modern astronomy to explore the science of astronomy as it was practiced in various cultures prior to the invention of the telescope The book reviews an enormous and growing body of literature on the cultures of the ancient Mediterranean the Far East and the New World particularly Mesoamerica putting the ancient astronomical materials into their archaeological and cultural contexts The authors begin with an overview of the field and proceed to essential aspects of naked eye astronomy followed by an examination of specific cultures The book concludes by taking into account the purposes of ancient astronomy astrology navigation calendar regulation and not least the understanding of our place and role in the universe Skies are recreated to display critical events as they would have appeared to ancient observers events such as the supernova of 1054 the lion horoscope or the Star of Bethlehem Exploring Ancient Skies provides a comprehensive overview of the relationships between astronomy and other areas of human investigation It will be useful as a reference for scholars and students in both astronomy and archaeology and will be of compelling interest to readers who seek a broad understanding of our collective intellectual history Whitaker's Cumulative Book List ,1965 **The Athenaeum** ,1899 **Talking Book Topics** ,2000 Includes audio versions and annual title author index **The Atonement Creating Unions** Godfrey Kesari,2019-01-01 Why did Jesus die on the cross Does the atonement have any spiritual significance This book is a bold and imaginative endeavor to make atonement theology rational in a fresh way in our interreligious world Seeking connections between Christian and Hindu thinking in order to create hermeneutical bridges Godfrey Kesari aims to open up creative ways of reimagining the doctrine of the atonement which is so central to the Christian message Kesari retains the particularity of the unique events embracing the life suffering and death of Christ while linking clearly to the more universal considerations that are encountered within Visistadvaitic Hinduism These explorations in turn contribute to a new way of seeing the Christian revelation This is a ground breaking work that attempts to find a way of treating and defending the centrality and theological significance of the atonement with contextual relevance
