Wien,1978-01-01 **Physics and the Nuclear Arms Race** Dietrich Schroeer,John Dowling,1984 *Agreements for Arms Control* Jozef Goldblat,Stockholm International Peace Research Institute,2020-11-19 Originally published in 1982 this is the most comprehensive handbook on arms control ever published It contains an analysis of the bilateral and multilateral agreements reached since World War II An assessment is made of the extent to which each agreement has affected the arms race reduced the likelihood of war or otherwise contributed to the overall goal of disarmament Ongoing arms control negotiations are also analyzed The complex problem of verification of compliance with arms control obligations is critically examined and the shortcomings of the existing arrangements are pointed out The critique is searching objective and free of the usual biases of official government reports The analysis of the arms control agreements is preceded by an historical overview beginning with the Hague Peace Conferences held at the turn of this century through the League of Nations attempts to bring about a universal reduction of armaments to the activities of the United Nations in the field of arms regulation and general disarmament The present arms control negotiating machinery is described The texts of the relevant documents are reproduced for handy reference and the status of the implementation of the most important multilateral arms control agreements is presented in tabular form Tables and figures facilitate the reading *Nuclear Deterrence In U.s.-soviet Relations* Keith B. Payne,2019-03-04 This book critically examines U S attempts to establish a nuclear deterrent against the Soviet Union and offers new approaches to dealing with the changing strategic environment Dr Payne maintains that the most influential theories of nuclear deterrence Assured Vulnerability and Flexible Targeting are unrealistic given Soviet foreign policy and attitudes toward nuclear war and no longer adequately meet the requirements of U S national security Identifying an approach compatible with U S security commitments he argues that future U S policy should focus on defeating the Soviet theory of victory on threatening Soviet military forces and domestic and external political control assets while also defending the U S against nuclear attack The discussion covers recent developments among them the new nuclear strategy of the Carter administration and President Reagan s new weapons program **The International Politics of Communication** Alan Chong,2025-03-18 In an era of globalization international communication constantly takes place across borders defying sovereign control as it influences opinion While diplomacy between states is the visible face of international relations this informal diplomacy is usually less visible but no less powerful Information politics can be found in

propaganda Internet politics educational exchanges tourism and even popular film The International Politics of Communication examines this informational dimension of international politics investigating how information is generated conveyed through channels and directed specifically at audiences While citizens are often portrayed as faithfully loyal supporters and beneficiaries of the modern nation state a fiction supported by passports identification papers and other notarized credentials they are subject to the pulls of loyalty from transnational tribal affiliations mythological and historical narratives of ethnicity as well as the transcendental claims of religion and philosophy Increasingly social media also enchants non state individuals providing new virtual communities as the center of loyalties rather than national affiliations By reinterpreting taken for granted concepts in journalism media political economy nationalism development and propaganda as information politics this book prepares serious minded scholars citizens politicians and social activists everywhere to understand the power plays in international communication and use alternatives to begin transforming power relations
