Art & Architecture in the Poetry of Robert Browning. Volume II., Germain Boffrand Caroline van Eck, 2017-10-03 This title was first published in 2003 Germain Boffrand was one of the great French architects of the early eighteenth century His work encompassed not only the design of town and country houses for the wealthy but also mines bridges and hospitals His *Livre d'Architecture* is one of the most original books on architecture ever written in France Taking the *Art of Poetry* by the Latin poet Horace as its starting point it developed an aesthetic of architecture focused on character style and the emotional impact of a building that influenced Blondel Le Camus de Mezieres and Soane and is still central to contemporary debate about the nature and meaning of architecture Translated for the first time by David Britt Boffrand's text is here accompanied by an extensive introduction and notes by Caroline van Eck who situates Boffrand within the main issues of eighteenth century architectural aesthetics Beautifully illustrated including all the pictures chosen by Boffrand for his original publication this book is an invaluable tool for teaching the history of architectural theory and an essential work for any architectural library Germain Boffrand is published with the assistance of the Getty Foundation

Building, 1890 *The Gothic Revival and American Church Architecture* Phoebe B. Stanton, 1997-05-28 This illustrated account of the impact of the English Gothic revival on American church architecture in the mid nineteenth century finds that this fundamentally conservative movement provided the foundation for a new influential aesthetic With meticulous research and carefully chosen illustrations Phoebe Stanton here explores the influence of the English Gothic revival on American church architecture in the mid nineteenth century arguing that this fundamentally conservative movement provided a foundation for a new aesthetic Examining the writings of the movement's leading proponents as well as a variety of important buildings Stanton offers a comprehensive survey of the architectural principles and models that became most influential in America She also confirms the importance of the Cambridge Camden Society which provided the theoretical atmosphere and practical examples that helped to establish new standards of excellence in American architecture

Werner's Magazine, 1899 **Realism, Representation, and the Arts in Nineteenth-Century Literature** Alison Byerly, 1997 This book confronts a significant paradox in the development of literary realism the very novels that present themselves as purveyors and celebrants of direct ordinary human experience also manifest an obsession with art that threatens to sabotage their Realist claims Unlike previous studies of the role of visual art or music or theatre in Victorian literature *Realism Representation and the Arts in Nineteenth Century Literature* examines the juxtaposition of all of these arts in the works of Charlotte Bront William Thackeray George Eliot Thomas Hardy and others Alison Byerly combines close textual analysis with discussion of relevant ancillary topics to illuminate the place of different arts within nineteenth century British culture Her book which also contains sixteen illustrations represents an effort

to bridge the growing gap between aesthetics and cultural studies
