmation of democratic values citizenship and service in the public interest This edition includes a brand new chapter that provides action recommendations for putting these values into practice as well as current examples of how these ideas have been put to use in the real world **The Trouble with Government** Derek Curtis Bok, 2001 The author of State of the Nation seeks to determine the main reasons for the failings and frustrations associated with government and offers concrete steps that Americans can take to become politically engaged and to help the United States to improve its performance 3 tables **Learning Citizenship by Practicing Democracy** Elizabeth Pinnington, Daniel Schugurensky, 2009-12-14 For many years the fields of citizenship education and participatory democracy have often operated independently from each other During the last decade the Transformative Learning Centre of the University of Toronto has nurtured multiple spaces for an interdisciplinary dialogue among scholars practitioners and students from these two fields One of those spaces was the Second International Conference on Citizenship Learning and Participatory Democracy where close to 300 participants from all over the world shared ideas in more than 150 sessions including discussions round tables workshops and keynote addresses This volume brings together a selected collection from the many papers submitted to the conference Learning Citizenship by Practicing Democracy International Initiatives and Perspectives includes an introductory essay 18 chapters and a postscript and is organized in three sections I Learning democracy in educational institutions II Learning democracy in communities III Learning democracy in participatory budgeting The articles in this book represent a variety of perspectives as the authors come from different geographical and disciplinary locations but they all share a commitment to improvements in theory research and practice in the worldwide movement for deepening democracy and for an emancipatory citizenship education **The Handbook of Plurilingual and Intercultural Language Learning** Christiane Fäcke, Xuesong (Andy) Gao, Paula Garrett-Rucks, 2024-11-08 The most up to date reference text on the latest science in plurilingual and intercultural language education covering both new research and current practice The Handbook of Plurilingual and Intercultural Language Learning reveals the nuances and complexities of teaching and learning languages while providing a timely account of the most recent developments and research in the field The first reference work to examine plurilingual and intercultural language teaching and learning trends across five
