France in the Age of Louis XIII and Richelieu Victor L. Tapié, 1984-07-12 *Seeing Beyond the Word* Finney, 1999-05-12 This collection of essays seeks to redefine the discussion of Calvinism's impact on the visual arts through an exploration of Reformed artistic influences in England France Switzerland Germany Hungary the Netherlands and America 200 illustrations many in color

Graduate Studies, 1994 The Road from Eden John Barber, 2008 *Urban Achievement in Early Modern Europe* Patrick O'Brien, 2001-04-12 Comparative urban history examines early modern economic and cultural achievements in Antwerp Amsterdam and London *The Spiritual Rococo* Gauvin Alexander Bailey, 2017-07-05 A groundbreaking approach to Rococo religious art and spirituality in Europe and South America The Spiritual Rococo addresses three basic conundrums that impede our understanding of eighteenth century aesthetics and culture Why did the Rococo ostensibly the least spiritual style in the pre Modern canon transform into one of the world's most important modes for adorning sacred spaces And why is Rococo still treated as a decadent nemesis of the Enlightenment when the two had fundamental characteristics in common This book seeks to answer these questions by treating Rococo as a global phenomenon for the first time and by exploring its moral and spiritual dimensions through the lens of populist French religious literature of the day a body of work the author calls the Spiritual Rococo and which has never been applied directly to the arts The book traces Rococo's development from France through Central Europe Portugal Brazil and South America by following a chain of interlocking case studies whether artistic literary or ideological and it also considers the parallel diffusion of the literature of the Spiritual Rococo in these same regions placing particular emphasis on unpublished primary sources such as inventories One of the ultimate goals of

this study is to move beyond the cliché of Rococo's frivolity and acknowledge its essential modernity. Thoroughly interdisciplinary, The Spiritual Rococo not only integrates different art historical fields in novel ways but also interacts with church and social history, literary and post-colonial studies, and anthropology, opening up new horizons in these fields.

Princelie Majestie Andrea Thomas, 2005-08-10 The lifestyle of a Renaissance prince and his court was a work of art in itself, a dazzling spectacle which propagated the power, dignity and fame of the monarch. The domestic routine of the royal household with its palatial surroundings, restless itinerary and occasional public pageants provided the framework for cultural activity in its widest possible sense. Fine art, architecture, scholarship, literature, music and piety jostled for attention alongside hunting, feasting, jousting, politics, diplomacy and war. Emerging defiantly from a long and turbulent minority, the adult James V managed to create for Scotland an exuberant and cosmopolitan court which imitated in miniature those of France, England and the Netherlands and which carried important political messages. His ambitious programme of royal patronage combined humanist scholarship, neo-classical and imperial imagery, the cult of chivalry and medieval traditions in a blend which sought to galvanise Scottish national identity and enhance the status of the House of Stewart. For many years the reputation of James V has been overshadowed by the tragic glamour of his father James IV killed at Flodden and his daughter Mary Queen of Scots. Princelie Majestie reveals that he was an energetic and innovative patron who, in a brief fourteen years, created a court culture of remarkable quality and diversity. Princelie Majestie was originally published by Tuckwell Press.

Reconstructing Architecture for the Twenty-first Century Anthony Jackson, 1995-01-01 Jackson exposes the inadequacies of old conceptions of architecture as embodying metaphysical properties and of architects as the sole keepers of this esoteric knowledge. He challenges architects to acknowledge and celebrate building as an expression of the ideals and values of the broader, based classless communities to which they now belong.

A Critic Writes Reyner Banham, 1999-03-24 Rayner Banham's interests ranged from architecture and the culture of pop art to urban and industrial design. This selection of essays includes discussions of Italian Futurism, Adolf Loos, Paul Scheerbart and the Bauhaus, as well as the contemporary architecture of Gehry, Stirling and Foster.

Jack Goody between Social Anthropology and World History LIT Verlag, 2024-10-01 A giant of British social anthropology, Jack Goody (1919–2015) laboured for sixty years to transcend the view that anthropology was the study of other cultures. He wanted to move it in the direction of a more sociological, postcolonial, comparative social science. The most important precondition for this science was the freeing of world history from centuries of Eurocentric bias. From his base in Cambridge, Goody's influence and inspiration spread out internationally. In Germany, as a long-term adviser to the Max Planck Society, he played a key role in the establishment of the Max Planck Institute for Social Anthropology in Halle/Saale in 1999. This volume presents twelve Goody Lectures delivered in Halle between 2011 and 2022, together with an unpublished lecture given in 2004 by Goody himself and biographical and bibliographical essays by the editors.
