M. Osur, 1977 This book is based upon a PH D dissertation written by an Air Force officer who studied at the University of Denver Currently an Associate Professor of History at the Air Force Academy Major Osur s account relates how the leadership in the War Department and the U S Army Air Forces USAAF tried to deal with the problem of race and the prejudices which were reflected in the bulk of American society It tells a story of black racial protests and riots which such attitudes and discrimination provoked The author describes many of the discriminatory actions taken against black airmen whose goal was equality of treatment and opportunities as American citizens He also describes the role of black pilots as they fought in the Mediterranean theater of operations against the Axis powers In his final chapters he examines the continuing racial frictions within the Army Air Forces which led to black servicemen protests and riots in 1945 at several installations Despite these problems the author concludes that the Army Air Forces made substantial progress in race relations and in opening up additional career opportunities for black airmen in the post 1945 period Foreword by USAF Major General John

W Huston Office of Air Force History Chief Eagles Overhead Matt Dietz, 2023-02-15 US Air Force Forward Air Controllers FACs bridge the gap between air and land power They operate in the grey area of the battlefield serving as an aircrew who flies above the battlefield spots the enemy and relays targeting information to control close air support attacks by other faster aircraft When done well Air Force FACs are the fulcrum for successful employment of air power in support of ground forces Unfortunately FACs in recent times have been shunned by both ground and air forces their mission complicated by inherent difficulty and danger as well as by the vicissitudes of defense budgets technology leadership bureaucracy and doctrine Eagles Overhead is the first complete historical survey of the US Air Force FAC program from its origins in World War I to the modern battlefield Matt Dietz examines their role status and performance in every US Air Force air campaign from the Marne in 1918 World War II Korea Vietnam Desert Storm and finally Mosul in 2017 With the remaking of the post Vietnam US military and the impact of those changes on FAC the Air Force began a steady neglect of the FAC mission from

Operation Desert Storm through the force reductions after the Soviet Union's collapse and into the post 9/11 wars in Iraq and Afghanistan. Eagles Overhead asks why FACs have not been heavily used on US battlefields since 2001 despite their warfighting importance. Dietz examines the Air Force FAC's theoretical, doctrinal, institutional, and historical frameworks to assess if the nature of air warfare has changed so significantly that the concept and utility of the FAC has been left behind. From these examinations, Eagles Overhead draws conclusions about the potential future of Air Force FACs. *American Samurai* Craig M. Cameron, 1994-01-28. A study of the cultural dynamics of ground combat. MacArthur's Coalition Peter J. Dean, 2018-04-03. From 1942-1945, the Allies' war in the Southwest Pacific was effectively a bilateral coalition between the United States and Australia under the command of General Douglas MacArthur. By charting the evolution of the military effectiveness of the US-Australian alliance, MacArthur's Coalition puts the relationship between the United States and Australia at the center of the war against Japan. Drawing on new primary source material, Peter J. Dean has written the first substantial book-length treatment of the coalition as a combined military force. This expansive and ambitious book provides a fresh perspective on the Pacific War by providing a close-up, in-depth account of operations in the Southwest Pacific from the Kokoda Trail campaign to the reconquest of the Philippines and Borneo. Dean's work takes the reader deep into the key military headquarters in the Southwest Pacific and reveals the discussions, debates, and arguments between key commanders and staff officers during the course of planning and waging a monumental conflict. Drawing upon archival records across three continents, Dean brings the qualities of these senior officers to life by exploring the critical importance of personalities and leadership in overcoming cultural, doctrinal, and organizational divides in the largely unequal alliance. Set against the practicalities of fighting a fanatical enemy in some of the most inhospitable terrain in the war, his book shows how, despite these divides and MacArthur's difficult personality, the US-Australian coalition was able to forge a highly effective and ultimately triumphant fighting machine. With its unprecedented view of the joint nature of operations in the Southwest Pacific and its focus on frontline commanders and units in forging a successful fighting force, MacArthur's Coalition illuminates a critical aspect of the Allied victory in World War II. **To Salamaua** Phillip Bradley, 2010-07-02. Cargill Hall, Air Force History and Museums Program (U.S.), 1998. **Stepping Stones to Nowhere** Galen Roger Perras, 2003. The Aleutian Islands, a mostly forgotten portion of the United States on the southwest coast of Alaska, have often assumed a key role in American military strategy. This work examines the Japanese occupation of the western Aleutians, which climaxed in the horrendous battle for Attu. **Amchitka and the Bomb** Dean Kohlhoff, 2002. Amchitka and the Bomb reconstructs thoroughly the decision by the Atomic Energy Commission to use Amchitka Island in the Aleutians as a test site for nuclear missile weaponry, utterly disregarding the fact that the island was a wildlife refuge. It will be an important contribution to environmental and Alaska studies and to national defense studies. Stephen Haycox, University of Alaska Anchorage. Implacable Foes Waldo H.

Heinrichs, Marc Gallicchio, 2017 Award winning historians Waldo Heinrichs and Marc Gallicchio offer a full account and a provocative re examination of the last year of World War II in the Pacific **Air Commanders** John Andreas Olsen, 2012 This book combines short military biographies and operational analyses to reveal how the personalities attitudes and life experiences of twelve outstanding U S airmen shaped the central air campaigns in American history These case studies illuminate the character of these airmen the challenges they confronted in widely disparate armed conflicts and the solutions that they crafted and implemented Their achievements proved decisive not only in the campaigns they led but also in shaping the U S Air Force and the dominant role of airpower in modern warfare **Military Review**, 1993-07 **The Army Air Forces in World War II, Vol. 4: The Pacific: Guadalcanal to Saipan, Aug. 1942 to Jy. 1944** W.f Craven, 1950

Uncertain Allies Eric Setzekorn, 2024-10-15 *Uncertain Allies* looks at the U S military s experience in the China Burma India CBI theater during World War II through the eyes of Joseph Stilwell the commanding general of all American forces in those three countries Accomplished historian Eric Setzekorn focuses on two key themes uncertain allies and ambiguous missions Despite being allies relationships between the Americans and Chinese as well as the Americans and the British were marked by a profound lack of trust in the CBI theater This was particularly problematic because most combat personnel under Stilwell s command were Chinese As a result the lack of trust directly impacted tactical and operational planning The second reoccurring theme ambiguous missions refers to the poorly defined goals for the theater The CBI s mission was vague and Stilwell lacked clear objectives or benchmarks of success Underlying both themes is the key flaw in Stilwell s conduct in the CBI theater a failure to understand the American political context in which he operated Stilwell advocated for a transactional military and political relationship despite clear indications that President Roosevelt other political leaders and the American public at large desired a long term cooperative relationship In this context of deep and widespread public support for forging a close and lasting alliance with China Stilwell s proposals to make military aid and American support on a quid pro quo basis was an isolated position that inevitably ran into staunch opposition The result was a dangerous disconnect between American military operations and national policy Setzekorn who is fluent in Chinese relied on a wide variety of sources when writing this penetrating account of the U S military s time in the CBI theater including Chinese and Japanese language archival material The declassification of numerous U S government sources over the past fifteen years also enables Setzekorn to make a full assessment and analysis of World War II era strategic thinking and military policy

MacArthur's Air Force Bill Yenne, 2019-09-17 General Douglas MacArthur is one of the towering figures of World War II and indeed of the twentieth century but his leadership of the second largest air force in the USAAF is often overlooked When World War II ended the three numbered air forces the Fifth Thirteenth and Seventh under his command possessed 4 004 combat aircraft 433 reconnaissance aircraft and 922 transports After being humbled by the Japanese in the Philippines in 1942 MacArthur and his air chief General George Kenney rebuilt the US aerial presence in the Pacific helping Allied naval

and ground forces to push back the Japanese Air Force re take the Philippines and carry the war north towards the Home Islands Following the end of World War II MacArthur was the highest military and political authority in Japan and at the outbreak of the Korean War in June 1950 he was named as Commander in Chief United Nations Command In the ten months of his command his Far East Air Forces increased dramatically and saw the first aerial combat between jet fighters
