Arms Control Moral Political And Historical Lessons:

Arms Control Kenneth W. Thompson, 1990 Many of the world's most influential policy makers and analysts view arms control as a scientific and technological problem. They tend to ignore the human and qualitative aspects of power. This book shifts the emphasis to elements bound up in the moral, political and historical lessons of the nuclear age. Non-quantitative factors have been central to studies of national defense and military power since the rise of the modern nation-state system. One purpose of this collection of papers is to redirect attention to the moral, political and historical lessons that the nuclear age presents. What most distinguishes the writings of contributors to this volume is their use of certain well-established principles and concepts long acknowledged in military and foreign policy analysis. *Jonathan Dean* Hans Günter Brauch, Teri Grimwood, 2014-05-20 Jonathan Dean 1924-2014 was a distinguished U.S. diplomat 1950-1980 and from 1984 to 2007 global security adviser to the Union of Concerned Scientists, Washington, D.C. During the 1980s and 1990s he was a pioneering conceptual thinker, writer and speaker on détente in Europe, global cooperative security, arms control and disarmament. He authored *Watershed in Europe* 1987, *Meeting Gorbachev's Challenge* 1989 and *Ending Europe's Wars* 1994. This volume contains his biography and bibliography, six texts on détente and arms control in Europe in the 1980s, *Beyond First Use*, *MBFR Alternative Defence*, *Berlin: A Crisis Management Center*, *Conventional Arms Control in Europe* and six texts on the new security order in Europe since the 1990s, *Components of a Post-Cold War Security System for Europe*, *Constraining Technological Weapons Innovation*, *NATO Enlargement Act II*, *Ten Years after the Wall*, *Future Security in Space*, *Rethinking Security*, *Return to the Grotian Pattern*. **Special Bibliography Series**, 1957 **Special Bibliography Series** United States Air Force Academy Library, 1991 [Political Conflict and Arms Control](#) Nasir Mehmood, 2023-01-24 This book offers a comprehensive analysis of the evolution and development of arms control processes as an integral part of the Pakistan-India grand dialogue which took place from 1988 to 2008 and it examines the larger political context and its impact on arms control processes. Nasir Mehmood prioritizes four types of political conflicts: Jammu and Kashmir, hostile domestic politics, dissimilar military doctrines and China as a third party. Mehmood determines their connection and function in restricting arms control during three major rounds of broader security dialogue between Pakistan and India: 1988-1994, 1997-1999 and 2004-2008. Through these major rounds of dialogue, there are patterns of interaction within and across three sub-cases. This volume, which offers a systematic survey of bilateral arms control processes within the local settings and includes critical theoretical and policy insights, shall be of interest to students and scholars interested in security studies and international relations theory with a focus on the strategic horizon of South Asia. [Historical Dictionary of Arms Control and Disarmament](#) Jeffrey A. Larsen, James M. Smith, 2005-03-25 *Historical Dictionary of Arms Control and Disarmament* also provides information that is comprehensible to all readers. Jeffrey A. Larsen and James M. Smith present a context for the broader range of international relations at a given point in time, extending the utility of the dictionary beyond just a narrow
