Buffalo Gals And Other Animal Presences Plume:

The Female and the Species Maureen O'Connor, 2010 Describing the Irish as female and bestial is a practice dating back to the twelfth century while for women inside and outside of Ireland their association with children animals and other savages has had a long history A link among systems of oppression has been asserted in recent decades by some feminists but linking women's rights with animal advocacy can be controversial This strategy responds to the fact that women's inferiority has been alleged and justified by appropriating them to nature an appropriation that colonialism has also practiced on its racial and cultural others Nineteenth century feminists braved such associations for instance often asserting vegetarianism as a form of rebellion against the dominant culture Vegetarianism and animal advocacy have uniquely Irish implications This study examines a tradition of Irish women writers deploying the natural as a gesture of resistance to paternalist regulation of female energies and as a self consciously elaborated stage for the performance of Irish identity They call into question the violent dislocations and disavowals required by figurative practices particularly when utilizing Irish topography an already unnatural cultural construct shaped by conflict and suffering **Life, Death, and Other**

Inconvenient Truths Shimon Edelman, 2022-06-28 A guide for making sense of life from action good except when it's not to thinking depressing to youth a treasure This book offers a guide to human nature and human experience a reference book for making sense of life In thirty eight short interconnected essays Shimon Edelman considers the parameters of the human condition addressing them in alphabetical order from action good except when it's not to love only makes sense to the lovers to thinking should not be so depressing to youth a treasure In a style that is by turns personal and philosophical at once informative and entertaining Edelman offers a series of illuminating takes on the most important aspects of living in the world **Teaching the Animal , Posthumanism**

Posthumanism Pramod K. Nayar, 2014 This timely book examines the rise of posthumanism as both a material condition and a developing philosophical ethical project in the age of cloning gene engineering organ transplants and implants Nayar first maps the political and philosophical critiques of traditional humanism revealing its exclusionary and speciesist politics that position the human as a distinctive and dominant life form He then contextualizes the posthumanist vision which drawing upon biomedical engineering and techno scientific studies concludes that human consciousness is shaped by its co evolution with other life forms and our human form inescapably influenced by tools and technology Finally the book explores posthumanism's roots in disability studies animal studies and bioethics to underscore the constructed nature of normalcy in bodies and the singularity of species and life itself As this book powerfully demonstrates posthumanism marks a radical reassessment of the human as constituted by symbiosis assimilation difference and dependence upon and with other species Mapping the terrain of these far reaching debates Posthumanism will be an invaluable companion to students of cultural studies and modern and contemporary literature **Sense of Place and**
