C. Barker Benfield, Diana Magaloni, Mary E. Miller, Claudia Brittenham, Frances F. Berdan, Barbara E. Mundy, Daniela Bleichmar, Todd P. Olson, Carmen Fernández-Salvador, Joanne Harwood, Lucien Sun, 2021-12-23 Conceptualizado como una contribuci n a la continua construcci n de la identidad del C dice mendocino el presente volumen est organizado en torno a tres ejes el an lisis material la interpretaci n textual y estil stica y la recepci n y transmisi n del manuscrito Los estudios de Barker Benfield y MOLAB abren una ventana hacia el entendimiento objetivo de la materialidad del manuscrito El proceso de conservaci n y reencuadernamiento del Mendocino registrado por Barker Benfield ha disipado especulaciones en cuanto al m todo de construcci n del manuscrito y sus posibles encuadernaciones previas permitiendo que conexiones antes aceptadas como la autor a de Francisco Gualpuyogualcal sean reexaminadas Asimismo el an lisis llevado a cabo por el equipo de MOLAB liderado por Davide Domenici ha sacado del mbito

de la especulación la naturaleza de los pigmentos del manuscrito así como ha permitido que hipótesis interpretativas previamente articuladas al respecto del significado de pigmentos específicos y lo estricto de su aplicación en el tlacuillo sean refinadas y contenidas. Si bien el color tiene significado para el tlacuilo este no está directa y necesariamente ligado a su materialidad. A partir de estas observaciones se puede desarrollar una nueva generación de estudios interpretativos cuyas propuestas se basen en datos cada vez más certeros acerca de la naturaleza material del Mendocino. Los estudios interpretativos del manuscrito que ocupan el presente volumen representan una línea de investigación que al considerar al manuscrito desde la perspectiva compleja de la obra de arte bibliográfica y literaria complementa las lecturas antropológicas e históricas que se han hecho del Mendocino en estudios anteriores. Así los ensayos de Diana Magaloni Daniela Bleichmar y Jorge Gómez Tejada editor del libro reconsideran el número y estilo de los artistas que crearon el manuscrito para entender tanto el proceso de creación del mismo como el lugar que este ocupa en el contexto artístico del virreinato temprano. Las decisiones que estos artistas e intelectuales toman en el Mendocino lejos de insertarse en una relación binaria dominante dominado se presentan como una manifestación de los modos de pensar y ver el espacio y el tiempo en el mundo mesoamericano. Las pinturas del Mendocino ejecutadas a manera de taller en donde uno dos o más individuos intervienen en una misma página para crear de manera sincronizada una sola composición tal como demuestra quien escribe toman visos de ritualidad y funcionan como instrumento para re-crear reactualizar y hacer coherente el devenir histórico ligado al territorio y los patrones cíclicos ver Capítulo 4. Esta última observación complementa y refuerza la lectura de la tercera sección del manuscrito propuesta por Joanne Harwood para quien independientemente de lo original de las soluciones visuales utilizadas para componer esta sección del manuscrito su modelo prehispánico se encuentra en un género de resonancia religiosa mesoamericana el teomaxtli.

Cumajemh Diony Scandela, **Nicolás del Castillo Mathieu** Moreno, Lácydes, Del Castillo Mathieu, Nicolás, 2014-11-18. Este estudio fue originalmente leído en la Academia Colombiana de Historia en su sesión del 12 de octubre de 1973 como trabajo de presentación reglamentario para asumir el cargo de miembro correspondiente de esa benemérita corporación. Después lo hemos ampliado considerablemente para publicarlo en esta importante y meritoria colección. Versa sobre dos expediciones que siempre atrajeron nuestra atención no solo por tener una marcada importancia en el proceso colonizador de América sino por ofrecer además interesantes similitudes que trataremos de poner de relieve así como sus evidentes diferencias. Anticipemos simplemente que con el segundo viaje de Colón se inicia de modo definitivo y premeditado el asentamiento español en las Antillas y la flota de Pedrarias hace lo propio para la Tierra Firme. Esta ya es una decisiva coincidencia.

Biblia de Otare Alfonso Trigos J., Es una obra que nace debido a que las culturas cristianas dicen que nadie puede pensar o escribir en el mismo estilo digamos en que lo hicieron los profetas reyes y proverbistas de la Biblia. Por lo tanto basado en algunas fases de mi vida personal presento esta obra para su estudio y consideración.
