shocking conditions From 1930 to 1953 eighteen million people passed through this penal industrial empire Many inmates not reaching their quotas succumbed to exhaustion emaciation and illness It seems paradoxical that any medical care was available in the camps But it was in fact ubiquitous By 1939 the Gulag Sanitary Department employed 10 000 doctors nurses and paramedics about 40 percent of whom were prisoners Dan Healey explores the lives of the medical staff who treated inmates in the Gulag Doctors and nurses faced extremes of repression supply shortages and isolation Yet they still created hospitals re fed prisoners treated diseases and saved a proportion of their patients They taught apprentices and conducted research too This groundbreaking account offers an unprecedented view of Stalin s forced labour camps as experienced by its medical staff
