A Directory of History of Medicine Collections ,2000 The Most Segregated City in America" Charles E. Connerly,2013-07-04 One of Planetizen s Top Ten Books of 2006 But for Birmingham Fred Shuttleworth recalled President John F Kennedy saying in June 1963 when he invited black leaders to meet with him we would not be here today Birmingham is well known for its civil rights history particularly for the violent white on black bombings that occurred there in the 1960s resulting in the city s nickname Bombingham What is less well known about Birmingham s racial history however is the extent to which early city planning decisions influenced and prompted the city s civil rights protests The first book length work to analyze this connection *The Most Segregated City in America City Planning and Civil Rights in Birmingham 1920 1980* uncovers the impact of Birmingham s urban planning decisions on its black communities and reveals how these decisions led directly to the civil rights movement Spanning over sixty years Charles E Connerly s study begins in the 1920s when Birmingham used urban planning as an excuse to implement racial zoning laws pointedly sidestepping the 1917 U S Supreme Court *Buchanan v Warley* decision that had struck down racial zoning The result of this obstruction was the South s longest standing racial zoning law which lasted from 1926 to 1951 when it was redeclared unconstitutional by the U S Supreme Court Despite the fact that African Americans constituted at least 38 percent of Birmingham s residents they faced drastic limitations to their freedom to choose where to live When in the 1940s they rebelled by attempting to purchase homes in off limit areas their efforts were labeled as a challenge to city planning resulting in government and court interventions that became violent More than fifty bombings ensued between 1947 and 1966 becoming nationally publicized only in 1963 when four black girls were killed in the bombing of the Sixteenth Street Baptist Church Connerly effectively uses Birmingham s history as an example to argue the importance of recognizing the link that exists between city planning and civil rights His demonstration of how Birmingham s race based planning legacy led to the confrontations that culminated in the city s struggle for civil rights provides a fresh lens on the history and future of urban planning and its relation to race

and fabric scraps Earline's Pink Party tells the story of an ordinary woman the grandmother Shores never knew Looking for more than the details and drama of bourgeois Southern life however the author digs into generations of family history to understand how Earline viewed the racial terror that surrounded her during the Jim Crow years in this fairly typical southern town Shores seeks to narrow a gap in the scholarship of the American South which has tended to marginalize and stereotype well to do white women who lived after Emancipation Exploring her grandmother's home and its contents within the context of Tuscaloosa society and historical events Shores evaluates the belief that women like Earline consciously engaged in performative rituals in order to sustain the fantastical view of the white nobility and the contented black underclass With its engaging narrative illustrations and structure this fascinating book should interest scholars of memory class identity and regional history as well as sophisticated lay readers who enjoy Southern history foodways genealogy and material culture
