Russell, 2023-10-30 *The Materiality of the Archive* is the first volume to bring together a range of methodological approaches to the materiality of archives as a framework for their engagement analysis and interpretation Focusing on the archives of creative practices the book reaches between and across existing bodies of knowledge in this field including material culture art history and literary studies unified by an interest in archives as material deposits and aggregations in both analogue and digital forms as well as the material encounter Connecting a breadth of disciplinary interests in the archive with expanding discourses in materiality contributors address the potential of a material engagement to animate archival content Analysing the systems processes and actions that constitute the shapes forms and structures in which individual archival objects accumulate and the underpinnings which may hold them in place as an archival body the book considers ways in which the inexorable move to the digital affects traditional theories of the physical archival object It also considers how stewardship practices such as description and metadata creation can accommodate these changes *The Materiality of the Archive* unifies theory and practice and brings together professional and academic perspectives The book is essential reading for academics researchers and postgraduate students working in the fields of archive studies museology art history and material culture

Paxton Hood, 1851 *Pre-State Photographic Archives and the Zionist Movement* Rotem Rozental, 2023-03-24 By entering and critically re activating the Zionist photographic archive established by the Division of Journalism and Propaganda of the Jewish National Fund this research examines its rippling impact on civil landscapes prior to 1948 in Palestine and its lasting impact on the region to date This study argues that the Zionist movement makes particular use of the machinery of the photographic archive aiming to constitute the boundaries of Palestine as a Jewish state claiming ownership over the land and announcing internationally the success of its enterprise thus substantiating the image it sought to embed as the reality of the land This archive was not stand alone as it was functioning in relation to a vast complicated network of organizational systems and technologies in the Middle East and across the world Crucially this system functioned as a national archive in future tense for a nation state that was not yet in existence seeking to substantiate its regional authority and shape its cultural repository outlining parameters for inclusion and exclusion from its civic space The book will be of interest to scholars working in art history photography history visual culture Jewish studies Israel studies and Middle East studies

Performing Archives/Archives of Performance Gunhild Borggreen, Rune Gade, 2013-07-12 *Performing Archives*

Archives of Performance contributes to the ongoing critical discussions of performance and its disappearance of the ephemeral and its reproduction of archives and mediatized recordings of liveness. The many contributions by excellent scholars and artists from a broad range of interdisciplinary fields as well as from various locations in research geographies demonstrate that despite the extensive discourse on the relationship between performance and the archive inquiry into the productive tensions between ephemerality and permanence is by no means outdated or exhausted. New ways of understanding archives, history and memory emerge and address theories of enactment and intervention while concepts of performance constantly proliferate and enable a critical focus on archival residue. The contributions in *Performing Archives* Archives of Performance cover philosophical inquiries as well as discussions of specific art works, performances and archives. Contributions by Heike Roms, Amelia Jones, Julie Louise Bacon, Peter van der Meijden, Emma Willis, Rivka Syd Eisner, Rachel Fensham, Sarah Whatley, Tracy C. Richardson, 2015-05-19. In *New Perspectives on Old Testament Prophecy and History* colleagues, students and friends of Hans M. Barstad offer essays in honour of his esteemed career in biblical studies. Contributions on prophecy include the debate on prophets as historical figures, the biblical books of Isaiah, Ezekiel, Hosea, Amos and Micah and issues of methodology and interpretation. Essays devoted to history address various historiographic issues as well as specific historical topics such as the monarchy in ancient Israel, the relationship of Judah to Edom and the ritual of reading the law. In ways that reflect Hans Barstad's innovative insights and methodological critiques, this collection of essays probes beyond the oft-trodden paths of biblical studies and challenges the status quo within the field.
