Isolation is the complex theme which is usually addressed in poetry in connection with the depiction of the characters' interpersonal and intrapersonal conflicts. Thus, the topic of isolation is discussed in Matthew Arnold's poem "Dover Beach" (1867) with the focus on the changes in the social and religious life. In Thomas Hardy's "Ah, Are You Digging on My Grave" (1913), the topic of isolation is discussed more directly, but with the help of satire and irony.

Referring to these poems, it is possible to note that the idea of isolation can affect the persons at the social level, while accentuating the isolation between the social categories, and at the personal level, while concentrating on the individual's isolation from the other persons. In spite of the fact that the theme of isolation is shown in both the poems, the idea of isolation is presented in Arnold's poem "Dover Beach" with the focus on the melancholic isolation of people within the society because of their lost religious ideals and changed values; and in Hardy's "Ah, Are You Digging on My Grave", isolation is the personal problem which affects an individual, not a society.

The feeling of isolation as the aspect of the social atmosphere is accentuated in Arnold's poem. The poet is inclined to represent the isolation of everyone in the world of lost religious ideals. Thus, referring to the character's melancholy, Arnold focuses on the "eternal note of sadness" and "human misery" (Arnold 14, 18). In the context of the Victorian era's poetry, the problem of isolation is a result of the fact that the "Sea of Faith" is not as full and calm as it was previously (Arnold 21; Bristow 112). That is why, Arnold's approach to melancholic isolation is accentuated with references to the character's doubts and hesitations, and it is explained with references to the Victorian era's crisis of faith.

Isolation is also the problem associated with the interpersonal relations and the role of the individual in the other people's lives. In "Ah, Are You Digging on My Grave", Hardy discusses isolation as primarily the personal problem which is associated with sadness and fear of being forgotten. Following the satirical dialogue between the dead woman and the dog, it is possible to note that the woman is forgotten by every close

Ruderman, 2016-04-28 This book radically refigures the conceptual and formal significance of childhood in nineteenth century English poetry By theorizing infancy as a poetics as well as a space of continual beginning Ruderman shows how it allowed poets access to inchoate uncanny and mutable forms of subjectivity and art While recent historicist studies have documented the freshness of experience childhood confers on 19th century poetry and culture this book draws on new formalist and psychoanalytic perspectives to rethink familiar concepts such as immortality the sublime and the death drive as well as forms and genres such as the pastoral the ode and the ballad Ruderman establishes that infancy emerges as a unique structure of feeling simultaneously with new theories of lyric poetry at the end of the eighteenth century He then explores the intertwining of poetic experimentation and infancy in Wordsworth Anna Barbauld Blake Coleridge Erasmus Darwin Sara Coleridge Shelley Matthew Arnold Tennyson and Augusta Webster Each chapter addresses and analyzes a specific moment in a writer's work moments of tenderness or mourning birth or death physical or mental illness when infancy is analogized eulogized or theorized Moving between canonical and archival materials and combining textual and intertextual reading metrical and prosodic analysis and post Freudian psychoanalytic theory the book shows how poetic engagements with infancy anticipate psychoanalytic and phenomenological i.e. modern ways of being in the world Ultimately Ruderman suggests that it is not so much that we return to infancy as that infancy returns obsessively compulsively in us This book shows how by tracking changing attitudes towards the idea of infancy one might also map the emotional political and aesthetic terrain of nineteenth century culture It will be of interest to scholars in the areas of British romanticism and Victorianism as well as 19th century American literature and culture histories of childhood and representations of the child from art historical cultural studies and literary perspectives D B Ruderman's *The*

Idea of Infancy in Nineteenth Century British Poetry Romanticism Subjectivity Form is an interesting contribution to this field and it manages to bring a new perspective to our understanding of Romantic era and Victorian representations of infancy and childhood a supremely exciting book that will be a key work for generations of readers of nineteenth century poetry Isobel Armstrong Birkbeck University of London Victorian Studies 59 4 **Matthew Arnold** Laurence W. Mazzeno, 1999 Examines the critical reputation of one of the great literary critics From the publication of *The Strayed Reveller and Other Poems* in 1849 Matthew Arnold has been a figure of controversy who sparked decidedly strong and divergent opinions both about the quality of his artistry and about the ideas he espoused Not surprisingly a chronological reading of books and articles focusing on Arnold's writings reveals a century long civil war among literary scholars Focusing on studies judged to be most influential in shaping critical opinion of Arnold's poetry and prose Matthew Arnold *The Critical Legacy* explores the interplay between individual critics and Arnold's works and between one critic and another as they respond to Arnold's writings and the critical commentary There emerges an appreciation for the key questions that have captured the attention of Arnold's critics for over a hundred years Was Arnold a first rate poet or does he rank below the greatest figures of his century notably Tennyson and Browning *The Oxford Handbook of Victorian Poetry* Matthew Bevis, 2013-10 The Oxford Handbook of Victorian Poetry offers an authoritative collection of original essays and is an essential resource for those interested in Victorian poetry and poetics **Reader's Guide to Literature in English** Mark Hawkins-Dady, 2012-12-06 Reader's Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study Overcoming Matthew Arnold James Walter Caufield, 2016-05-13 Opening the way for a reexamination of Matthew Arnold's unique contributions to ethical criticism James Walter Caufield emphasizes the central role of philosophical pessimism in Arnold's master tropes of culture and conduct Caufield uses Arnold's ethics as a lens through which to view key literary and cultural movements of the past 150 years demonstrating that Arnoldian conduct is grounded in a Victorian ethic of renouncement a form of altruism that wholly informs both Arnold's poetry and prose and sets him apart from the many nineteenth century public moralists Arnold's thought is situated within a cultural and philosophical context that shows the continuing relevance of renouncement to much contemporary ethical reflection from the political kenosis of Giorgio Agamben and the pensiero debole of Gianni Vattimo to the ethical criticism of Wayne C Booth and Martha Nussbaum In refocusing attention on Arnold's place within the broad history of critical and social thought Caufield returns the poet and critic to his proper place as a founding father of modern cultural criticism
