Eyes - All Bugged Out Speedy Publishing, 2015-01-04 Bugs are small yet they have a slew of exotic powers. This alone puts kids on the side of bugs. When they read about them they can imagine having the same amazing skills. Of course there is always the gross out factor to think about too. Society has declared that bugs are gross which makes them instantly interesting to some children. Making insect fearing parents squirm can be an incentive to read all by itself. **Bold Words**

Rajini Srikanth, Esther Yae Iwanaga, 2001 This anthology covers writings by Asian Americans in all genres from the early twentieth century to the present. Some sixty authors of Chinese Filipino Japanese Korean South Asian and Southeast Asian American origin are represented with an equal split between male and female writers. The collection is divided into four sections: memoir, fiction, poetry, and drama, prefaced by an introductory essay from a well-known practitioner of that genre, Meena Alexander on memoir, Gary Pak on fiction, Eileen Tabios on poetry, and Roberta Uno on drama. The selections depict the complex realities and wide range of experiences of Asians in the United States. They illuminate the writers' creative responses to issues as diverse as resistance, aesthetics, biculturalism, sexuality, gender relations, racism, war, diaspora, and family.

Bug Giacomo Sartori, 2021-02-02 With the wicked humor and imagination that made readers fall in love with his novel *I Am God*, Giacomo Sartori brings us a madcap story of family dysfunction, disability, intelligent robots, bees, and a family of misfit savants living outside the bounds. In the singular world of the young deaf narrator of *Bug*, there are just a handful of people who try to understand him when he gets into trouble at school. His father, a data analyst for Nutella whose real job is to pinpoint terrorists, is clueless about humans in real life. His brilliant brother, called IQ in public and Robin Hood in the hackersphere, has his back but is ever busier training his robot. His grandfather, a retired anarchist guerilla turned nematologist, chides him for misbehaving when he takes him hunting for worms. Meanwhile, his Buddhist beekeeper mother, ordinarily his closest confidante, has been in a coma ever since a terrible car accident. Just when the family's survival in their converted chicken coop seems most precarious, someone or something new enters his life. *Bug*: This self-declared fast friend seems to know all about his family and has some creative if not strictly legal ideas about how to help. *Praise for Bug*: A witty tale of family resilience and a dangerous homemade AI bot, the characters' antics escalate in inventive and unexpected ways. This is worth a spin. *Publishers Weekly*: A lonely boy befriends a charming but dangerous robot in Giacomo Sartori's science fiction novel *Bug*. The prose is lively, intense, and full of perceptive similes. The boy's voice is unique and memorable as he records his daily adventures at school and at home. Whether real or imagined, or both, the boy's adventures show him to be resilient, vulnerable, caring, and inquisitive, but above all else, he is a neglected child who wants his mother back. Eileen

Gonzalez Foreword Reviews With wry attention to the gorgeous frailty of human behavior and a wicked sense of humor Sartori brings us a family that is utterly unremarkable and unforgettable Living in a chicken coop as his family goes through emotional and financial turmoil the narrator a ten year old boy pulls the reader into his head When language fails him words lend themselves without restraint to confecting colossal lies you might even say they enjoy it he turns to an unpredictable online friend With the same messy heartbeat he gave us in I Am God Sartori s newest novel is pure delight Shawn Mara and Marisa Chapter One Book Store Hamilton MT
