Peace or Democracy? Izabela Pereira Watts, 2023-04-03 Contrary to the common belief that peace and democracy go hand in hand after a civil war Pereira Watts argues they are in fact at a crossroads Offering an innovative framework based on Philosophical Actors and Tactical considerations Pereira Watts identifies 14 dynamic dilemmas in democratic peacebuilding with respective trade offs She focuses on explaining the contradictions in modern post conflict recovery the challenges facing interim governments and the international community's role Based on an analysis of more than 40 countries between 1989 and 2022 and more than 60 UN peace operations she presents critical issues that commonly need to be addressed in such scenarios Elections and Political Parties the Constitution Checks Balances and Power sharing Transitional Justice Human Rights Amnesty Truth Commissions and War Crimes Tribunals Disarmament Demobilization and Reintegration and Media Reform and Civil Society Solving any of these dilemmas leads to others that shape a complex apparatus for restoring peace and installing a new political regime An essential resource for decision takers policymakers international analysts and practitioners in the field of peacebuilding that will also be of great value to students of International Relations and Peace Studies as well as anyone interested in peacekeeping democracy building and state building

Public administration, democracy and peacebuilding in the Democratic Republic of the Congo Jean Chrysostome K. Kiyala ,2025-08-01 The Democratic Republic of Congo DRC presents a striking paradox vast natural and mineral wealth coexist with persistent poverty weak infrastructure and fragile institutions Kiyala's four part scholarly book explores these tensions aiming to identify practical and effective strategies to address the country's complex challenges To meaningfully confront the DRC's enduring crises Kiyala argues that public administration must engage with key drivers of insecurity and instability These include 1 Employing the Dodd Frank Act's Section 1502 on conflict minerals particularly the impact of the de facto embargo on the 3Ts tin tungsten and tantalum 2 The question of Congolese citizenship for the Banyamulenge Tutsi communities of the DRC and the need for legislative clarity 3 Regional and international collaboration to address ongoing threats to peace such as the remnants of the FDLR and other armed groups 4 The complex integration of the M23 movement and other armed factions into the national army through effective screening vetting and identification processes 5 The revitalisation of transitional justice reconciliation and national healing efforts Without addressing these core issues with resolve and coherent strategies efforts toward lasting peace and sustainable development will remain elusive The book also introduces the peacebuilding evolution systems theory PBEST a novel framework that integrates peacebuilding theory with insights from neuroscience The PBEST emphasises the progressive development of peace from individual disposition to collective global action for domestic and international security Rich in empirical analysis this scholarly work offers significant insights not only for scholars and researchers but also for practitioners and policymakers in African studies political science public administration and conflict resolution

Peacebuilding in Crisis Tobias Debiel, Thomas Held, Ulrich

Schneckener,2016-01-29 The 1990s saw a constant increase in international peace missions predominantly led by the United Nations whose mandates were more and more extended to implement societal and political transformations in post conflict societies However in many cases these missions did not meet the high expectations and did not acquire a sufficient legitimacy on the local level Written by leading experts in the field this edited volume brings together liberal and post liberal approaches to peacebuilding Besides challenging dominant peacebuilding paradigms the book scrutinizes how far key concepts of post liberal peacebuilding offer sound categories and new perspectives to reframe peacebuilding research It thus moves beyond the liberal post liberal divide and systematically integrates further perspectives paving the way for a new era in peacebuilding research which is theory guided but also substantiated in the empirical analysis of peacebuilding practices This book will be essential reading for postgraduate students and scholar practitioners working in the field of peacebuilding By embedding the subject area into different research perspectives the book will also be relevant for scholars who come from related backgrounds such as democracy promotion transitional justice statebuilding conflict and development research and international relations in general

A Critical Approach to Youth Sector Peacebuilding Andy Hamilton,Mark Hammond,Eliz McArdle,2025-04-17 Using Northern Ireland as a compelling case study this book offers a critique of peacebuilding approaches with young people in contested societies In the north of Ireland the spectre of murderous violence is increasingly distant for peace agreement generations However legacies stemming from the 30 years of protracted conflict are ever present in young people s segregated lives This book presents four distinctive viewpoints that inform contemporary peacebuilding work with young people revealing divergent purposes and conflicting aspirations Offering a new model to understand peacebuilding the authors urge peacebuilding communities around the globe to embrace an increasingly politicising and participative youth peace praxis

The Philosophy of the Austrian School Raimondo Cubeddu,2005-08-18 The Austrian School has made some of the most significant contributions to the social sciences in recent times but attempts to understand it have remained locked in a polemical frame In contrast The Philosophy of the Austrian School presents a philosophically grounded account of the School s methodological political and economic ideas Whilst acknowledging important differences between the key figures in the School Menger Mises and Hayek Raimondo Cubeddu finds that they also have significant things in common Paramount amongst these are theories of subjective value

and notions of spontaneous order both of which rest on theories of seminal avenues of research in the social sciences and a major reformulation of liberal ideology The Routledge Handbook of Conflict and Peace Communication Stacey L. Connaughton, Stefanie Pukallus, 2024-10-29 This handbook provides a comprehensive review of research in conflict and peace communication and offers readers a range of insights into foundational ongoing and emerging discussions in this field The volume brings together peace studies conflict studies and communication studies to acknowledge the power of communication both cooperative solidarizing and integrative as well as destructive and divisive in constituting social relations It features a multiplicity of authors including academics and practitioners from all corners of the globe and from across the communicative spectrum The handbook is divided into four parts 1 Meta theoretical theoretical and methodological approaches in conflict and peace communication research 2 Conflict communication 3 Peace communication and 4 Cross cutting and emergent themes This handbook is essential reading for scholars research driven practitioners graduate level students and upper level undergraduate students in conflict and peace communication within disciplines such as communication studies political science international relations security studies and human rights **Routledge Handbook of Peacebuilding** Roger Mac Ginty, 2024-08-20 This updated and revised second edition of the Routledge Handbook of Peacebuilding contains cutting edge analyses of contemporary attempts to reach and sustain peace The book covers the main actors and dynamics of peacebuilding as well as the main challenges that it faces with accessible chapters The volume is comprehensive covering everything from the main international institutions for peacebuilding to the links between peacebuilding and climate change or peacebuilding and trauma It is also firmly interdisciplinary with a number of chapters devoted to showcasing how different disciplines interpret peacebuilding and how they contribute to it Bringing together leading thinkers and practitioners on peacebuilding many from the Global South the handbook offers a valuable hands on perspective on how peace can be secured and sustained There is a significant emphasis on comparison and the book shows how peacebuilding is best examined from the vantage point of multiple cases The book is organised into six thematic sections Part I Architecture and Actors Part II Reading Peacebuilding Part III Issues and Approaches Part IV Violence and Security Part V Everyday Living Part VI Disciplinary Approaches This book will be essential reading for students of peacebuilding mediation and post conflict reconstruction and of great interest to students of statebuilding intervention civil wars conflict resolution war and conflict studies and IR in general Chapter 25 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license Peacebuilding Elisabeth Porter, 2007-09-18 This volume elucidates some key ideas and practices underlying women's peacebuilding highlighting positive examples of their contribution to peacebuilding in conflict zones and in societies pursuing transitional justice **The Oxford Handbook of Peacebuilding, Statebuilding, and Peace Formation** Oliver P. Richmond, Gözim Visoka, 2021 Peacebuilding and statebuilding is one of the main approaches for preventing managing and

mitigating global insecurities dealing with the humanitarian consequences of civil wars and expanding democracy and neoliberal economic regimes Peace formation is a relatively new concept addressing how local actors attempt to shape or work in parallel to international and national projects The Oxford Handbook of Peacebuilding Statebuilding and Peace Formation serves as an essential guide to this vast intellectual landscape It offers a systematic overview of conceptual foundations political implications and tensions at the global regional and local levels as well as key policies practices examples and discourses underlining all segments of peacebuilding and statebuilding

Albert Camus as Philosopher and Political Thinker Tommaso Visone, 2025-01-27 This book explores the role of modesty in the thought of Albert Camus Camusian modestie affirms against nihilism and absolutism the necessity of taking care and putting passion into the relativity of human creation and recreation The book shows how this care and passion spring from the necessity of a continually renewed tension between the self and the limits which transcend the self From this standpoint modesty is not a form of moderation it goes to the root of human condition in face of the absurd It is a radical attitude which engages human life in a daily struggle for meaning With modesty in mind Camus reimagined the relation between meaning and absurdity history and nature self and other nation state and continent global north and south and war and peace In a world of arrogance narcissism and fear Camus philosophical and political insights are fundamental in order to re think and re imagine our present

Rethinking the Liberal Peace Shahrbanou Tadjbakhsh, 2011-03-08 This book presents a critical analysis of the liberal peace project and offers possible alternatives and models In the past decade the model used for reconstructing societies after conflicts has been based on liberal assumptions about the pacifying effects of open markets and open societies Yet despite the vast resources invested in helping establish the precepts of this liberal peace outcomes have left much to be desired The book argues that failures in the liberal peace project are not only due to efficiency problems related to its adaptation in adverse local environments but mostly due to problems of legitimacy of turning an ideal into a doctrine for action The aim of the book is to scrutinize assumptions about the value of democratization and marketization and realities on the ground by combining theoretical discussions with empirical evidence from key post conflict settings such as Iraq and Afghanistan These show the disparities that exist between the ideals and the reality of the liberal peace project as seen by external peacebuilders and domestic actors The book then proposes various alternatives and modifications to better accommodate local perspectives values and agency in attempts to forge a new consensus This book will be of great interest to students of peacebuilding peacekeeping statebuilding war and conflict studies international security and IR

Development and Society, 2000 **International Conflict Resolution and Peacebuilding Strategies** Daniela Nascimento, 2017-02-17 The analysis and interpretation of conflicts can be a dangerously simplistic exercise A western developed socio economic perspective can simplify conflicts in the so called Third World as the inevitable struggles of people who cannot coexist because of ethnic religious or cultural differences While acknowledging that many contemporary conflicts

are characterised and influenced by these factors this book calls for an approach to conflict prevention and resolution which mainly addresses the underlying political economic and social causes The conflict in Sudan where narratives evolved from an interpretation based on religious differences between a Muslim North and the Christian South provides a case study through which the author explores how most prevention and resolution strategies were based on flawed assumptions leading to poor results By focusing instead on the underlying socio economic inequality and marginalisation among groups she analyses the dynamics of the complex peace process to ascertain if and how economic and social rights were effectively included and implemented as a part of the peace agreement including after South Sudan s independence

Democracy and Civil Society in a Global Era Scott Nicholas Romaniuk, Marguerite Marlin, 2016-03-31 Democracy and Civil Society in a Global Era addresses challenges to the strengthening of active citizenship In this highly structured work the themes presented are linked to fostering a culture of peace and non violence the lessening of fear and insecurity in political economic social and cultural terms inherently detached from the conceptualization of political delineations and physical boundaries and the ability to live dignified lives The various regions that are represented in the case studies include the Indian sub continent Malaysia Indonesia Turkey Iran China the Middle East Nigeria and the EU The commonality and universality of the topics allows readers from any region of the world to relate to them This book presents a dynamic combination of theory and field research and is an iconoclastic tour de force of studies in democracy Policy makers think tanks and development practitioners may be particularly be interested in this book because it is about action rather than mere ideas and processes It demonstrates how social movements can introduce and strengthen equality inclusion accountability and the free flow of information These elements in turn can contribute to the acculturation of freedom and social justice in the developed world just as much as in the developing world
