Nomishan,2023-05-25 This book Education in

Nigeria Reflections and Global Perspectives provides a broad overview of education in Nigeria. It recognizes the vital role education plays in the development of Nigeria and has attempted to air the concerns and call of the Nigerian public as well as educators for reform in the educational system in Nigeria. The book further recognizes that Nigerian education continues to be evolved first into a system of Western European education and then into a global system of education. It attempts to examine the status of education in Nigeria and thereby seeks solutions by exploring Nigeria's and global historical perspectives, current trends and future directions regarding students and learning teachers and teaching the school curriculum and administration of schools. It is expected that the comprehensive nature of the text will be beneficial to individuals in teacher preparation programs as well as those who plan to work with children in pre-kindergarten/nursery through secondary settings. The chapter content of the book focuses on the variation of thought as to the principal objectives of educators to help students in Nigeria develop habits, skills and ideas and help them to think. It adds to the importance of providing education to all, especially at the time when Nigeria is frankly making an effort to affirm democracy. For any nation to be truly democratic, it must maintain an educated electorate. Education prepares people to make informed decisions that affect the society. All children in Nigeria should therefore receive an education to prepare them to become effective members of the world society. This book seeks to examine and reflect on education in Nigeria and globally, are genuinely working in order to produce not only intelligent men and women who will be cultured and skilled but also the leaders who will adapt themselves to their environment, adjust themselves to the outside world and give direction and purpose to their people for the building of a modern nation whose nationals must realize that they are destined to give leadership in many directions of human endeavour. Dr Nnamdi Azikiwe, FMR President of Nigeria speaking of progressive elements of Nigeria.

Reinventing STEM in Early Childhood Education Eugene Geist, 2025-05-09 Teaching STEM to young children is about more than helping them learn their numbers and facts It is an important and complex process that to be effective should honor the way children's brains are developing This book outlines how early childhood educators can best support young children's STEM journeys as children naturally take in information about their environment, synthesize it and grow in the process This comprehensive text details different theories of learning, research on how young brains develop, practical information on preparing your environment and yourself for teaching STEM to children, guidance for supporting diverse populations of students and developmental guidelines, sample standards, resources and lesson plans Organized chronologically, the book connects relevant STEM topics with each developmental age range and outlines common school standards for each grade Reinventing STEM in Early Childhood Education is meant to be a core text for preservice teachers in math and science methods courses and is also important reading for teacher educators and professional development programs

Reframing Teacher Education Julie D. Rainer, 2004-11-10 What is a constructivist teacher and what do they do This collection of essays will answer these questions as well as suggest specific ways to become or rejuvenate oneself using this approach Constructivist teachers walk the talk along seven dimensions: learning and development, authority and facilitation, action and reflection, autonomy and community, process and content, power and empowerment, critical thinking and multiple perspectives While these behaviors may at first appear to be opposites, the key is achieving balance among them Essays are organized around these themes and the conclusions support interdisciplinary content, reflection and life-long learning

Professional Development for Cooperative Learning Celeste M. Brody, Neil Davidson, 1998-07-10 Cooperative, collaborative learning procedures increasingly attract great attention in school and higher education settings This book has two main purposes: first, to enable educators to make informed decisions and choices about selecting, implementing and evaluating cooperative learning models with respect for the differences and diversity of goals among professionals in school communities; and second, to consider the goals of teachers' professional development in the context of organizational reforms that foster systemic school change, such as the development of learning communities The authors encourage professional development that goes beyond inservice workshops to include multi-year development and support for teachers They advocate that schools be administered under collaborative principles so teachers

can live the experience that they are trying to create in their own classrooms Professional Development for Cooperative Learning describes what works for professional development in cooperative learning and how difficult it is to bring about lasting change in school settings Brody and Davidson focus the dialogue on the nature of professional development linked to systemic changes and the successes failures and challenges encountered in the process
