Gonzalez, Michelle Gonzalez Maldonado, 2024 The Oxford Handbook of Caribbean Religions offers a comprehensive overview of Caribbean religions The Caribbean is a microcosm of the world's religions but the small geographic space resulted in the encounter of global religions and indigenous religious practices The racial ethnic and cultural diversity of this region makes brief introductions to Caribbean religions incapable of truly addressing its complex and diverse religious landscape The Handbook also elaborates on the diversity of the religious traditions and the national particularity of the region while also considering multiple geographic settings It mentions how often Caribbean religion is studied through the perspective of a discrete religious tradition or geographic setting The Global Circulation of Chinese Materia Medica, 1700-1949 Di Lu, 2023-03-11 This book explores the dissemination of knowledge around Chinese medicinal substances from the eighteenth to twentieth centuries in a global context The author presents a microhistory of the caterpillar fungus a natural medicinal substance initially used by Tibetans no later than the fifteenth century and later assimilated into Chinese materia medica from the eighteenth century onwards Tracing the transmission of the caterpillar fungus from China to France Britain Russia and Japan the book investigates the tensions that existed between prevailing Chinese knowledge and new European ideas about the caterpillar fungus Emerging in eighteenth and nineteenth century Europe these ideas eventually reached communities of scientists physicians and other intellectuals in Japan and China Seeking to examine why the caterpillar fungus engaged the attention of so many scientific communities across the globe the author offers a transnational perspective on the making of modern European natural history and Chinese materia medica **'He is a Glutton and a Drunkard': Deviant Consumption in the Hebrew Bible** Rebekah Welton, 2020-02-17 In *He is a Glutton and a Drunkard* Deviant Consumption in the Hebrew Bible Rebekah Welton uses interdisciplinary approaches to explore the social and ritual roles of food and alcohol in Late Bronze Age to Persian period Syro Palestine 1550 BCE 400 BCE This contextual backdrop throws into relief episodes of consumption deemed to be excessive or deviant by biblical writers Welton emphasises the social networks of the household in which food was entangled arguing that household animals and ritual foodstuffs were social agents challenging traditional understandings of sacrifice For the first time the accusation of being a glutton and a drunkard Deut 21 18 21 is convincingly reinterpreted in its alimentary and socio ritual contexts **The Wealth of Nations** Michael J. Chan, 2017-07-20 Michael J Chan argues on a methodological level for the deeper integration of iconographic materials into the task of tradition history a method that has tended to focus on textual evidence alone Following the work of O H Steck however tradition is understood in more flexible terms to refer to inherited concepts and constellations which can exist across multiple media The author undertakes a

From Anthropology to Social Theory Arpad Szakolczai, Bjørn Thomassen, 2019-01-17 A rethinking of contemporary social theory that provides a vision about the modern world through key ideas developed by maverick anthropologists

Images at Work David Morgan, 2018 Images can be studied in many ways as symbols displays of artistic genius adjuncts to texts or naturally occurring phenomena like reflections and dreams Each of these approaches is justified by the nature of the image in question as well as the way viewers engage with it But images are often something more when they perform in ways that exhibit a capacity to act independent of human will Images come alive they move us to action calm us reveal the power of the divine change the world around us In these instances we need an alternative model for exploring what is at work one that recognizes the presence of images as objects that act on us Building on his previous innovative work in visual and religious studies David Morgan creates a new framework for understanding how the human mind can be enchanted by images in Images at Work In carefully crafted arguments Morgan proposes that images are special kinds of objects fashioned and recognized by human beings for their capacity to engage us From there he demonstrates that enchantment as described is not a violation of cosmic order but a very natural way that the mind animates the world around it His groundbreaking study outlines the deeply embodied process by which humans create culture by endowing places

things and images with power and agency These various agents human and non human material geographic and spiritual become nodes in the web of relationships thus giving meaning to images and to human life Marrying network theory with cutting edge work in visual studies and connecting the visual and bodily technologies employed by the ancient Greeks and Romans to secular icons like Che Guevara Abraham Lincoln and Mao Images at Work will be transformative for those curious about why images seem to have a power of us in ways we can't always describe
