Implementing School-based Management Harry P. Hatry, 1993 This report presents the findings and recommendations of an examination of the implementation of a major form of school based management SBM It is based on case studies of the science and mathematics departments of 10 high schools and 9 middle or junior high schools in 12 school systems almost all of which are urban school districts The study found that implementation often falls short of the ideal It did not find dramatic changes resulting from SBM However those schools and faculty members that took advantage of their added flexibility under SBM were able to achieve numerous small scale improvements The report provides a series of recommendations for school districts and individual schools to increase the likelihood of successful implementation of decentralization efforts such as SBM The findings and recommendations cover such issues as 1 the extent of decentralization of budgeting expenditure and personnel decisions 2 the role of site councils and department heads and 3 communication and training needs Appendixes list participating schools and districts and contain a literature review Contains 117 references Author SLD

Managing America's Cities Roger L. Kemp, 2014-01-10 This work describes the operations of a typical municipal government and examines the many productivity trends that are occurring in city halls across America Much of the focus is on the increasing need for planning in city government to ensure that productivity goals are met It thoroughly examines the roles of the council manager and clerk in promoting increased productivity It then looks at such municipal departments as legal finance fire human services library police and public works demonstrating proven techniques and structures in each that improve service Instructors considering this book for use in a course may request an examination copy here
Public Policy Studies Stuart S. Nagel, 2002 Covers the methods substance and process of public policy
Policy Creativity Stuart S. Nagel, 2002 Whenever a question of public policy is addressed heated arguments ensue Liberals tout one solution conservatives another and still others appear who are neither liberal nor conservative but have their own desired solution In such a heated political atmosphere legislators and policy makers need to creatively balance competing factions and wants This book looks at the practical application of creativity in a broad set of policy areas The chapters take note of diverse topics like merit treatment technology vouchers and budgeting while also offering theoretical studies of the concept of creativity and its potential in the coming years Concluding the book is a bibliography of books about creativity
The Private Sector in State Service Delivery Joan W. Allen, 1989 The purpose of this book is to encourage state officials to consider opportunities for greater use of the private sector by giving examples of actual experiences drawn from a wide variety of states Services covered are corrections parks and recreation human services employment and training and

Policy and Research Report ,1989 Energy Abstracts for Policy Analysis ,1985-07 Commerce, Justice, Science, and Related Agencies Appropriations for 2012 United States. Congress. House. Committee on Appropriations. Subcommittee on Commerce, Justice, Science, and Related Agencies,2011 Library Closures Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2012-11-06 Recent campaigns against the closure of local libraries have highlighted the strong attachment that many people feel to their library services However much of the focus of the campaigns has been on library branches rather than the broader question of the preservation and possible enhancement of the library service Reductions in opening hours and the loss of professional staff may damage the service more than the closure of particular buildings The provision of a library service is a statutory duty but a number of councils have drawn up plans that fail to comply with the requirement to provide a comprehensive and efficient service A full assessment of the needs of the local population for the services is key Guidance on how to assess local needs does exist but more must be done to disseminate it Although the future of public libraries may be uncertain there is opportunity for reassessment of their roles and how they are organised The Committee saw many examples of innovative thinking about what libraries can offer to the local population and a number of models of how those services might be provided Councils which have transferred the running of libraries to community volunteers must continue to provide support otherwise failure may be viewed as closures by stealth The Committee looks forward to the promised report by the end of 2014 on the cumulative effect on library services of the cuts in local authority provision and the promotion of alternatives such as transfers to community volunteers
