Photography in Argentina Idurre Alonso, Judith Keller,2017-09-15 From its independence in 1810 until the economic crisis of 2001 Argentina has been seen in the national and international collective imaginary as a modern country with a powerful economic system a massive European immigrant population an especially strong middle class and an almost nonexistent indigenous culture In some ways the early history of Argentina strongly resembles that of the United States with its march to the prairies and frontier ideology the image of the cowboy as a national symbol equivalent to the Argentine gaucho the importance of the immigrant population and the advanced and liberal ideas of the founding fathers But did Argentine history truly follow a linear path toward modernization How did photography help shape or deconstruct notions associated with Argentina Photography in Argentina examines the complexities of this country's history stressing the heterogeneity of its realities and especially the power of constructed photographic images that is the practice of altering reality for artistic expression an important vein in Argentine photography Influential specialists from Argentina have contributed essays on various topics such as the shaping of national myths the adaptation of gesture as related to the disappeared during the dictatorship period the role of contemporary photography in the context of recent sociopolitical events and the reinterpreting of traditional notions of documentary photography in Argentina and the rest of Latin America **Imágenes de la nación**

Josefina Fernández, Alejandra Niedermaier, Beatriz E. Sznaider,2012 En el año 2010 Argentina festejó su Bicentenario produciendo distintas intervenciones respecto de los modos de recordar las narraciones históricas y las tradiciones culturales En ese marco la Biblioteca Nacional convocó a un concurso de becas de investigación para proyectos destinados a relevar el fondo patrimonial de la institución con relación a las representaciones y querellas de la nación En este libro publicamos tres de los trabajos resultantes de esos proyectos que articulan la lectura reflexiva con la pesquisa erudita Configuran un modo de conmemorar que comprende la celebración articulada con la crítica y el pensamiento Al indagar las formas de representar la nación lo hacen con el cuidado del arqueólogo que trata las huellas del pasado y con la pasión del que interroga los núcleos diversos de la identidad nacional **Imágenes del mundo histórico** Irene Marrone,2003 **Urban**

Photography in Argentina David William Foster,2007-08-17 This work examines the cultural impact of photography in Argentina following the end of the country's military dictatorship in the early 1980s The interpretive study surveys nine modern photographers in Argentina Marcelo Brodsky Gabriel Valansi Eduardo Gil Gaby Messina Adriana Lestido Gabriel Díaz Marcos López Silvio Fabrykant and Gabriela Liffschitz and covers the major themes in each of their works The author details each photographer's cultural and artistic contributions and provides a listing of the websites where their works can be viewed **Imágenes y representaciones de la infancia en el cine argentino** María Matilde Balduzzi,2024-11-20 Las

representaciones pictóricas fotográficas y cinematográficas surgen de aquello que en determinada época es posible ver nombrar y pensar. Tienen una intención transmiten un mensaje aun aquellas que abogan por una reproducción objetiva y naturalista y son reveladoras de otras menos manifiestas las representaciones sociales. Indagar en la manera en que se mostraron a niños y niñas en la pantalla en las características que se le atribuyeron y en los diversos modos de vivir la niñez que el cine argentino registró permite acercarse a las representaciones sociales sobre la infancia de distintos momentos históricos. Es asimismo una vía para comprender el papel que desempeña el cine en la construcción de imaginarios sobre la infancia una forma de acercarnos al modo en que las representaciones cinematográficas en confluencia o divergencia con discursos autorizados y con otras producciones culturales incidieron sobre las nociones compartidas acerca de aquellos y aquellas a quienes se pretendía representar. Siguiendo estas premisas la autora analiza películas argentinas de carácter documental testimonial y de ficción desde el cine mudo o silente hasta la actualidad a fin de aportar al conocimiento de las representaciones sociales sobre la infancia que el cine retomó del magma de significaciones imaginarias elaboradas y afianzadas o bien problematizadas y desnaturalizadas contribuyendo a su cuestionamiento.

La imagen de la moda Marcia Veneziani, 2021-09-06
 La idea de encarar este trabajo de investigación parte precisamente de una de las funciones primarias de la vestimenta que es la de cubrirse. Intenta iniciar un estudio respecto de la vestimenta como emergente cultural a través del tiempo. Esta investigación consiste en una observación con el fin de quitar lo que está cubierto para ver que es lo que hay detrás. Para ello recurre a estudios bibliográficos y a los medios de comunicación ya que allí es donde esta manifestación se aparece como más evidente. En este último caso se circunscribe al universo de las revistas femeninas y de interés general por ser ellas en las que más claramente se puede percibir esta expresión de la moda. Son quienes sacan a la luz y reflejan a modo de un espejo nuestras costumbres. El tema de la vestimenta es de una gran complejidad. Abarca varios aspectos de la personalidad y de la vida. Se podrá hablar de un carácter externo de la vestimenta lo que se ve lo más superficial el mundo de las apariencias y de uno interior entendiendo por interior lo profundo lo interior lo más hondo. Nos vestimos para nosotros pero también para los demás. Nos vestimos por necesidad y también porque queremos decir algo. Según Umberto Eco el vestido es comunicación. La vestimenta también es expresión y posee sus propios códigos de acuerdo con cada cultura. Es decir que la vestimenta funciona también como transmisor de ideologías. La investigación se encauza en las décadas del 40 del 70 y la que estamos recorriendo actualmente intentando observar los principales acontecimientos que considera de gran importancia para un estudio referente a la mujer y estimando que la vestimenta es una de las tantas expresiones culturales de una sociedad. Se trata de ofrecer un aporte que facilite comprender en este aspecto indicado la vestimenta el comportamiento de la mujer en la sociedad argentina.

Estética de las imágenes y sus representaciones sociales María Cristina Ríos Espinosa, 2016-01-26
 En el libro Cuadernos Amest 3 titulado Estética de las imágenes y sus representaciones sociales se

presenta un estudio de la incidencia de las formas estéticas en diversas expresiones culturales y amplia el acercamiento a las formas sensibles en las sociedades contemporáneas La pertinencia del texto es presentar desde diversas especialidades disciplinares la posible decodificación de estas imágenes con el fin de liberar la experiencia de los sujetos desde la puesta en cuestión del mundo de la representación social a través de las imágenes que consumimos diariamente Hasta qué punto podemos desatar la experiencia estética de los individuos inmersos en una sociedad posmoderna que conquista su vida y sus imaginarios En qué medida una imagen considerada ya como una fragmentación de lo real con su correspondiente propuesta de significación ayuda a la reconstrucción constante de nuestra subjetividad social De qué manera esta posibilidad de conformar alternativamente la percepción de la realidad nos permite adueñarnos de lo humano de la vida Como recuperar nuestras subjetividades mediante la estética de las imágenes y sus representaciones sociales Estas son algunas de las problemáticas que se tratan en los ensayos de este libro
