Past Master R. A. Lafferty, 2019-10-03 Wolf Hall meets The Man in the High Castle in this mind bending science fiction classic now presented in an authoritative new edition from Library of America Plucked from time Sir Thomas More arrives on the human colony of Astrobe in the year 2535 A D where there is trouble in utopia Can he and his motley followers save this golden world from the Programmed Persons and the soulless perfection they have engineered The survival of faith itself is at stake in this thrilling uncategorizable wildly inventive first novel but the adventure is more than one of ideas As astonishingly as Philip K Dick and other visionaries of the 1960s new wave Lafferty turns the conventions of space opera science fiction upside down and inside out Here are fractured allegories tales within tales twinkle in the eye surprises fantastic byways and alien subjectivities that take one's breath away Neil Gaiman has described Lafferty a genius an oddball a madman Gene Wolfe calls him our most original writer Long hailed by insiders and now with an introduction by Andrew Ferguson as well as unpublished omitted passages included in the notes Past Master deserves to perplex and delight a wider audience

Half a Sky R. A. Lafferty, 2017-01-26 A constellation of persons or events will have precedent It will not appear out of nothing it's a converging of previous trails and persons Before one set of adventures there was always another set and before those still another set back to the beginning of the world We pass from one set to another now from the Green Flame adventure to the Half Sky adventure We are still in the middle of the nineteenth century that most unreal of centuries looking for reality under stodgy and ridiculous surface

East of Laughter R. A. Lafferty, 2016-01-29 There have always been the Twenty One Pillars of Rectitude who sustain the World Seven Saints to insure the sanity of the world Seven Technicians to insure its correct mechanical working and Seven Scribbling Giants to write its scenarios and histories The Saints and Technicians were always in plentiful supply But not so the Scribbling Giants So when Atrox Fabulinus the greatest of the Scribbling Giants was most foully murdered with his own nine foot long goose feather quill the World staggered with the collapse of its most sustaining pillar Then the remaining Scribbling Giants all of them very old and tired cried out for replacements so they could go to their restful deaths This is the story of how the World at the uneven changing of its supporting pillars staggered and reeled It is also the story of the Group of Twelve a Group remarkable for its creativity and elegance and how it set out to sustain the World in its new days of tottering terror Whether the Group will be successful indeed whether they have been successful remains to be answered on

A. Lafferty, 2016-01-29 It was the End of Summer of the year 2035 The Global Village that was the World was ruled by a Kangaroo Court of Compassionate Aldermen who ordered assassinations when it was deemed to be for the common good As a sign of their openness they were always experimenting to find new ways of looking at the World Most of these experiments would fail some of them would succeed to an extent and others would succeed only too well and so would have to be crushed in the shell for the good of the World The Lynn Randal Experiment raised three children together almost from infancy Of these three Lord Randal was human though somewhat enhanced and tampered with Axel belonged to the gargoyle faced Golden People God believes they are the most beautiful creatures he ever made a theologian said and there will be hell to pay when he finds out that we don't agree And the third child was Inneal who often elicited the comment she's really something different isn't she Yes she was All of these were super mega persons which meant that they might be able to change the world itself But why did they begin to change the Ocean first When these three were just short of ten years old they were merged with children of three other experiments and formed with them a Magic Dozen Immediately they began to have an astonishing effect on the World And the fate of the children themselves hung in the balance Was the experiment too successful Was their effect on the World too dangerous

Would their group be as other groups had been adjudged to be a Serpent s Egg that had to be crushed in the shell for the good of the world The Three Days of Summerset the End of Summer would give the answer **Aurelia** R. A.

Lafferty,2016-04-28 Aurelia was a fifteen year old girl from a very advanced world She d passed Starship building easily enough but she d slept through most of celestial navigation That was how she ended up on a little back water dump like Earth where her advanced powers seemed like miracles Some thought she was the Messiah Some thought she was the Devil No one was prepared for the truth **Lafferty in Orbit** R. A. Lafferty,2016-04-28 The stories contained in this volume

demonstrate the unique and unpredictable imagination style and vision that earned R A Lafferty the 1990 World Fantasy Award for Lifetime Achievement Sindbad, The Thirteenth Voyage R. A. Lafferty,2016-01-29 As Harun lay dying here on Kentaureon Mikron all untimely still in his golden youth he whispered a word to me that he would use if he were born again It is the meaningless but neurologically magic word Baghdad It has since become the name of one of those mirage cities one of those cloud cities that travellers sometimes report seeing I have learned today that its meaning in Old Kentaureon is The Last City Built By Magic
