Wallace, 2015 Buddhism in Mongolia explores the unique historical and cultural elements of Mongolian Buddhism while challenging its stereotyped image as a mere replica of Tibetan Buddhism The book illuminates the historical social and cultural contexts within which Buddhism has operated as a major social and cultural force among the Mongols **Indian Studies**, 1970 **Thinking about Contradictions** Venanzio Raspa, 2017-12-04 This volume examines the entire logical and philosophical production of Nicolai A Vasil ev studying his life and activities as a historian and man of letters Readers will gain a comprehensive understanding of this influential Russian logician philosopher psychologist and poet The author frames Vasil ev's work within its historical and cultural context He takes into consideration both the situation of logic in Russia and the state of logic in Western Europe from the end of the 19th century to the beginning of the 20th Following this the book considers the attempts to develop non Aristotelian logics or ideas that present affinities with imaginary logic It then looks at the contribution of traditional logic in elaborating non classical ideas This logic allows the author to deal with incomplete objects just as imaginary logic does with contradictory ones Both logics are objects of interesting analysis by modern researchers This volume will appeal to graduate students and scholars interested not only in Vasil ev's work but also in the history of non classical logics A History of Sanskrit Grammatical Literature in Tibet, Volume 1 Transmission of the Canonical Literature Pieter Cornelis Verhagen, 2021-12-06 The first comprehensive survey of the important corpus of Indic literature on Sanskrit grammar extant in Tibetan translation in the Buddhist canon Core of the study is the description of the forty seven Sanskrit grammatical treatises covering some two thousand folios in the canon The contents of these texts and the historical information regarding their Tibetan translators

are examined in detail Further chapters are devoted to the grammatical analysis in an eighth century Tibetan handbook for translators and to data from Tibetan historiography The book offers the first systematic study of the extent and the historical development of the Tibetan expertise in Sanskrit grammar a central scholastic discipline in Buddhism It opens up a section of Tibetan literature essential to the understanding of the Indo Tibetan indigenous grammatical traditions *A History of Sanskrit Grammatical Literature in Tibet* Pieter C. Alles, 2010-03 Drawing on recent developments in the comparative study of religion this book explores the trends of the past sixty years from a global perspective Each of the ten chapters covers the study of religion in a different region of the world from Europe and the Americas to Asia and the Far East Topics covered include local background to the study of religions formation of religious studies in the region important thinkers and writings institutions interregional diversity and interregional connections emerging issues This book is a major contribution to the field of religious studies and a valuable reference for scholars researchers and graduate students **Opisanie Zabajkalskiej krainy w Syberji** Agaton Giller, 1867 **The Eastern Buddhist** , 1974 **"Ogrody Nauk i Sztuk"** 2015(5) Liliana Kołodziejczak, Agnieszka Imbierowicz, Beata Działo, 2015-12-22 Teksty naukowe debiutant w student w i doktorant w z nauk humanistycznych i spo ecznych Opisanie zabajkalskiej krainy w Syberji Agaton Giller, 1867 *Journal of the Varendra Research Museum* Varendra Research Museum, 1976
