Russett, Fred Chernoff, 1985 **Milestones in strategic arms control 1945-2000...**, **The Changing Face of Conflict and the Efficacy of International Humanitarian Law** Helen Durham, Timothy L.H. McCormack, 2022-10-31 It is indisputable that the way armed conflict is conducted has changed dramatically in the last half of the twentieth century The contributions to this volume accept the reality of these changes and seek to assess the efficacy of certain aspects of international humanitarian law The volume commences with a critical evaluation of the 1977 Protocols additional to the four Geneva Conventions of 1949 Subsequent chapters consider increasing protection for women and minorities in armed conflict efforts to control the weapons of war identifying the law applicable to peace operations and current developments in the enforcement of international humanitarian law One general theme which emerges from a number of chapters is the importance of the relationship between international humanitarian law and other relevant areas of international law Most of the contributors also applaud recent developments towards effective enforcement of the established principles of this important area of international law **Waging Nuclear Peace** Robert Ehrlich, 1985-01-01 Waging Nuclear Peace is a clear and informative interdisciplinary survey of the issues surrounding nuclear war It raises and attempts to answer questions that often go unasked How can we measure the risk of nuclear war Will slowing the arms race reduce the risk of war Is disarmament desirable or undesirable in this respect Robert Ehrlich has succeeded in being as objective as possible while at the same time taking well defined positions on a wide range of subjects Yet the book does not purport to have the answers to the nuclear dilemma Instead it assists the reader in thinking through the issues and in coming to a personal conclusion Comprehensive in its scope Waging Nuclear Peace encompasses both technical issues such as the effects of nuclear weapons and policy issues such as arms control the nature of the arms race and the feasibility of civil defense It includes material on new findings concerning nuclear winter the catastrophic change in global climate that might follow a nuclear war **National Security Affairs Monograph Series**, 1976 **SALT Two**

**Ratification Issues** Joel M. McKean, 1978      Bulletin of the Atomic Scientists, 1981-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world      Bulletin of the Atomic Scientists, 1981-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world      **Kennedy, Khrushchev and the Test Ban** Glenn T. Seaborg, 2023-11-15 This is one of the most important books to come from a university press within the last year Seaborg Nobel Prize laureate was chairman of the old Atomic Energy Commission AEC when the treaty was negotiated With a decent time interval now past he has opened the detailed diary he kept during his AEC tenure Together with auxiliary materials including interviews with other participants he has now written an incisive account of events leading up to the treaty and of the negotiations and their successful conclusion Christian Science Monitor Drawn from Seaborg's personal journal this book focuses on Kennedy's quest for a comprehensive test ban and on why despite some near misses this glittering prize which carried with it the opportunity to arrest the viciously spiralling arms race eluded our grasp More than a memoir the book draws upon documents and observations of other key participants It also provides insights into Kennedy and his Administration as well as giving us the substance of the nuclear test ban debate Mr Seaborg is refreshingly fair in his assessment of the merits and failures of the limited treaty that Kennedy achieved New York Times A detailed and absorbing history of what seems in retrospect the innocent and halcyon days of nuclear arms control Seaborg rightly lays claim to having been an insider in the test ban negotiations and his first person account benefits from close friendship with other Kennedy insiders As might be expected the book is most interesting for the light it throws upon the thoughts and actions of Kennedy a surprise is its insight reflected through the eyes of Kennedy and Harriman into the personality of Khrushchev Implicit in Seaborg's portrait of Khrushchev is a view which perhaps had some currency in the Kennedy administration but more recently seems to have fallen out of vogue that it is possible to deal with the Russians Washington Post This is one of the most important books to come from a university press within the last year Seaborg Nobel Prize laureate was chairman of the old Atomic Energy Commission AEC when the treaty was negotiated With a decent time interval now past      Writing Back Robin Peel, 2002 Writing Back Sylvia Plath and Cold War Politics explores the relationship between Plath's writing and Cold War discourses and argues that the time 1960-1963 the place England and the global politics are important factors for us to consider when we consider the rhetoric of Plath's later poetry and fiction Based on fresh readings arising from new research this study argues that Plath should not be depoliticized and examines her writing alongside the discourses of the period as expressed in newspaper reporting magazines and BBC radio In contrasting her relationship with institutions in America in the 1950s with her responses in England to church the American arms industry the National Health Service and the Campaign for Nuclear

Disarmament it becomes clear that the process of cultural defamiliarization causes Plath to question the model of the individual artist divorced from society a model of the writer that had previously seemed so attractive

Great Power Competition for Overseas Bases Robert E. Harkavy, 2013-10-22 Great Power Competition for Overseas Bases The Geopolitics of Access Diplomacy explores the geopolitics of the major powers overseas basing systems in relation to global strategies and changes in the international system in three fairly distinct phases the interwar early postwar and recent postwar periods This book links the great powers competition for overseas bases to several streams of more or less contemporary international relations theory This monograph consists of seven chapters and opens with an introduction to the diplomacy of basing access followed by a discussion on the different types or purposes of basing access as they have evolved over the past several decades in response to changes in diplomacy and military technology The major powers overseas basing access networks in the consecutive interwar early postwar and recent postwar periods are then reviewed along with the earlier corpus of geopolitical theory specifically as it relates to basing diplomacy Emphasis is on the conflicting assumptions about what reciprocal strategic advantages and disadvantages inhere to the geographic positions of the United States and USSR The final chapter considers a number of functional areas of world politics that are closely intertwined with basing diplomacy and relates the competition for facilities to raw materials access surrogate wars strategic deterrence arms control balances of payments arms sales and aid alliances and other such staple concerns of international relations This book will be of interest to political scientists military and government officials diplomats and policymakers

European Security Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in

the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

Compliance & Public Authority Oran R. Young, 2013-10-18 Offers a theory of compliance and authority that would be applicable to behavior concerning economic contracts law enforcement and international relations It examines the problem of compliance in centralized e.g. national and state laws and decentralized international treaties systems Applies the theory to explain the level of compliance with Partial Nuclear Test Ban Treaty and the International North Pacific Fisheries Convention Originally published in 1979     **DNA**, 19??     Scientific American, 1894 Monthly magazine devoted to topics of general scientific interest     **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1975
