Building European Union A Documentary History And Analysis:

Building European Union Trevor C. Salmon, William Nicoll, 1997 In Building European Union Trevor Salmon and William Nicoll draw upon twenty years experience one as an academic the other as a practitioner of European policy to bring together over 100 key documents on European integration in one volume each document or group of documents is preceded by commentary which locates the document in its historical context and explains its provenance purpose and impact upon the development of European Union *Designing the European Union* F. Laursen, 2012-12-15 This book outlines the content of the main treaties that form the constitutional basis of the European Union and analyses changes in these over time The EU has expanded its policy scope and taken in many more members transferring powers to common supranational institutions in a way seen nowhere else in the world *The European Union Handbook* Jackie Gower, 2013-10-31 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company *The Harmonization of International Commercial Law* Silvia Fazio, 2007-01-01 Preface 1 The World Scenario and the Approximation of Law 2 Vehicles for the Harmonisation of Law 3 Regionalisation and Standardisation of Law 4 Regional Corporate Law Harmonisation The EU and the Mercosur 5 The Infrastructure of Capital 6 The Phenomenon of Development International and Regional Approaches to Banking and Financial Law 7 Theories of the Company 8 Corporate Governance 9 International Legal Standards and the Inclusion of Emerging Countries in the Globalised Order The Case Study of Brazil 10 Conclusion Legal Pluralism and the Creation of Standards within the Process of Globalisation Analytical Summary and Theoretical and Practical Implications Bibliography **Journal of International and Area Studies**, 2004 **Foundations of Cultural Diplomacy** Nicolas K. Laos, 2011 This original systematic theory of cultural diplomacy opens a new way of thinking about diplomacy politics and culture Dr Laos methodically investigates the relationship between culture and politics and between the reality of the world and the reality of consciousness In so doing he articulates a new approach to international relations theory and the concept of power one based on philosophical arguments about reality history and freedom Dr Laos takes a stark and realistic look at the interplay between culture and politics and makes an intellectually challenging contribution to normative international relations theory The author proposes a new way of defining critical political theory substantially different from the Frankfurt School s approach which leads to a new dynamic understanding of history and he argues that the chessboard of power is not so much on the surface of the earth as in the mental network formed by the communication between consciousnesses He presents an original explanation of the inherent inability of Realpolitik to account for reality throwing light on deep and controversial questions of identity for Europe and the West in general **The UK's Journeys Into and Out of the EU** Julie Smith, 2017-02-13 This Routledge Focus aims to investigate and analyse the United Kingdom s relationship with the European Communities EC and the European Union EU While the UK s voters opted to remain in the EC in a 1975 referendum by June 2016 a majority favoured leaving the EU This volume examines the UK s journey into the Union how

voters came to decide on Brexit and where the UK's departure from the EU may lead it **Grand Designs and Visions of Unity** Jeffrey Glen Giauque, 2002 In the late 1950s against the unfolding backdrop of the Cold War American and European leaders began working to reshape Western Europe Focusing on the four largest Atlantic powers Britain France Germany and the United States Giauque explores these early stages of European integration **European Security in Integration Theory** Kamil Zwolski, 2018-02-08 This book examines federalism and functionalism two fundamental yet largely forgotten theories of international integration Following the recent outbreak of the war in Ukraine policy practitioners and scholars have been in search of a deeper understanding of the likely causes of the conflict and its consequences for the European security architecture Various theories have been deployed to this end but international and European integration theory remains conspicuously absent The author shows how the core tenets of integration theories developed after World War I particularly how they viewed territoriality and geopolitical boundaries remain as relevant today as they were almost 100 years ago *Religion and the Struggle for European Union* Brent F. Nelsen, James L. Guth, 2015-05-01 In *Religion and the Struggle for European Union* Brent F. Nelsen and James L. Guth delve into the powerful role of religion in shaping European attitudes on politics political integration and the national and continental identities of its leaders and citizens Nelsen and Guth contend that for centuries Catholicism promoted the universality of the Church and the essential unity of Christendom Protestantism by contrast esteemed particularity and feared Catholic dominance These differing visions of Europe have influenced the process of postwar integration in profound ways Nelsen and Guth compare the Catholic view of Europe as a single cultural entity best governed as a unified polity against traditional Protestant estrangement from continental culture and its preference for pragmatic cooperation over the sacrifice of sovereignty As the authors show this deep cultural divide rooted in the struggles of the Reformation resists the ongoing secularization of the continent Unless addressed it threatens decades of hard won gains in security and prosperity Farsighted and rich with data *Religion and the Struggle for European Union* offers a pragmatic way forward in the EU's attempts to solve its social economic and political crises **Historical Dictionary of the European Union** Finn Laursen, 2015-10-30 The current European Union EU has existed since 1 November 1993 It emerged from the Treaty of Maastricht largely negotiated during 1991 But the history of European integration goes further back The Schuman Declaration of 9 May 1950 led to the creation of the European Coal and Steel Community ECSC in 1951 and in 1957 the two Treaties of Rome created the European Economic Community EEC and the European Atomic Energy Community EAEC or EURATOM which started operating from 1 January 1958 For some years the EEC was often referred to as the Common Market The Merger Treaty of 1965 in force since 1967 created a single executive the European Commission and a single Council of Ministers The three Communities from the beginning in 1958 shared the Parliamentary Assembly and European Court of Justice ECJ Although these Communities still had separate treaties they were increasingly seen as the European Community EC This new edition of *Historical Dictionary of the European Union* has a
