A Buddhist Theory of Semiotics Fabio Rambelli, 2013-05-16 One of the first attempts ever to present in a systematic way a non-western semiotic system This book looks at Japanese esoteric Buddhism and is based around original texts informed by explicit and rigorous semiotic categories It is a unique introduction to important aspects of the thought and rituals of the Japanese Shingon tradition Semiotic concerns are deeply ingrained in the Buddhist intellectual and religious discourse beginning with the idea that the world is not what it appears to be which calls for a more accurate understanding of the self and reality This in turn results in sustained discussions on the status of language and representations and on the possibility and methods to know reality beyond delusion such peculiar knowledge is explicitly defined as enlightenment Thus for Buddhism semiotics is directly relevant to salvation this is a key point that is often ignored even by Buddhologists This book discusses in depth the main elements of Buddhist semiotics as based primarily on original Japanese pre-modern sources It is a crucial publication in the fields of semiotics and religious studies

Buddhist Scriptures as Literature Ralph Flores,2009-01-01 Buddhist Scriptures as Literature explores the drama lyricism and compelling storylines in Buddhist sacred writings while illustrating how rhetoric and ideology are at work in shaping readers reactions Ralph Flores argues that the Buddha s life story itself follows an archetypal quest romance pattern regal surroundings are abandoned and the ensuing feats are heroic The story can be read as an epic but it also has a comic plot confusions and trials until the Prince becomes utterly selfless having found his true element nirvana Making use of contemporary literary theory Flores offers new readings of texts such as the Nik yas the Dhammapada the Heart Sutra Zen koans Shantideva s Way of the Bodhisattva and the Tibetan Book of the Dead Understanding these works as literature

Shengren Thorsten J. Pattberg, 2012-10-01 The shengren is the single most important concept in Chinese history Since the Europeans had not anything like it but refused to hold the candle to China instead they withheld the shengren and talked about some lesser versions of Greek philosophers or Christian holy men The English soon found a slightly better translation they called the shengren sages The Germans however the descendants of the Holy Roman Empire of German Nation never had a concept for sages or sagehood In their effort to christen China the Germans called the shengren saints Few people realize how the fate of the shengren was inextricably linked to the German obsession with Holiness The European imperialists soon engaged in a fierce battle over China's most valuable possessions its names *Keywords Re-oriented*

Phenomenology and Chinese Yogacara in a Multicultural World Jingjing Li, 2023-11-30 While phenomenology and Yogacara Buddhism are both known for their investigations of consciousness there exists a core tension between them phenomenology affirms the existence of essence whereas Yogacara Buddhism argues that everything is empty of essence svabhava How is constructive cultural exchange possible when traditions hold such contradictory views Answering this question and positioning both philosophical traditions in their respective intellectual and linguistic contexts Jingjing Li argues that what Edmund Husserl means by essence differs from what Chinese Yogacarins mean by svabhava partly because Husserl problematizes the substantialist understanding of essence in European philosophy Furthermore she reveals that Chinese Yogacara has developed an account of self transformation ethics and social ontology that renders it much more than simply a Buddhist version of Husserlian phenomenology Detailing the process of finding a middle ground between the two traditions this book demonstrates how both can thrive together in order to overcome Orientalism **International**

first sustained investigation of the political dimension in the work of J G Ballard A product of and reaction to the cultural socio economic moment commonly designated as the postmodern condition Ballard's oeuvre is read as a continuous and developing meditation on the postmodern examining it specifically as an expression of late capitalism The book shows that at the heart of this meditation lies the question of resistance Drawing on a wide range of concepts and ideas taken from the field of critical theory it argues that in the face of a world marked by an unprecedented expansion of capital in which modernity's grand narratives have been invalidated and in which received forms of political struggle have lost their effectiveness Ballard's fiction commits itself to a deliberately irrational and extreme pataphysical thought in order to develop a new discourse of resistance Against past readings that have construed Ballard's writing as non political decadent or quietist the study thus reveals Ballard as a thoroughly political author committed to a subversive politics In this way the book
