Buddhist Epistemology:

Illuminating the Mind Jonathan Stoltz, 2021 Illuminating the Mind puts the field of Buddhist epistemology in conversation with contemporary debates in philosophy Jonathan Stoltz provides readers with an introduction to epistemology within the Buddhist intellectual tradition in a manner that is accessible to those whose primary background is in the Western tradition of philosophy The book examines many of the most important topics in the field of epistemology topics that are central both to contemporary discussions of epistemology and to the classical Buddhist tradition of epistemology in India and Tibet Among the topics discussed are Buddhist accounts of the nature of knowledge episodes the defining conditions of perceptual knowledge and of inferential knowledge the status of testimonial knowledge and skeptical criticisms of the entire project of epistemology Stoltz demonstrates how many of the arguments and debates occurring within classical Buddhist epistemological treatises coincide with the arguments and disagreements found in contemporary epistemology He shows for example how Buddhist epistemologists developed an anti luck epistemology one that is linked to a sensitivity requirement for knowledge Likewise Stoltz explores the question of how the study of Buddhist epistemology can be of relevance to contemporary debates about the value of contributions from experimental epistemologists and to broader debates concerning the use of philosophical intuitions about knowledge Illuminating the Mind is essential reading for scholars and students interested in epistemology and its treatment in intellectual traditions beyond Western philosophy

Knowledge and Liberation Anne Carolyn Klein, 2012-01-01 Buddhist philosophy is concerned with defining and overcoming the limitations and errors of perception To do this is essential to Buddhism's purpose of establishing a method for attaining liberation Conceptual thought in this view can lead to a liberating understanding a transformative religious experience The author discusses the workings of both direct and conceptual cognition drawing on a variety of Tibetan and Indian texts The Gelukba interpretation of Dignaga and Dharmakirti is greatly at variance with virtually all other scholarship concerning these seminal Buddhist logicians

Buddhist Epistemology in the Geluk School Jonathan Samuels, Khedrup Je, Gyaltsab Je, The First Jamyang Shepa, 2025-08-26 Tibet's philosophical tradition is on brilliant display in this anthology of works exploring the means to finding certainty in an impermanent and interdependent world Here descendants of the great Tsongkhapa plumb the nature of knowing to harness it in the service of awakening This volume includes translations of three separate Tibetan works by iconic figures in the Geluk school of Buddhism The first work Banisher of Ignorance is by Khedrup Gelek Palsang 1385 1438 and the second On Preclusion and Relationship is by Gyaltsab Darma Rinchen 1364 1432 The authors popularly known as Khedrup Je and Gyaltsab Je were the foremost disciples of the Geluk school founder Tsongkhapa Losang Drakpa 1357 1419 The third text Mighty Pramana Sun is a commentary on the first chapter of Candrakirti's Clear Words

Prasannapada by Jamyang Shepa 1648 1721 These works concern themselves primarily with the Buddhist theory of knowledge the means by which we are able to know things and how we can be certain of that knowledge Encapsulating this theory is the notion of pramana the Buddhist understanding of which was shaped most significantly by the Indian masters Dignaga fifth to sixth century and Dharmakirti seventh century Based on their explanation pramana is often translated as valid cognition a literal reference to the kind of cognition that they proposed could be relied upon to supply indisputable knowledge In the Buddhist Pramana tradition rigorous reasoning is held to play a crucial role in gaining such knowledge and there is no better exemplar of the sophistication this endeavor achieved in Tibet than Khedrup Je s work here He systematically catalogs and rebuts a host of views with unmatched acumen and flair All three works illustrate how those who follow the tradition have viewed the systematic approach as necessary not only for textual analysis for those seeking to unravel the complexities of the Indian Buddhist scriptures and treatises but also for practitioners aiming to progress along the spiritual path and achieve the highest Buddhist goals

Buddhism as Philosophy Mark Siderits, 2007-01-01 Buddhism as Philosophy does more than just report what Buddhist philosophers said it presents their arguments and invites the reader to assess their overall cogency

Knowing Illusion: Bringing a Tibetan Debate Into Contemporary Discourse The Yakherds, 2021 Tsongkhapa 1357 1419 is by any measure the single most influential philosopher in Tibetan history His articulation of Prasangika Madhyamaka and his interpretation of the 7th Century Indian philosopher Candrakirti's interpretation of Madhyamaka is the foundation for the understanding of that philosophical system in the Geluk school in Tibet Tsongkhapa argues that Candrakirti shows that we can integrate the Madhyamaka doctrine of the two truths and of the ultimate emptiness of all phenomena with a robust epistemology that explains how we can know both conventional and ultimate truth and distinguish truth from falsity within the conventional world The Sakya scholar Taktsang Lotsawa born 1405 published the first systematic critique of Tsongkhapa's system In the fifth chapter of his Freedom from Extremes Accomplished through Comprehensive Knowledge of Philosophy Taktsang attacks Tsongkhapa's understanding of Candrakirti and the cogency of integrating Prasangika Madhyamaka with any epistemology This attack launches a debate between Geluk scholars on the one hand and Sakya and Kagyu scholars on the other regarding the proper understanding of this philosophical school and the place of epistemology in the Madhyamaka program This debate raged with great ferocity from the 15th through the 18th centuries and continues still today These two volumes study that debate and present translations of the most important texts produced in that context Volume I provides historical and philosophical background for this dispute and elucidates the philosophical issues at stake in the debate exploring the principal arguments advanced by the principals on both sides and setting them in historical context This volume presents English translations of each of the most important texts in this debate Knowing Illusion: Bringing a Tibetan Debate into Contemporary Discourse The Yakherds, 2021-04-19 This two volume set examines the Tibetan debate regarding the possibility of knowledge in the context of Madhyamaka initiated by the 15th century philosopher Taktsang's attack on Tsongkhapa's presentation of epistemology and Madhyamaka Volume II presents translations of the principal texts

Prasad, 2007-01-01 This book through extensive textual study explores the Buddha s and Buddhism s uncompromising and unflinching emphasis on the centrality of ethics as against any pernicious dogmas and metaphysical beliefs and their attempts to causally relate moral perfection to soteriological or eschatological goal What is most admirable about Buddhism is that it integrates the vertical development of human consciousness for which the other is the necessary condition with the gradual development of morality It was this emphasis which separated Siddhartha before he attained the Awakened Wisdom bodhi from his teachers Alara Kalama and Uddaka Ramaputta and it is for this reason that the Buddha calls himself and his Dhamma Patisotagami i e going against the currents of the prevailing dogmas and pernicious beliefs In brief Buddhism is about overcoming of suffering the greatest evil through ethicization of human consciousness and conduct which also takes care of the ethicization of the society and the universe Besides some of the essays of this book explore many other themes like Buddhist epistemology nature of self time and intercultural
