Arms Race:

Arms Races in International Politics Thomas G. Mahnken, Joseph Maiolo, David Stevenson, 2016 This volume provides the first comprehensive history of the arms racing phenomenon in modern international politics drawing both on theoretical approaches and on the latest historical research Written by an international team of specialists it is divided into four sections before 1914 the inter war years the Cold War and extra European and post Cold War arms races Twelve case studies examine land and naval armaments before the First World War air land and naval competition during the 1920s and 1930s and nuclear as well as conventional weapons since 1945 Armaments policies are placed within the context of technological development international politics and diplomacy and social politics and economics An extended general introduction and conclusion and introductions to each section provide coherence between the specialized chapters and draw out wider implications for policymakers and for political scientists Arms Races in International Politics addresses two key questions what causes arms races and what is the connection between arms races and the outbreak of wars Arms Races in International Politics Thomas Mahnken, Joseph Maiolo, David Stevenson, 2016-01-14 This volume provides the first comprehensive history of the arms racing phenomenon in modern international politics drawing both on theoretical approaches and on the latest historical research Written by an international team of specialists it is divided into four sections before 1914 the inter war years the Cold War and extra European and post Cold War arms races Twelve case studies examine land and naval armaments before the First World War air land and naval competition during the 1920s and 1930s and nuclear as well as conventional weapons since 1945 Armaments policies are placed within the context of technological development international politics and diplomacy and social politics and economics An extended general introduction and conclusion and introductions to each section provide coherence between the specialized chapters and draw out wider implications for policymakers and for political scientists Arms Races in International Politics addresses two key questions what causes arms races and what is the connection between arms races and the outbreak of wars **Tacit Bargaining, Arms Races, and Arms Control** George W. Downs, David M. Rocke, 2025-10-01 When most people including social scientists reflect on the ways that nations resolve their differences they tend to think in terms of polar alternatives war versus negotiation This perspective ignores a third path tacit bargaining which is applicable as this book shows to a wide variety of international issues and is especially germane to the problem of treaty maintenance *Global and Regional Approaches to Arms Control in the Middle East* Gamal M. Selim, 2013-07-11 Since the end of the Cold War the Middle East has been the focus of various projects for the establishment of arms control including CBMs regimes Whereas some of these projects were initiated at the global level others were discussed and debated at the regional level This book analyses the global and regional dynamics of arms control in the Middle East in the post Cold War era It examines American and European arms control projects the contexts in which they were presented the reactions of major regional actors and their impacts on arms

control efforts in the region It assesses Arab perceptions of the motivations for and constraints on establishing arms control regimes It also explores the prospects of regional arms control in the context of the ongoing Arab Spring with its ramifications for Arab regional politics and provides a new perspective on arms control in the Middle East This volume enriches the ongoing discourse which to date has been dominated by mainly Western perspectives *Arms Control Implications of Current Defense Budget, Hearings Before the Subcommittee on Arms Control, International Law and Organization ... 92-1, June 16,17, and July 13,14, 1971* United States. Congress. Senate. Foreign Relations,1971 *The Origins of the First World War* William Mulligan,2010-03-04 A new interpretation of the origins of World War I that synthesises recent scholarship and introduces the major historiographical and political debates surrounding the outbreak of the war It examines key issues providing a clear account of relations between the great powers disintegrating empires and the role of smaller states **Quantitative Assessment in Arms Control** Rudolf Avenhaus,2012-12-06 This book originates in a series of contributions to the 1983 Systems Science Seminar at the Computer Science Department of the German Armed Forces University Munich Under the topic Quantitative Approaches to Arms Control that seminar attempted to review the present state of the art of systems analysis and numerical methods in arms control To this end the editors invited a number of experts from Europe the United States and Canada to share and discuss their views and assessments with the faculty and upper class computer science students of the university as well as numerous guests from the defence community and the interested public In three parts this book presents a selection of partly revised and somewhat extended versions of the seminar presentations followed in most cases by brief summaries of the transcripts of the respective discussions In addition to an introduction by the editors part I contains six papers on the present state and problems of arms control with emphasis on START Strategic Arms Reduction Talks INF Intermediate range Nuclear Forces negotiations and MBFR Mutually Balanced Force Reduction talks The seven contributions to part II are devoted to mathematical models of arms competition and quantitative approaches to force balance assessment of both the static and dynamic variety Part III presents five papers which address technical and operational aspects and legal implications of arms control negotiations and verification

Harkabi, This book began as a personal effort to comprehend the effect of nuclear weapons on the current era and its international system Nuclear weapons have not merely revolutionized the military sphere but have also left their stamp on the world order Knowledge of the basic principles of nuclear strategy has become a prerequisite to understanding world events Consequently no country can remain indifferent to nuclear strategy or can consider itself exempt from its implications The very importance of the subject precludes the assumption of a narrow technical or military point of view Political historical moral and even religious implications must be considered Nuclear War and Nuclear Peace serves as an introduction to the study of modern strategy within the framework of international relations as well as a basic account for laymen to the intricacies of modern strategy and its ramifications It deals with a wide range of problems deterrence and its implications surprise and preemptive and preventative attack The problems of quantities of nuclear weapons limitations of war conventional tactical and strategic and proliferation of nuclear weapons are also discussed In the end Harkabi introduces alternate global approaches and the problem of coalitions in the nuclear era By focusing on disarmament and arms control peace in the shadow of terror and stability of the international system and peace research he brings relevance to his study in terms of the current world climate Many books and articles have been published on nuclear strategy Most have been designed to formulate strategic policies to suit the needs of particular countries and influence their policy Most books on nuclear strategy have appeared in the United States with strategic prescriptions for the United States This book will be of tremendous interest to anyone wishing to understand the major problems of our contemporary world from a global perspective Yehoshafat Harkabi is a graduate of the Hebrew University of Jerusalem and Harvard University He participated in the armistice negotiations held at Rhodes and served as chief of Intelligence of the Israel Armed Forces He was in charge of Strategic Research in the Israel Ministry of Defence He has also published extensively on the Arab Israel conflict Until his

retirement he was lecturer in International Relations and Middle East Studies at the Hebrew University of Jerusalem

Congressional Record United States. Congress,1991 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **The Realities of Reality - Part IV: The Reality Behind Achieving World Peace** Fritz Dufour, MBA, DÉSS,2020-04-05 This book is organized in seven chapters Chapter one looks at the origins and the causes of war The chapter argues that war is a consequence of how we as a species have evolved War has both endogenous and exogenous causes While the former depends on our biology and psychology the latter has to do primarily with international relations Chapter two makes the case for the paradoxical nature of war While war takes lives it is legitimate under certain circumstances For example armed humanitarian interventions are allowed to save lives among local populations at the expense of the oppressors by employing all necessary means ethical or not Chapter three asks if peace among nations is achievable which is the main theme of this book However it does not elaborate on the question entirely Instead it gives sort of a prelude of what will be discussed in the remaining of the book by talking about the concepts of world order and American hegemony arms race and peacebuilding Chapter four builds on three by looking at realism idealism and pacifism in international relations As to pacifism the chapter attempts to answer the question what was the most peaceful time in history Chapter five presents the elements of hope for world peace by considering the role played by the following 1 the United Nations 2 the North Atlantic Treaty Organization NATO 3 the Organization for Security and Cooperation in Europe OSCE 4 the non governmental organizations NGOs 5 the role of nuclear deterrence 6 globalization 7 transnationalism 8 diplomacy 9 sports 10 international cooperation in space exploration 11 the Nobel Prize and 12 the declining of war and violence in modern times On the other hand chapter six presents the opposite argument or the barriers to world peace using the following points 1 the proliferation of nuclear weapons 2 geoeconomics 3 terrorism 4 the global refugee crisis 5 the profitability of arms sales and 6 the profitability of wars It makes an interesting argument especially as to the profitability of wars by showing how the United States first emerged as an imperial and a world power in the 1890s then as the only world s superpower after World War II Finally chapter seven takes a proactive approach by peering into the future of armed conflict which is likely to take place in new environments Cyberspace the littoral choke points near space and increasingly in expanding cities or slums War The chapter concludes with a discussion on the Doomsday Clock a concept stemmed from the uncertainty as to the future of mankind because of armed conflicts and which is a symbol that represents the likelihood of a man made global catastrophe Theories of War and Peace Michael E. Brown,Owen R. Cote, Jr.,Sean M. Lynn-Jones,Steven E. Miller,1998-09-15 New approaches to understanding war and peace in the changing international system What causes war How can wars be prevented Scholars and policymakers have sought

the answers to these questions for centuries Although wars continue to occur recent scholarship has made progress toward developing more sophisticated and perhaps more useful theories on the causes and prevention of war This volume includes essays by leading scholars on contemporary approaches to understanding war and peace The essays include expositions analyses and critiques of some of the more prominent and enduring explanations of war Several authors discuss realist theories of war which focus on the distribution of power and the potential for offensive war Others examine the prominent hypothesis that the spread of democracy will usher in an era of peace In light of the apparent increase in nationalism and ethnic conflict several authors present hypotheses on how nationalism causes war and how such wars can be controlled Contributors also engage in a vigorous debate on whether international institutions can promote peace In a section on war and peace in the changing international system several authors consider whether rising levels of international economic independence and environmental scarcity will influence the likelihood of war

Dilemmas of Nuclear Strategy Roman Kolkowicz, 2005-08-31 Nuclear strategy and deterrence in their golden age A nostalgically defined period sometime in the mid 1950s to mid 1960s promised to harness and control the nuclear Moloch hopes were high that the civilian strategists flooding into Washington would succeed in designing a new science of war that would safeguard national security provide a stable international environment and develop a rational decision making process for the management of national interests in a hostile nuclear world Three decades later it is a commonplace that the erstwhile promises and pretensions of the nuclear w
