by those whose lives are marked by the urban landscape and its social limits and possibilities At the heart of this text lies the question of how theatre can illuminate the urban and how theatre is illuminated by the urban The city like a play is a space where everything adopts multiple meanings It is an objective thought and a subjective experience a charged and symbolic thing as well as a real material lived reality The chapters in this book illustrate the theatre's uncanny ability to narrate and symbolize the physical and psychic space of the city Running through all of the pieces presented are the themes of power and of young people's sense of agency within the structures they dwell in and are shaped by Through drama education and applied theatre practices the affinity between the urban and its theatres is radically replaced by marginal spaces boulevards and schools As Guillermo Gomez-Peña suggests the theatre has gone to the people to serve their local and immediate need for a means of holding the urban and the self so that both can be interrogated and reimagined so that the various dystopias of urban existence can be envisaged as places of urban solidarity and as utopias at least of the mind This book was originally published as a special issue of *Research in Drama Education: The Journal of Applied Theatre and Performance* Arts Education, 2023-11-09 Arts Education A Global Affair highlights the adaptations that arts educators and researchers have undertaken to successfully adjust to the changes in arts education practices as a consequence of the global pandemic and its ongoing variants Moreover teaching and research in arts education have changed significantly as a consequence of the world-wide pandemic COVID-19 Emerging variants have exacerbated the situation and show no signs of subsiding In response to these challenges arts educators and researchers have developed new modes of instructional delivery and data collection These include asynchronous synchronous hybrid and bi-modal online learning and online questionnaires surveys focus groups and video interviews This volume highlights the adaptations that arts educators and researchers have undertaken to successfully adjust to this new reality in education *Artistic Thinking in the Schools* Pamela Costes-Onishi, 2019-07-11 This book examines current context-specific trends and developments in empirical research on arts education and arts in education in order to evaluate and create responsive approaches to future global challenges By highlighting the centrality of the arts in advancing future orientations in education it offers a timely and valuable contribution to educational issues on preparing teachers and learners for the increasingly complex societal dynamics and unpredictable global economy

to be interrogated so that we may understand the impact of outreach and education work on the communities and audiences it aims to reach A range of theatre practitioners and academics describe their work its background and what the authors understand to be successful outcomes for both the participants and the theatres Finally the book offers suggestions for both practitioners and researchers regarding further development in this work *Dramathemes* Larry Swartz,1995 Uses themes as a springboard for drama through games mime storytelling improvisation and choral speaking Themes include humour mystery fantasy animals relationships folklore the past and multiculturalism_ **Method Meets Art, Second Edition** Patricia Leavy,2015-01-07 This book presents the first comprehensive introduction to arts based research ABR practices which scholars in multiple disciplines are fruitfully using to reveal information and represent experiences that traditional methods cannot capture Each of the six major ABR genres m narrative inquiry poetry music performance dance and visual art m is covered in chapters that introduce key concepts and tools and present an exemplary research article by a leading ABR practitioner Patricia Leavy discusses the kinds of research questions these innovative approaches can address and offers practical guidance for applying them in all phases of a research project from design and data collection to analysis interpretation representation and evaluation Chapters include checklists to guide methodological decision making discussion questions and recommended print and online resources **JCT. ,1991*** **To Feel as Our Ancestors Did** Daniel A.
