Arminius A Study In The Dutch Reformation:

Arminius Carl Bangs,1998-09-04 A definitive biography of the intriguing and controversial Dutch thinker of the late sixteenth early seventeenth centuries Not merely a biography in the traditional sense the book involves much intellectual history as well as a short history of Amsterdam *Reformation and the Practice of Toleration* Benjamin J. Kaplan,2019-09-16 The Dutch Republic was the most religiously diverse land in early modern Europe gaining an international reputation for toleration In *Reformation and the Practice of Toleration* Benjamin Kaplan explains why the Protestant Reformation had this outcome in the Netherlands and how people of different faiths managed subsequently to live together peacefully Bringing together fourteen essays by the author the book examines the opposition of so called Libertines to the aspirations of Calvinist reformers for uniformity and discipline It analyzes the practical arrangements by which multiple religious groups were accommodated It traces the dynamics of religious life in Utrecht and other mixed communities And it explores the relationships that developed between people of different faiths especially in mixed marriages **Simon Episcopius'**

Doctrine of Original Sin Mark A. Ellis,2006 Simon Episcopius 1583 1643 who began his theological career as the prot g of Jacobus Arminius led the Arminians at the Synod of Dort and was instrumental in guaranteeing Arminianism s survival This book breaks new ground by clearly showing how in the process of working out the implications of the theological trajectories which Arminius established Episcopius introduced significant changes in his master s theology It begins by demonstrating changes between Episcopius early theological works and Arminius writings and then even greater changes in his mature theological work *Institutiones Theologic* It defends the idea that Arminianism represented a pre Calvinist movement within the Netherlands which not only rejected Genevan predestination but also intentionally moved away from Reformed Scholasticism This book is useful for seminars in early Arminian theology and the Arminian controversy in the Netherlands

Arminian Theology Roger E. Olson,2009-08-20 Roger Olson sets forth classical Arminian theology and addresses the myriad misunderstandings and misrepresentations of it through the ages For anyone interested in the Calvinist Arminian debate this irenic yet incisive book argues that classical Arminian theology has a rightful place in the evangelical church because of its deep roots within Reformational theology **Adam Boreel (1602-1665): A Collegiant's Attempt to**

Reform Christianity Francesco Quatrini,2020-11-09 In *Adam Boreel 1602 1665 A Collegiant s Attempt to Reform Christianity* Francesco Quatrini offers a reassessment of the life and thought of Adam Boreel a leading member of the Dutch nonconformist Collegiant movement Usually regarded as a less important member of this religious group Boreel is described as a forerunner whose ideas influenced later Collegiants Drawing on both archival and published sources Francesco Quatrini provides the first modern biography of Boreel as well as a critical analysis of his writings He corrects misconceptions about Boreel who appears here as an intriguing figure who drew his views from several different sources In this way Francesco Quatrini revealed that Boreel was a major leader in the era s intellectual discourse [William Perkins and the Making of a](#)

Protestant England William Brown Patterson, 2014 William Perkins and the Making of Protestant England presents a new interpretation of the theology and historical significance of William Perkins 1558-1602 a prominent Cambridge scholar and teacher during the reign of Queen Elizabeth I Though often described as a Puritan W B Patterson argues that Perkins was in fact a prominent and effective apologist for the established church whose contributions to English religious thought had an immense influence on an English Protestant culture that endured well into modern times The English Reformation is shown to be a part of the European wide Reformation and Perkins himself a leading Reformed theologian In *A Reformed Catholike* 1597 Perkins distinguished the theology upheld in the English Church from that of the Roman Catholic Church while at the same time showing the considerable extent to which the two churches shared common concerns His books dealt extensively with the nature of salvation and the need to follow a moral way of life Perkins wrote pioneering works on conscience and practical divinity In *The Arte of Prophecy* 1607 he provided preachers with a guidebook to the study of the Bible and their oral presentation of its teachings He dealt boldly and in down to earth terms with the need to achieve social justice in an era of severe economic distress Perkins is shown to have been instrumental to the making of a Protestant England and to have contributed significantly to the development of the religious culture not only of Britain but also of a broad range of countries on the Continent

How the Idea of Religious Toleration Came to the West Perez Zagorin, 2005-10-09 Religious intolerance so terrible and deadly in its recent manifestations is nothing new In fact until after the eighteenth century Christianity was perhaps the most intolerant of all the great world religions How Christian Europe and the West went from this extreme to their present universal belief in religious toleration is the momentous story fully told for the first time in this timely and important book by a leading historian of early modern Europe Perez Zagorin takes readers to a time when both the Catholic Church and the main new Protestant denominations embraced a policy of endorsing religious persecution coercing unity and with the state's help mercilessly crushing dissent and heresy This position had its roots in certain intellectual and religious traditions which Zagorin traces before showing how out of the same traditions came the beginnings of pluralism in the West Here we see how sixteenth and seventeenth century thinkers writing from religious theological and philosophical perspectives contributed far more than did political expediency or the growth of religious skepticism to advance the cause of toleration Reading these thinkers from Erasmus and Sir Thomas More to John Milton and John Locke among others Zagorin brings to light a common if unexpected thread concern for the spiritual welfare of religion itself weighed more in the defense of toleration than did any secular or pragmatic arguments His book which ranges from England through the Netherlands the post 1685 Huguenot Diaspora and the American Colonies also exposes a close connection between toleration and religious freedom A far reaching and incisive discussion of the major writers thinkers and controversies responsible for the emergence of religious tolerance in Western society from the Enlightenment through the United Nations Universal Declaration of Human Rights this original and richly nuanced work constitutes an essential chapter in the intellectual history of the modern world

Predestination Greg Kame,2021-03-11 The doctrine of predestination is an important starting point for the study of Christian theology thought from a Reformed theological perspective This doctrine is essential because it is one of the central themes from the Bible that has been the reason for many debates among many theologians in the history of the church Despite the different views held by mainline Protestant theologians like Martin Luther John Calvin and Jacobus Arminius this book points to Scripture as the basis for Reformed soteriology It uses the tools of biblical interpretation to show how the entire Bible addresses the doctrine of predestination so that theology students pastors Bible teachers and anyone interested in Christian theology will better understand predestination from a Reformed perspective toward an effective ministry today

Perspectives on the Doctrine of God Bruce A. Ware,Paul Helm,Roger E. Olson,John Sanders,2008 Classical Calvinist Modified Calvinist Classical Arminian and Open Theist views are evenly and productively discussed in Perspectives on the Doctrine of God

Predestination Peter J. Thuesen,2009-07-06 Predestination the idea that God foreordains one s eternal destiny is one of the most fascinating and controversial doctrines in Christianity In this groundbreaking history the first of its kind Peter Thuesen shows that far from being only about the age old riddle of divine

sovereignty versus human free will the debate over predestination is inseparable from other central Christian beliefs and practices the efficacy of the sacraments the existence of purgatory and hell the extent of God's providential involvement in human affairs and has fueled theological conflicts across denominations for centuries

Historical research in the Low Countries 1970-1975 Alice C. Carter, 2024-09-16 The five review articles included in this volume were produced by the Dutch History Seminar of the University of London with the assistance of several Belgian and Dutch historians They first appeared in the volumes VI-X of the *Acta Historiae Neerlandicae* in 1978 renamed *The Low Countries History Yearbook* a periodical published by the Dutch Historical Society with the objective of bringing new publications on the history of the Low Countries in the Dutch language to the attention of English speaking historians These articles have been republished and provided with indexes in the hope that in this form they will also prove to be useful to students of Belgian and Dutch history who have not been regular readers of the *Acta* Should this publication be favourably received a subsequent volume covering the years 1976-1981 may be issued

Liberty and Religion: Church and State in Leiden's Reformation, 1572-1620 Christine Kooi, 2021-10-25 Leiden was the second largest city of the early modern Dutch Republic This city became officially Protestant in 1572 but it took fifty years before the Reformed Church settled completely into the city's polity and society This was largely due to disagreements between the city's ruling elites and the Reformed leaders about how much independence the church should enjoy This book examines the establishment and early history of the Reformed community of Leiden The evolution of the controversy between church and state is examined from the 1570s during the Dutch Revolt to the early 1620s the beginning of the Dutch Republic's Golden Age It also examines the consequences of this controversy for Leiden's non-Reformed confessions especially Catholics Lutherans and Mennonites and places the case of Leiden in a wider Dutch and European context

John Owen Carl R. Trueman, 2021-11-18 John Owen is considered one of the sharpest theological minds of the seventeenth century and a significant theologian in his own right particularly in terms of his contributions to pneumatology christology and ecclesiology Carl Trueman presents a major study of the key elements of John Owen's writings and his theology Presenting his theology in its historical context Trueman explores the significance of Owen's work in ongoing debates on seventeenth century theology and examines the contexts within which Owen's theology was formulated and the shape of his mind in relation to the intellectual culture of his day particularly in contemporary philosophy literature and theology Examining Owen's theology from pneumatological political and eschatological perspectives Trueman highlights

the trinitarian structure of his theology and how his theological work informed his understanding of practical Christianity With the current resurgence of interest in seventeenth century Reformed theology amongst intellectual historians and the burgeoning research in systematic theology this book presents an invaluable study of a leading mind in the Reformation and the historical underpinnings for new systematic theology

Embracing the Past—Forging the Future Wm. Andrew Schwartz, John M. Bechtold, 2015-09-17 The times they are a changin As such our theology needs to adapt to be responsive to the changing landscape The idea for *Embracing the Past Forging the Future A New Generation of Wesleyan Theology* came from our assessment that Wesleyan theology has yet to fully adapt to this changing landscape and that the future of Wesleyan theology requires the bringing together of old and new voices The difficult task of balancing between continuity and change keeping up with the developments of our culture and staying true to the roots of our tradition requires the dual focus of looking forward and backward simultaneously In this volume we have brought together contributions by young Wesleyan scholars graduate students and junior faculty as a way of illustrating and articulating a new generation of Wesleyan theology These younger voices demonstrate the desire to push Wesleyan theology in new directions Additionally we have included contributions from senior scholars who have been doing important work and who have already made significant contributions to Wesleyan theology This is not simply the old guard but the voices of scholars who continue to make a profound impact on Wesleyan theology

Francis Johnson and the English Separatist Influence Scott Culpepper, 2011 The first thorough treatment of Francis Johnson as the central focus of an academic work Once referred to as the Bishop of Brownism by one of his contemporaries Johnson s theological and practical influence on Christian traditions as diverse as the Baptists Congregationalists and English Independents demonstrated the wide breadth of English Separatism s formative influence

Francis Turretin (1623-87) and the Reformed Tradition Nicholas A. Cumming, 2020-09-25 In this biography of Reformed theologian Francis Turretin 1623 87 Nicholas A Cumming provides critical context for the life and theology of this important seventeenth century theologian and his impact on the Reformed tradition as a whole Turretin has commonly been identified as a strict scholastic theologian this work places Turretin in his broader context analyzing his life and theology in terms of the political and religious aspects of post Reformation Europe and his posthumous influence on nineteenth and twentieth century Reformed theology This work begins with a biography of Turretin including his education and ministry then proceeds to the context of Turretin s theology in the early modern and modern periods particularly in relation to his major work *The Institutes of Elenctic Theology*

Calvinism and the Making of the European Mind , 2014-09-18 Calvinism must be assigned a significant place among the forces that have shaped modern European culture Even now despite its history of religious fragmentation and secularization Europe continues to bear the marks of a pervasive Calvinist ethos The character of that ethos is however difficult to pin down In this volume many of the traditional scholarly conundrums about the relationship between Calvinism and the cultural history of Europe are revisited and re investigated to see what new light

can be shed on them For example how has the ethos of Calvinism or more broadly the Reformed tradition affected economic thinking and practice the development of the sciences views on religious toleration or the constitution of European polities In general what kind of transformations did Calvinism s distinct spirituality bring about Such questions demand painstaking and detailed scholarly work a fine sample of which is published in this volume
