Works of Game John Sharp,2015-03-06 An exploration of the relationship between games and art that examines the ways that both gamemakers and artists create game based artworks Games and art have intersected at least since the early twentieth century as can be seen in the Surrealists use of Exquisite Corpse and other games Duchamp s obsession with Chess and Fluxus event scores and boxes to name just a few examples Over the past fifteen years the synthesis of art and games has clouded for both artists and gamemakers Contemporary art has drawn on the tool set of videogames but has not considered them a cultural form with its own conceptual formal and experiential affordances For their part game developers and players focus on the innate properties of games and the experiences they provide giving little attention to what it means to create and evaluate fine art In Works of Game John Sharp bridges this gap offering a formal aesthetics of games that encompasses the commonalities and the differences between games and art Sharp describes three communities of practice and offers case studies for each Game Art which includes such artists as Julian Oliver Cory Arcangel and JODI Joan Heemskerk and Dirk Paesmans treats videogames as a form of popular culture from which can be borrowed subject matter tools and processes Artgames created by gamemakers including Jason

Rohrer Brenda Romero and Jonathan Blow explore territory usually occupied by poetry painting literature or film Finally Artists Games with artists including Blast Theory Mary Flanagan and the collaboration of Nathalie Pozzi and Eric Zimmerman represents a more synthetic conception of games as an artistic medium The work of these gamemakers Sharp suggests shows that it is possible to create game based artworks that satisfy the aesthetic and critical values of both the contemporary art and game communities

Australian Artists in the Contemporary Museum Jennifer Barrett, Jacqueline Millner,2016-12-05 This unique book proposes a re-reading of the relationship between artists and the contemporary museum In Australia in particular the museum has played a significant role in the colonial project and this has generally been considered as the predominant mode of artists engagement with such institutions and collections Australian Artists in the Contemporary Museum expands the post colonial frame of reference used to interpret this work to demonstrate the broader implications of the relationship between artists and the museum and thus to offer an alternative way of understanding recent contemporary practices The authors central argument is that artists engagement with the museum has shifted from politically motivated critique taking place in museums of fine art towards interventions taking place in non art museums that focus on the creation of knowledge more broadly Such interventions assume a number

of forms including the artist acting as curator art works that highlight the use of taxonomic modes of display and categorization and the re consideration of the aesthetics of collections to suggest different ways of interpreting objects and their history Central to these interventions is the challenge to better connect the museum and its public The book will be essential reading for scholars professionals and students in the fields of contemporary art and museum studies art history and in the museum sector These include artists curators museum and gallery professionals postgraduate researchers art historians designers and design scholars art and museum educators and students of visual art art history and museum studies This project has been assisted by the Australian government through the Australia Council for the Arts its arts funding and advisory body

The Art and Politics of Asger Jorn Karen Kurczynski, 2017-07-05 A leading figure of the postwar avant garde Danish artist Asger Jorn has long been recognized for his founding contributions to the Cobra and Situationist International movements yet art historical scholarship on Jorn has been sparse particularly in English This study corrects that imbalance offering a synthetic account of the essential phases of this prolific artist s career It addresses his works in various media alongside his extensive writings and his collaborations with various artists groups from the 1940s through the mid 1960s Situating Jorn s work in an international post Second World War context Karen Kurczynski reframes our understanding of the 1950s away from the Abstract Expressionist focus on individual expression toward a more open ended conception of art as a public engagement with contemporary culture and politics Kurczynski engages with issues of interest to twenty first century artists and scholars highlighting Jorn s proposition that the sensory address of art and its complex relationship to popular media can have a direct social impact Perhaps most significantly this study foregrounds Jorn s assertion that creativity is crucial to subjectivity itself in our increasingly mediated Society of the Spectacle

Vera Dika, 2023-06-16 In this book Vera Dika rewrites the story of the Pictures Generation from the perspective of the
Hallwalls Contemporary Arts Center in Buffalo NY Her work is based on interviews with living artists archival research and
personal collections including films videotapes and sound recordings At once aesthetic cultural and political this renewed
perspective asks new questions and rewrites past assumptions about the artists work The legendary members of the East
Coast Pictures Generation emerged at Hallwalls Contemporary Art Center in Buffalo in the mid 1970s These young people
had started Hallwalls an artist run organization that invited artists from a variety of mediums to show their work It also
featured productions by the founding members themselves Robert Longo Charles Clough Cindy Sherman Nancy Dwyer and
Michael Zwack The works discussed in the volume include performance video films painting music and literature and have
been chosen because of the way they foreground states of the body in relationship to conditions of their medium As a
distinguishing feature of Hallwalls artists work the practice uses these traces to make metaphors on the process of
mechanical reproduction itself The Hallwalls artists work also gives testament to Buffalo and to New York City the cities that
formed their historical contexts This book will be of interest to scholars working in art history performance studies film
