BODY BY FISHER
Distinctively
STYLED
OUTSIDE

THE 1949 BUICKS represent the advanced styling motorists have learned to expect in new models of Buick with Body by Fisher. The customary distinction of these brilliant new cars is instant eye-appeal—an important sales asset when compared with the impact of radical new departures on the motor car buyer.

Body by Fisher accents the feel of smooth, surging power and flowing speed that is the design motif of the new Buicks. Simplicity of line and contour have been handled with consummate skill to give the effect of dynamic swiftness, while masterful handling of detail avoids possible tendencies toward monotony. Furthermore, this sleek styling has been attained in a Body by Fisher that is bigger and roomier than ever. In the 1949 models, Buick once again sets the standard for modern automobile design.

Smooth flowing lines, starting with the front fender, follow through the full sweep of this fleet looking Buick, and the subtle suggestion of rear fenders provides interesting relief. The roll of the lower body, curving underneath, gives a finished, rounded off appearance at the bottom.

The arc of the large curving windshield permits a new

and interesting roof line in front, and the expansive rear window neatly balances the profile of this stylish Body by Fisher. The squared lower corners of windows and windshield give a fresh touch of smartness and, of course, contribute to the expansion of vision for both driver and passengers which is an important feature of the new Buicks. The slender, gleaming chrome reveal moldings, framing the windows and windshield, are appropriate and refined.

Combining utility with beauty, traditional in Body by Fisher, the baggage compartment with its extra wide lid is designed for great capacity and is blended smoothly with the long flowing lines of the car.

Fine details, such as chrome protective fender shields, exterior hardware, and even windshield wiper mounts are tailored into the body design.

Storied Independent Automakers Charles K. Hyde, 2009 Explores the business history of three major independent American automakers Nash Motor Company the Hudson Motor Car Company and the American Motors Company that faced fierce competition from the Big Three With roots extending back to the first decade of the twentieth century Nash Motor Company and the Hudson Motor Car Company managed to compete and even prosper as independent producers until they merged in 1954 to form the American Motors Company which itself remained independent until it was bought in 1987 by the Chrysler Corporation In *Storied Independent Automakers* renowned automotive scholar Charles K Hyde argues that these companies while so far neglected by auto history scholars made notable contributions to automotive engineering and styling and were an important part of the American automobile industry Hyde investigates how the relatively small corporations struggled in a postwar marketplace increasingly dominated by the giant firms of Ford General Motors and Chrysler which benefited from economies of scale in styling engineering tooling marketing and sales He examines the innovations that kept the independents' products distinctive from those of the Big Three and allowed them to survive and sometimes prosper against their larger competitors Hyde also focuses on the visionary leaders who managed the companies including Charles Nash Roy D Chapin Howard Coffin George Mason George Romney and Roy D Chapin Jr who have been largely unexamined by other scholars Finally Hyde

analyzes the ultimate failure of the American Motors Company and the legacy it left for carmakers and consumers today. *Stories of Independent Automakers* is based on extensive research in archival collections generated by the three companies. Residing in large part in the DaimlerChrysler Corporate Collection, these sources have been seldom tapped by other scholars before this volume. Auto historians and readers interested in business history will enjoy *Stories of Independent Automakers*.

Bill Carroll's Dynamometer Tuning Techniques Joe De Giorgio, William Carroll, 1969 *American Cars, 1960-1972* J. "Kelly" Flory, Jr., 2008-11-24 The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the need for speed characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American-made cars of model years 1960-1972. Organized by year and summarizing the market annually, it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options, and their prices, curb weight, and dimensions, interior and exterior paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.
