Shattered Forms Allen S. Weiss, 1992-09-17 Art Brut also termed Outsider Art has long been suppressed from most art historical writing Why this rejection The hyperbolic expressions of Romanticism and Symbolism nourished a desire for derangement and dissociation that inspired both Expressionism and Surrealism Simulated delirium became the object of the new art experimental avant garde modernist which arose from the fragmented codes the shattered forms of everyday communication But what of those artists whose works and often whose deliria are the manifestations of sheer eccentricity of social isolation and marginalization or of madness In this book Weiss investigates the origins of the unrestricted contemporary artistic field seeking its sources in those works hitherto absent from the official histories of art works that constitute art s dark interior its disturbing netherworld Secluded occluded excluded Art Brut nevertheless extends the limits of artistic creativity and aesthetic discourse regardless of whatever anxieties such works may produce Shattered Forms explores the relations between Art Brut the psychopathology of expression and avant garde Modernism attempting to show how the consideration of Art Brut should lead to a revision of our theoretical and museological paradigms

Figures of Radical Absence Alexandra-Ecaterina Irimia, 2023-10-04 What is there to see in invisible artworks empty books or blank screens How do formal absences generate meaning Constructing an argument by way of montage this book is an annotated inventory of textual visual and conceptual figures of absence Spanning different media it reveals a creative tradition that uses absence not as a negative aesthetic category but as a productive state of radical indeterminacy with its own politics and poetics Although post structuralism highlighted the importance of what is offstage lost forgotten hidden or discarded silent or silenced the poetics and politics of absence much like its ethics and aesthetics have rarely been discussed across media and disciplines This book proposes the concept of radical absence to describe a certain tradition of resistance to ontology predication and representation contesting their reliance on a metaphysics of presence Apophatic speech empty signifiers and figural voids are some of the figures through which radical absence becomes apparent with unprecedented intensity in twentieth century theory literature film and the arts Phantasmatic and outrageous such figures play with creative strategies of dematerialization irony and other forms of discursive undoing Therefore absence becomes more than a simple theme it reflects back on the medium and the meaning making conditions under which it operates Elusive and imprecise as an object of study absence requires more subtle and flexible epistemological frameworks than have been available to date This monograph proposes we think of it not only as a counter concept for presence but also and perhaps more productively as infinite spacing deferral fragmentation and displacement Art Now Gallery Guide ,1996 **Arnulf Rainer** Arnulf

Rainer, 1996 **Cybernetic-Existentialism** Steve Dixon, 2019-11-14 Cybernetic Existentialism Freedom Systems and Being for Others in Contemporary Arts and Performance offers a unique discourse and an original aesthetic theory It argues that fusing perspectives from the philosophy of Existentialism with insights from the universal science of cybernetics provides a new analytical lens and deconstructive methodology to critique art In this study Steve Dixon examines how a range of artists works reveal the ideas of Existentialist philosophers including Kierkegaard Camus de Beauvoir and Sartre on freedom being and nothingness eternal recurrence the absurd and being for others Simultaneously these artworks are shown to engage in complex explorations of concepts proposed by cyberneticians including Wiener Shannon and Bateson on information theory and noise feedback loops circularity adaptive ecosystems autopoiesis and emergence Dixon s groundbreaking book demonstrates how fusing insights and knowledge from these two fields can throw new light on pressing issues within

contemporary arts and culture including authenticity angst and alienation homeostasis radical politics and the human as system
