respected scientific theory only briefly captured the attention of the scientific community but its many fans appropriated it for their own wildly imaginative ends Writers from H G Wells and Edith Wharton to Charlotte Perkins Gilman J B S Haldane and Aldous Huxley created a new kind of imaginary future which Jim Endersby calls the biotopia It took the ambiguous possibilities of biology utopian and dystopian and reimagined them in ways that still influence the public s understanding of the life sciences The Arrival of the Fittest recovers the fascinating long forgotten origins of ideas that have informed works of fiction from Brave New World to the X Men movies all while reflecting on the lessons positive and negative that this period might offer us

Always Becoming, Never Arriving David J. Mulder, 2024-12-19 Does Jesus care how I arrange the desks in my classroom How I evaluate student work The way I interact with students and colleagues What if all these small moment by moment classroom decisions a Christian teacher makes are actually the evidence of living discipleship Teaching Christianly does not just happen it is the result of deliberate choices to work toward shrinking the gap between what we say we believe and what we actually do in our teaching This book is an exploration of the teaching profession through the lens of living out our calling through teaching as discipleship Whether you are new to the profession or a seasoned veteran you will find ideas to expand your imagination about what teaching Christianly looks like considering topics that run the range from professionalism and ethics to a biblical view of learners and learning to content knowledge and curriculum to planning instruction and assessment Teaching Christianly is a journey a process of growing as a more faithful disciple and more closely following Jesus day by day Learning to teach Christianly is an adventure of always becoming and never arriving until that day when we meet the Lord face to face Welcome to the adventure
