America John A. Peeler, 1998 *The Armed Forces and Democracy in Latin America* John Samuel Fitch, 1998 The book tackles the subject of the military and politics in Latin America from a broad historical perspective drawing on literature in the field and other information based on personal interviews with officers *Building Democratic Institutions*, 1995 Third the authors investigate the relationship between major parties and the state revealing the extent to which parties are dependent on state resources to maintain power and win votes Fourth the contributions assess the importance of different electoral regimes for shaping broader patterns of party competition Finally and most important the authors characterize the nature of the party system in each country how institutionalized it is and how it can be classified BOOK JACKET *Building Democracy from the Grassroots* Organization of American States. Latin America Katherine Isbester, 2011-01-01 Inviting in tone and organization but rigorous in its scholarship this collection focuses on the problems successes and multiple forms of democracy in Latin America **The Unfinished Transition to Democracy in Latin America**, **Democracy in Latin America** Geraldine Lievesley, 2024-07-30 This book offers an insight into the democratic processes and institutions in Latin and Central America It analyses the different political systems and the challenges to them from the Left and popular movements Lievesley questions how far democracy is embedded in Latin and Central American and asks what constitutes citizenship in political cultures which remain highly differentiated in terms of the structures and relations of power She does this through an evaluation of the two distinct perspectives of democracy the liberal pacted and the radical participatory models Established political systems systems in transition from military to civilian rule and Socialist systems are viewed through the prism of these two models The inter relationship between state military political parties and popular movements are examined with a view to determining the possibility of the emergence of a new politics which would be inclusion rather than exclusionary and would pursue social justice The book will provide a stimulating assessment of the region s politics for undergraduates and will provoke debate for postgraduates

Deepening Democracy Latin America Kurt Von Mettenheim, James Malloy, 1998-07-15 Ten leading scholars of the region present original research to argue that theories of democratic consolidation or institutionalization are too often Euro and ethno centric that simple appeals for greater participation are insufficient and that recent critics of populism patronage and presidentialism fail to capture new opportunities for democracies in the region **The State of Democracy in Latin**

America Jonathan R. Barton, Laura Tedesco, 2004-11-04 The State of Democracy in Latin America critically examines the nature of the post transitional Latin American state with a more specific engagement with the cases of Argentina and Chile

Electoral Rules and Democracy in Latin America Cynthia McClintock, 2018 During Latin America's third democratic wave a majority of countries adopted a runoff rule for the election of the president effectively dampening plurality voting opening the political arena to new parties and assuring the public that the president will never have anything less than majority support In a region in which undemocratic political parties were common and have often been dominated by caudillos cautious naysayers have voiced concerns about the runoff process arguing that a proliferation of new political parties vying for power is a sign of inferior democracy This book is the first rigorous assessment of the implications of runoff versus plurality rules throughout Latin America and demonstrates that in contrast to early scholarly skepticism about runoff it has been positive for democracy in the region Primarily through qualitative analysis for each country the author argues that indeed an important advantage of runoff is the greater openness of the political arena to new parties at the same time that measures can be taken to inhibit party proliferation In this context it is also the first volume to address whether or not a runoff rule with a reduced threshold for example 40% with a 10 point lead is a felicitous compromise between majority runoff and plurality The book considers the potential for the superiority of runoff to travel beyond Latin America in particular and rather provocatively to the United States

Decentralization in Asia and Latin America Paul J. Smoke, Eduardo J.

Gömez, George E. Peterson, 2006-11-28 Public sector decentralization has emerged prominently in many Asian and Latin American countries as a strategy to promote development and political reform Results in both cases have been mixed Despite broad similarities in intent and outcome contextual differences between the regions have led to striking differences in the way decentralization has been structured and implemented This volume takes an atypically historical and interdisciplinary perspective on decentralization highlighting how fiscal and political forces together have been shaping its evolution in the two regions

The Challenges of Creating Democracies in the Americas Alex Roberto Hybel, 2019-07-22 This book's leading goal is to explain why some states in the Americas have been markedly more effective than others at forming stable democratic regimes The six states analyzed are the United States Mexico Colombia Venezuela Costa Rica and Guatemala The study identifies the critical challenges each state encountered at different stages of its state creation and regime formation processes from the colonial period to the present In its concluding chapter the study presents a series of time related hypotheses designed to capture the different evolutionary processes and explain variances in success

Democratic Governance in Latin America Scott Mainwaring, Timothy R. Scully, 2009-11-24 Producing more effective governance is the greatest challenge that faces most Latin American democracies today a challenge that involves not only strengthening democratic institutions but also increasing governmental effectiveness Focusing on the post 1990 period this volume addresses why some policies and some countries have been more successful than others in meeting this dual challenge Two

features of the volume stand out First whereas some analysts tend to generalize for Latin America as a whole this group of authors underscores the striking differences of achievement among countries in the region and illustrates the importance of understanding these differences The second feature is the range of expertise within the volume In addition to the volume editors the contributors are Alan Angell Daniel Brinks Fernando Henrique Cardoso Jos de Gregorio Alejandro Foxley Evelynne Huber Jos Miguel Insulza Juliana Mart nez Franzoni Patricio Navia Francisco Rodriguez Mitchell Seligson John Stephens Jorge Vargas Cullell and Ignacio Walker

Civil Society and Democracy in Latin America R. Feinberg, C. Waisman, L. Zamosc, 2006-04-03 A dense web of private associations drawn from multiple social classes interest groups and value communities makes for a firm foundation for strong democracy In Latin America today will civil society improve the quality of democracy or will it foster political polarization and reverse recent progress Distinguished theorists from the United States Canada and Latin America explore the diverse impact of civil society on economic performance political parties and state institutions In depth and up to date country studies explore the consequences of civil society for the durability of democracy in three highly dynamic controversial settings Argentina Brazil and Venezuela

Latin American Democratic Transformations William C. Smith, 2009-08-24 Latin American Democratic Transformations explores the manner in which Latin American societies seek to consolidate and deepen their democracies in adverse domestic and international circumstances The contributors engage recent debates on liberal and illiberal democracy and probe the complex connections between democratic politics and neoliberal market oriented reforms

Building Democracy in Contemporary Russia Sarah L. Henderson, 2018-07-05 Can foreign donors help build new democracies In the 1990s public and private organizations such as USAID and the Soros Foundation poured huge amounts of money and expertise into Russia to help build the dream of a vibrant democratic society Sarah L Henderson argues that despite the altruistic intentions of foreign assistance agencies and domestic activists foreign aid designed to spur civic growth has had unintended consequences Drawing on extensive field work survey research and work experience for several funding agencies in Moscow in the late 1990s Henderson focuses on donor efforts to support the emerging community of nongovernmental organizations and in particular on efforts to build a functioning women s movement in Russia Her intimate knowledge of Russia s growing NGO community informs a worrisome finding foreign aid has made a tremendous difference but not in altogether expected or positive ways New Russian civic groups serve either the needs of an indigenous clientele or the demands of the foreign aid bureaucracy but rarely both Henderson s research and experience show that while aid has kept a fledgling civic community alive it is a civic community that is disconnected from its own domestic audience The book suggests that large flows of foreign aid have in some ways damaged the long term prospects for democratization in Russia

Developments in Latin American Political Economy J. Buxton, N. Phillips, 1999-08-20 The first part of the volume addresses the changing nature and interaction of the state and the market in Latin American countries as well as the principal challenges of consolidating political and economic reform in a

period of profound change The second part of the book examines a variety of traditional and non traditional political roles ranging from the military to women and from the environmental lobby to human rights It explores the ways in which the changing composition of the political debate is shaping the political arena Forward looking in its approach to volume provides readers with an indication of factors which will be of key significance in the immediate future the tensions which have yet to be resolved and the prospects ahead

The Democratic Century Seymour Martin Lipset, Jason M. Lakin, 2004 In this study on democracy and democratic systems two scholars offer an expansive view of democratic systems and explain why democracy has succeeded in some countries and has failed in others

Post-Stabilization Politics in Latin America Carol Wise, Riordan Roett, 2003-07-28 Over the last twenty years Latin America has seen a definitive movement toward civilian rule Significant trade fiscal and monetary reforms have accompanied this shift exposing previously state led economies to the forces of the market Despite persistent economic and political hardships the combination of civilian regimes and market based strategies has proved to be remarkably resilient and still dominates the region This book focuses on the effects of market reforms on domestic politics in Latin America While considering civilian rule as a constant the book examines and compares domestic political responses in six countries that embraced similar packages of reforms in the 1980s Argentina Brazil Chile Mexico Peru and Venezuela The contributors focus on how ambitious measures such as liberalization privatization and deregulation yielded mixed results in these countries and in doing so they identify three main patterns of political economic adjustment In Argentina and Chile the implementation of market reforms has gone hand in hand with increasingly competitive politics In Brazil and Mexico market reforms helped to catalyze transitions from entrenched authoritarian rule Finally in Peru and Venezuela traditional political systems have collapsed and civilian rule has been repeatedly challenged The contributors include Carol Wise University of Southern California Karen L Remmer Duke University Carol Graham Brookings Institution Stefano Pettinato United Nations Development Programme Consuelo Cruz Tufts University Juan E Corradi New York University Delia M Boylan Chicago Public Radio Riordan Roett Johns Hopkins University Mart n Tanaka Institute for Peruvian Studies Lima and Kenneth M Roberts University of New Mexico
