Building Social Capital in Thailand Danny Unger, 1998-09-28 Between 1984 and 1994 Thailand had the most rapid economic expansion in the world This 1998 book offers an explanation of this successful record of economic growth in Thailand and in Southeast Asia more generally The book explains why Thai leaders adopted a market driven strategy from the late 1950s and also shows how the overseas Chinese in Thailand built on their community s social capital to overcome the market failures common to all developing countries Unger takes an interdisciplinary approach building on the literatures of social capital and embedded autonomy He considers the unique organization of Thai society and the impact this has had on the country s institutions and their political and economic outcomes The book includes detailed analysis of the financial and textile sectors as well as the development of heavy industries and transportation infrastructure *Social Capital and Economic Development* Jonathan Isham, Thomas Kelly, Sunder Ramaswamy, 2002-01-01 The chapters in this volume explore the challenges and opportunities raised by this concept for researchers practitioners and teachers Social Capital and Economic Development is based upon a consistent policy based vision of how social capital affects well being in developing countries **Handbook of Comparative and Development Public Administration** Ali Farazmand, 2019-02-21 With contributions from nearly 80 international experts this comprehensive resource covers diverse issues aspects and features of public administration and policy around the world It focuses on bureaucracy and bureaucratic politics in developing and industrialized countries and emphasizing administrative performance and policy implementation as well as political system maintenance and regime enhancement The book covers the history of public administration and bureaucracy in Persia Greece Rome and Byzantium and among the Aztecs Incas and Mayas public administration in small island states Eastern Europe and ethics and other contemporary issues in public administration **Attacking Poverty** , 2000 At the start of each decade the World Development Report focuses on poverty reduction The World Development Report now in its twenty third edition proposes an empowerment security opportunity framework of action to reduce poverty in the first decades of the twenty first century It views poverty as a multidimensional phenomenon arising out of complex interactions between assets markets and institutions This Report shows how the experience of poverty reduction in the last fifteen years has been remarkably diverse and how this experience has provided useful lessons as well as warnings against simplistic universal policies and interventions It shows how current global trends present extraordinary opportunities for poverty reduction but also cause extraordinary risks including growing inequality marginalization and social explosions The World Development Report 2000 2001 explores the challenge of managing these risks in order to make the most of the opportunities for poverty reduction **The Sociology of Southeast Asia** Victor T. King, 2008 One of the main problems faced by teachers and students who have a scholarly interest in Southeast Asia is the lack of general user friendly texts in the social sciences The absence of an introduction to the sociology of Southeast Asia is especially unfortunate This volume attempts to meet these

needs This is then the first sole authored introductory sociology text on Southeast Asia that focuses on change and development in the region provides an overview of the important sociological and political economy writings and considers the key concepts and themes in the field since 1945 Some multiauthored works do exist but these either are outdated or focus on specialized topics Aimed primarily at undergraduates up to the final year it will also be a useful reference work for post graduates and researchers who lack such a general work

Growing Apart Peter Lewis, 2009-12-11 Growing Apart is an important and distinguished contribution to the literature on the political economy of development Indonesia and Nigeria have long presented one of the most natural opportunities for comparative study Peter Lewis one of America's best scholars of Nigeria has produced the definitive treatment of their divergent development paths In the process he tells us much theoretically about when why and how political institutions shape economic growth Larry Diamond Senior Fellow Hoover Institution Growing Apart is a careful and sophisticated analysis of the political factors that have shaped the economic fortunes of Indonesia and Nigeria Both scholars and policymakers will benefit from this book's valuable insights Michael L. Ross Associate Professor of Political Science Chair of International Development Studies UCLA Lewis presents an extraordinarily well documented comparative case study of two countries with a great deal in common and yet with remarkably different postcolonial histories His approach is a welcome departure from currently fashionable attempts to explain development using large multi country databases packed with often dubious measures of various aspects of governance Ross H McLeod Editor Bulletin of Indonesian Economic Studies This is a highly readable and important book Peter Lewis provides us with both a compelling institutionalist analysis of economic development performance and a very insightful comparative account of the political economies of two highly complex developing countries Nigeria and Indonesia His well informed account generates interesting findings by focusing on the ability of leaders in both countries to make credible commitments to the private sector and assemble pro growth coalitions This kind of cross regional political economy is often advocated in the profession but actually quite rare because it is so hard to do well Lewis's book will set the standard for a long time Nicolas van de Walle John S Knight Professor of International Studies Cornell University Peter M Lewis is Associate Professor and Director of the African Studies Program Johns Hopkins University School of Advanced International Studies

Political Booms Lynn T. White, 2009 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle OC classes OCO promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather

than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book OCo as will students of the West whose methods have become parochial
