Building A Dream The Art Of Disney Architecture:

Building a Dream Beth Dunlop, 1996 From fairy tale castles to extraordinary buildings designed by the world's most distinguished architects The Walt Disney Company has created exciting and influential architecture The result beautiful illustrated in this book is architecture with a plot a new approach to designing buildings **Building a Dream** Beth Dunlop, Disney Enterprises (1996-), 1996 **The Disney Middle Ages** T. Pugh, S. Aronstein, 2012-12-10 For many the middle ages depicted in Walt Disney movies have come to figure as the middle ages forming the earliest visions of the medieval past for much of the contemporary Western and increasingly Eastern imagination The essayists of The Disney Middle Ages explore Disney's mediation and re-creation of a fairy tale and fantasy past not to lament its exploitation of the middle ages for corporate ends but to examine how and why these medieval visions prove so readily adaptable to themed entertainments many centuries after their creation What results is a scrupulous and comprehensive examination of the intersection between the products of the Disney Corporation and popular culture's fascination with the middle ages

Animate(d) Architecture Vahid Vahdat, 2024-03-25 At their peak architectural marvels such as the Sagrada Família the Tower of London the Mosque Cathedral of Córdoba and the Eiffel tower had a combined annual visit of almost 16.4 million people The animated icebound castle in Disney's 2019 *Frozen* had 116.4 million views from one single YouTube trailer in less than 24 hours The spaces of such massively consumed animation have for generations informed the architectural imagination of people across the globe and from very early in their lives Yet not only have the architectural disciplines remained rather absent in the design of these massively consumed spaces architectural theory has likewise failed to articulate a framework to approach the architecture of animation To address this void this book offers an interdisciplinary approach to survey the role of space in animation including in creating humorous moments in early cartoon shorts generating action and suspense in Japanese anime and even stimulating erotic pleasure in pornographic Hentai Exploring the imagined architecture of animation from early motion picture to digital animation and from computer graphics to game engines offers an analytical frame to reconceptualize space An Open Access version of Yuko Yoshida's chapter *Animated Embodiments of Witnessing An Architectural Narrative of Silence* is available on the Liverpool University Press website **The Architecture of Pleasure** Josephine Kane, 2016-03-16 The amusement parks which first appeared in England at the turn of the twentieth century represent a startlingly novel and complex phenomenon combining fantasy architecture new technology ersatz danger spectacle and consumption in a new mass experience Though drawing on a diverse range of existing leisure practices the particular entertainment formula they offered marked a radical departure in terms of visual experiential and cultural meanings The huge socially mixed crowds that flocked to the new parks did so purely in the pursuit of pleasure which the amusement parks commodified in exhilarating new guises Between 1906 and 1939 nearly 40 major amusement parks operated across Britain By the outbreak of the Second World War millions of people visited these sites each year The

amusement park had become a defining element in the architectural psychological pleasurescape of Britain This book considers the relationship between popular modernity pleasure and the amusement park landscape in Britain from 1900 1939 It argues that the amusement parks were understood as a new and distinct expression of modern times which redefined the concept of public pleasure for mass audiences Focusing on three sites Blackpool Pleasure Beach Dreamland in Margate and Southend s Kursaal the book contextualises their development with references to the wider amusement park world The meanings of these sites are explored through a detailed examination of the spatial and architectural form taken by rides and other buildings The rollercoaster a defining symbol of the amusement park is given particular focus as is the extent to which discourses of class gender and national identity were expressed through the design of these parks *Encyclopedia of the City* Roger W. Caves, 2005 A first class work of reference that will be both an essential resource for independent study as well as a useful aid in teaching a solid but also provocative starting point for wider exploration of the city **Brandscapes** Anna Klingmann, 2010-09-24 Architecture as imprint as brand as the new media of transformation of places communities corporations and people In the twenty first century we must learn to look at cities not as skylines but as brandscapes and at buildings not as objects but as advertisements and destinations In the experience economy experience itself has become the product we re no longer consuming objects but sensations even lifestyles In the new environment of brandscapes buildings are not about where we work and live but who we imagine ourselves to be In Brandscapes Anna Klingmann looks critically at the controversial practice of branding by examining its benefits and considering the damage it may do Klingmann argues that architecture can use the concepts and methods of branding not as a quick and easy selling tool for architects but as a strategic tool for economic and cultural transformation Branding in architecture means the expression of identity whether of an enterprise or a city New York Bilbao and Shanghai have used architecture to enhance their images generate economic growth and elevate their positions in the global village Klingmann looks at different kinds of brandscaping today from Disneyland Las Vegas and Times Square prototypes and case studies in branding to Prada s superstar architect designed shopping epicenters and the banalities of Niketown But beyond outlining the status quo Klingmann also alerts us to the dangers of brandscapes By favoring the creation of signature buildings over more comprehensive urban interventions and by severing their identity from the complexity of the social fabric Klingmann argues today s brandscapes have in many cases resulted in a culture of the copy As experiences become more and more commodified and the global landscape progressively more homogenized it falls to architects to infuse an ever more aseptic landscape with meaningful transformations How can architects use branding as a means to differentiate places from the inside out and not as current development practices seem to dictate from the outside in When architecture brings together ecology economics and social well being to help people and places regain self sufficiency writes Klingmann it can be a catalyst for cultural and economic transformation **Fantasies of Hong Kong Disneyland** Jenny Banh, 2025 Jenny Banh examines the attempt to transplant Disney s happiest place on

earth to Hong Kong delving into the three way dynamics of American culture corporation intentions Hong Kong China government investment and Hong Kong and Chinese audiences The situation poses special challenges for Disney s efforts to manage space labor and consumption to achieve local adaptation and business success [Storytelling in the Media Convergence Age](#) R. Pearson,A. Smith,2014-12-18 Why do screen narratives remain so different in an age of convergence and globalisation that many think is blurring distinctions This collection attempts to answer this question using examples drawn from a range of media from Hollywood franchises to digital comics and a range of countries from the United States to Japan

[Designing Library Space for Children](#) Ingrid Bon,Andrew Cranfield,Karen Latimer,2011-12-23 In recent years the library community has seen a renewed interest in library architecture and design This is due to the change of focus from content and collection development to how libraries engage with their users in a digital age This means that librarians architects politicians and patrons must develop new visions concepts and ideas for the design and building of libraries This book brings together a number of articles based on presentations from the IFLA World Congress 2009 historical view of the development of children s libraries over the last century a look at how children use new media libraries of the future innovative design projects for children s libraries from around the world current theme historical view and new projects [The Celebration](#)

[Chronicles](#) Andrew Ross,2000 Amidst the swamp and scrub of central Florida the Disney Corporation has built Celebration an environmentally friendly place where 20 000 inhabitants can enjoy the old fashioned virtues of small town America in a totally modern development The author draws important lessons from a micromanaged urban development and reports with humour and fascinating detail on what residents experienced as the best and worst of times [The Story of Disney: 100](#)
