Nuclear Arms Control, with Effective International Agreements Julie Dahlitz, 1983

The 1984 Guide to the Evaluation of Educational Experiences in the Armed Services: Air Force American Council on Education, 1984

Pakistan's Nuclear Policy Zafar Khan, 2014-07-17 In May 1998 in reaction to India s nuclear weapons tests Pakistan tested six nuclear weapons Following this the country opted for a policy of minimum deterrence and within a year Pakistan had altered its policy stance by adding

the modifier of minimum credible deterrence This book looks at how this seemingly innocuous shift seriously impacted on Pakistan's nuclear policy direction and whether the concept of minimum has lost its significance in the South Asian region's changed changing strategic environment After providing a brief historical background exploring why and how Pakistan carried out the nuclear development program the book questions why Pakistan could not sustain the minimum deterrence that it had conceptualized in the immediate aftermath of the 1998 test It examines the conceptual theoretical framework of the essentials of minimum deterrence in order to question whether Pakistan's nuclear policy remained consistent with this as well as to discover the rudimentary factors that are responsible for the inconsistencies with regard to minimum deterrence conceived in this study The book goes on to look at the policy options that Pakistan had after acquiring the nuclear capability and what the rationale was for selecting minimum deterrence The book not only highlights Pakistan's deterrent force building but also analyzes closely Pakistan's doctrinal posture of first use option Furthermore it examines the policy towards arms control and disarmament and discusses whether these individual policy orientations are consistent with the minimum deterrence Conceptually providing a deeper understanding of Pakistan's post 1998 nuclear policy this book critically examines whether the minimum deterrence conceived could be sustained both at the theoretical and operational levels It will be a useful contribution in the field of Nuclear Policy Security Studies Asian Politics Proliferation Non Proliferation Studies and Peace Studies This book will be of interest to policy makers scholars and students of nuclear policy nuclear proliferation and arms control related research

Social States Alastair Iain Johnston, 2014-06-12 Constructive engagement became a catchphrase under the Clinton administration for America's reinvigorated efforts to pull China firmly into the international community as a responsible player one that abides by widely accepted norms Skeptics questioned the effectiveness of this policy and those that followed But how is such socialization supposed to work in the first place This has never been all that clear whether practiced by the Association of South East Asian Nations ASEAN Japan or the United States Social States is the first book to systematically test the effects of socialization in international relations to help explain why players on the world stage may be moved to cooperate when doing so is not in their material power interests Alastair Iain Johnston carries out his groundbreaking theoretical task through a richly detailed look at China's participation in international security institutions during two crucial decades of the rise of China from 1980 to 2000 Drawing on sociology and social psychology this book examines three microprocesses of socialization mimicking social influence and persuasion as they have played out in the attitudes of Chinese diplomats active in the Conference on Disarmament the Comprehensive Nuclear Test Ban the Convention on Conventional Weapons and the ASEAN Regional Forum Among the key conclusions Chinese officials in the post Mao era adopted more cooperative and more self constraining commitments to arms control and disarmament treaties thanks to their increasing social interactions in international security institutions *Monthly Catalog of United States Government Publications* United States.
