Rossi, 2017-09 A study of the poor's movements in response to the ever widening gap between the poor and the state in Latin American politics The Politics of the Past in an Argentine Working-Class Neighbourhood Lindsay DuBois, 2008-01-01 DuBois traces how state repression and community militancy are remembered in a neighborhood in Buenos Aires and how the tangled and ambiguous legacies of the past continued to shape ordinary people's lives years after the collapse of the military regime *The Routledge Handbook of Urban Studies in Latin America and the Caribbean* Jesús M. González-Pérez, Clara Irazábal, Rubén C. Lois-González, 2022-07-19 This handbook presents the great contemporary challenges facing cities and urban spaces in Latin America and the Caribbean The content of this multidisciplinary book is organized into four large sections focusing on the histories and trajectories of urban spatial development inequality and displacement of urban populations contemporary debates on urban policies and the future of the city in this region Scholars of diverse origins and specializations analyze Latin American and Caribbean cities showing that despite their diversity they share many characteristics and challenges and that there is value in systematizing this knowledge to both understand and explain them better and to promote increasing equity and sustainability The contributions in this handbook enhance the theoretical empirical and methodological study of urbanization processes and urban policies of Latin America and the Caribbean in a global context making it an important reference for scholars across the world The book is designed to meet the interdisciplinary study and consultation needs of undergraduate and graduate students of architecture urban design urban planning sociology anthropology political science public administration and more **The Quality of Life in Latin American Cities** Eduardo Lora, Andrew Powell, Bernard M.S. van Praag, Pablo Sanguinetti, 2010-05-04 A growing number of cities around the world have established systems for monitoring the quality of urban life Many of those systems combine objective information with subjective opinions and cover a wide variety of topics This book assesses a method that takes advantage of both types of information and offers criteria to identify and rank the issues of potential importance for urban dwellers This method which combines the so called hedonic price and life satisfaction approaches to value public goods was tested in pilot studies in six Latin American cities Bogotá Buenos Aires Lima Medellín Montevideo and San José of Costa Rica It provides valuable insights to address key questions such as Which urban problems have the greatest impact on people's opinions of city management and the most widespread effects on their lives Do gaps between perception and reality vary from one area of the city to another especially between high and low income neighborhoods Where can homebuilders most feasibly seek solutions to problems such as inadequate road infrastructure a lack of recreational areas or poor safety conditions Which problems should government authorities address first in light of their impact on the well being of various groups of individuals and given private actors abilities to respond Which homeowners benefit the most from public

infrastructure or services When can or should property taxes be used to finance the provision of certain services or the solution of certain problems The Quality of Life in Latin American Cities Markets and Perception proposes a monitoring system that is easy to operate and that entails reasonable costs but also has a solid conceptual basis Long the ideal of many scholars and practitioners such a system may soon become a reality and have the potential to make a significant contribution to the decision making processes in any city concerned with the well being of its residents **VIVA Travel Guides**

Argentina , Beyond Facts Carmen Pagés, Carlos Scartascini, Rita Funaro, Lucía Madrigal, Suzanne Duryea, Juan Camilo Chaparro, María Victoria Rodríguez-Pombo, Eduardo Lora, Pablo Sanguinetti, William D. Savedoff, Juan Carlos Navarro, Aimee Verdisco, Mariana Alfonso, Andrew Powell, 2008-01-01 Traditionally the concept of quality of life has been viewed through objective indicators Beyond Facts looks at quality of life through a new lens namely the perceptions of millions of Latin Americans Using an enhanced version of the recently created Gallup World Poll that incorporates Latin America specific questions the Inter American Development Bank surveyed people from throughout the region and found that perceptions of quality of life are often very different from the reality These surprising findings have enormous significance for the political economy of the region and provide a wealth of information for policymakers and development practitioners to feast upon

A Year Inside MS-13 Juan José Martínez d'Aubuisson, 2019-08-06 This short intense book exposes life inside the largest most violent gang in the world Mara Salvatrucha 13 more commonly known as MS 13 Right in the heart of El Salvador's capital San Salvador anthropologist Juan José Martínez d'Aubuisson observes firsthand an escalating cycle of brutality between MS 13 and its sworn enemies from Barrio 18 as it becomes a war fought on a professional scale with grenades and machine guns For the better part of a year d'Aubuisson was embedded in one of the cells of MS 13 where he learned its moral codes rules legends and contradictions His journey into the heart of the gang is guided by an enigmatic character Destino a veteran leader of MS 13 After many conversations with Destino a strange kind of friendship emerges between the two and the anthropologist understands not only the origin of the gang and its war with Barrio 18 but the deep seated reasons for the regional violence The book culminates in one of the most violent acts ever in an area that has seen more than its share a full scale attack on a public bus with thirty two passengers on board Fourteen people were killed and twenty eight wounded Almost all the principal characters in this book end up dying some are killed in the war while others fall to the state security forces Those that do escape the war are imprisoned exiled or murdered by their own gang This is a true testimony of life inside a wild gang in a neighborhood governed by abandoned boys Juan José Martínez d'Aubuisson is a Salvadoran socio cultural anthropologist committed to understanding violence in Central America His uncle was one of Latin America's most notoriously brutal military officers during the 1980s *Jewish Literatures in Spanish and Portuguese* Ruth Fine, Susanne Zepp, 2022-10-24 This volume offers a thorough introduction to Jewish world literatures in Spanish and Portuguese which not only addresses the coexistence of cultures but also the functions of a literary and linguistic space of negotiation in this

context From the Middle Ages to present day the compendium explores the main Jewish chapters within Spanish and Portuguese language world literature whether from Europe Latin America or other parts of the world No comprehensive survey of this area has been undertaken so far Yet only a broad focus of this kind can show how diasporic Jewish literatures have been and are while closely tied to their own traditions deeply intertwined with local and global literary developments and how the aesthetic praxis they introduced played a decisive formative role in the history of literature With this epistemic claim the volume aims at steering clear of isolationist approaches to Jewish literatures

Borders, Fences and Walls

Elisabeth Vallet, 2016-04-08 Twenty years after the fall of the Berlin Wall the question remains Do good fences still make good neighbours Since the Great Wall of China the Antonine Wall built in Scotland to support Hadrian's Wall the Roman Limes or the Danevirke fence the wall has been a constant in the protection of defined entities claiming sovereignty East and West But is the wall more than an historical relict for the management of borders In recent years the wall has been given renewed vigour in North America particularly along the U S Mexico border and in Israel Palestine But the success of these new walls in the development of friendly and orderly relations between nations or indeed within nations remains unclear What role does the wall play in the development of security and insecurity Do walls contribute to a sense of insecurity as much as they assuage fears and create a sense of security for those behind the line Exactly what kind of security is associated with border walls This book explores the issue of how the return of the border fences and walls as a political tool may be symptomatic of a new era in border studies and international relations Taking a multidisciplinary approach this volume examines problems that include security issues the recurrence and or decline of the wall wall discourses legal approaches to the wall the wall industry and border technology as well as their symbolism role objectives and efficiency

Creative Cities, Tourism and Street Art in a Global Frame Ricardo Klein, Caitlin Bruce, 2025-02-14 This book explores the use of street art tourism in eight cities Barcelona Paris Porto Pittsburgh Cleveland Montevideo Bogota and Buenos Aires While street art and graffiti are perpetually in the process of being discovered by scholars and cultural programmers as a practice full of potential these contributions offer context and grounding and ask how in a global setting such art is used in tandem with tourism practices to interpret codify and make value out of space through institutional and community networks

Global Change and Human Mobility Josefina Domínguez-Mujica, 2016-03-16 This book demonstrates the benefits of applying a new interdisciplinary approach that combines global change and human mobility The term globility was coined in the year 2000 when the commission with the same name was created by the International Geographical Union with the purpose of theorizing about and asserting the concept of human mobility First the book offers theoretical reviews of human mobility Then it proceeds to study patterns of mobility in today's world as it faces new challenges in migration policies including border controls management of refugee movements social initiatives to empower unauthorized immigrants the integration issue environmental hazards and so on The response to these diverse challenges reveals an increasing fluidity

of human mobility and new forms of engagement of people on the move Readers will obtain a better understanding of current human mobility from a large number of regions and from different thematic perspectives

Managing Disaster Risk in Emerging Economies Alcira Kreimer, Margaret Arnold, 2000-01-01 In 1999 natural catastrophes and man made disasters claimed more than 105 000 lives 95 percent of them in the developing world and caused economic losses of around US 100 billion In 1998 the twin disasters of the Yangtze and Hurrican Mitch accounted for two thirds of the US 65 billion loss The geographical areas affected may vary but one constant is that the per capita burden of catastrophic losses is dramatically higher in developing countries To respond to an increased demand to assist disaster recovery programmes the World Bank set up the Disaster Management Facility in 1998 to help provide the Bank with a more rapid and strategic response to disaster emergencies The DMF focuses on risk identification risk reduction and risk sharing transfer the three major topics in this volume The DMF also promotes strategic alliances with key private government multilateral and nongovernmental organisations to ensure the inclusion of disaster risk reduction as a central value of development The most important of these partnerships is the ProVention Consortium launched in February 2000 based on the premise that we must all take responsibility for making the new millennium a safer one

The New Ethnic Studies in Latin America Raanan Rein, Stefan Rinke, Nadia Zysman, 2017-03-06 The New Ethnic Studies in Latin America aims at going beyond and against much of Jewish Latin American historiography situating Jewish Latin Americans in the larger multi ethnic context of their countries Senior and junior scholars from various countries joined together to challenge commonly held assumptions accepted ideas and stable categories about ethnicity in Latin America in general and Jewish experiences on this continent in particular This volume brings to the discussions on Jewish life in Latin America less heard voices of women non affiliated Jews and intellectuals Community institutions are not at center stage conflicts and tensions are brought to the fore and a multitude of voices pushes aside images of homogeneity Authors in this tome look at Jews multiple homelands their country of birth their country of residence and their imagined homeland of Zion This volume brings together an important series of chapters that pushes ethnic studies to greater complexity therefore this work is critical in laying the foundation for what Jeffrey Lesser has called the new architecture of ethnic studies in Latin America Joel Horowitz St Bonaventure University in E I A L 28 2 2017 Overall this collection serves as a stimulating invitation to scholars of Latin American ethnic studies It offers multiple models of scholarship that go beyond and against traditional narratives of Jewish Latin America Lily Pearl Balloffet University of California Santa Cruz in J Lat Amer Stud 50 2018 These essays manage to bring to the fore stories of Jews whose journeys have been sidelined until now Their stories demonstrate that identities are always a work in progress a continuous dance between ancestry history and culture Ariana Huberman Haverford College in American Jewish History 103 2 2019

Sephardi, Jewish, Argentine Adriana M. Brodsky, 2016-10-31 A much needed monograph on the role of Sephardic Jews in Argentina and an important contribution to the study of Jews in Latin America overall Choice At the turn of the

twentieth century Jews from North Africa and the Middle East were called Turcos Turks Seen as distinct from Ashkenazim Sephardi Jews weren't even identified as Jews Yet the story of Sephardi Jewish identity has been deeply impactful on Jewish history across the world Adriana M Brodsky follows the history of Sephardim as they arrived in Argentina created immigrant organizations founded synagogues and cemeteries and built strong ties with coreligionists around the country Brodsky demonstrates how fragmentation based on areas of origin gave way to the gradual construction of a single Sephardi identity This unifying identity is predicated both on Zionist identification with the State of Israel and national feelings for Argentina and that Sephardi Jews assumed leadership roles in national Jewish organizations once they integrated into the much larger Ashkenazi community Rather than assume that Sephardi identity was fixed and unchanging Brodsky highlights the strategic nature of this identity constructed both from within the various Sephardi groups and from the outside and reveals that Jewish identity must be understood as part of the process of becoming Argentine

Middle Class Pentecostalism in Argentina Jens Köhrsen, 2016-04-08 In Middle Class Pentecostalism in Argentina Inappropriate Spirits Jens Köhrsen offers an intriguing account of how the middle class relates to Latin America's most vibrant religious movement Based on pervasive field research this study suggests that Pentecostalism stands in tension with the social imaginary of the middle class and is perceived as an inappropriate lower class practice As such middle class Pentecostals negotiate the appropriateness of their religious belonging by demonstrating distinctive tastes and styles of Pentecostalism Abstaining from the expressiveness emotionality and strong spiritual practice that have marked the movement they create a milder and socially more acceptable form of Pentecostalism Increasingly turning into a middle class movement this style has the potential to embody the future shape of Pentecostalism
