Art and Its Discontents Richard Read, 2017 This title was first published in 2002 Adrian Stokes 1902 1972 wrote some of the most engaging and provocative art criticism of the twentieth century He was a prolific author publishing books on the Renaissance among them *The Quattro Cento* and *Stones of Rimini* recently reissued on ballet and on the work of contemporary Modernist artists Stokes entered psychoanalysis with Melanie Klein in 1929 in an attempt to resolve some of the quandaries of his own complex sexual identity and corrosive self consciousness In later life he gained a significant reputation as a poet and painter Stokes's work emerged from a rich dialogue between the legacy of Ruskin and Pater and intense engagement with the Italian Renaissance the writings and art of of the European Modernists including friends such as Ezra Pound Barbara Hepworth and Ben Nicholson and psychoanalytic theory In this the first sustained examination of the writings Richard Read investigates how Adrian Stokes's work transformed English aesthetics when he became the first critical writer in Britain convincingly to relate psychoanalytic theory to art Provided by publisher

Adrian Stokes Stephen Kite, 2017-12-02 Adrian Stokes 1902 72 aesthete critic painter and poet is among the most original and creative writers on art of the twentieth century He was the author of over twenty critical books and numerous papers for example the remarkable series of books published in the 1930s *The Quattro Cento* 1932 *Stones of Rimini* 1934 and *Colour and Form* 1937 that embraced Mediterranean culture and modernity His criticism extends the evocative English aesthetic tradition of Walter Pater and John Ruskin into the present endowed by a stern sensibility to the consolations offered by art and architecture and the insights that psychoanalysis affords Indeed for Stokes architecture provides the entree into art and this book is the first study to comprehensively examine Stokes's theory of art from a specifically architectonic perspective The volume explores the crucial experiences through which this architectonic awareness evolved traces the influence upon Stokes of places texts and personalities and examines how his theory of art developed and matured The argument is supported by appropriate illustrations to confirm the evidence that Stokes's claim for architecture as mother of the arts carries the deepest experiential and psychological import

Between Art Practice and Psychoanalysis Mid-Twentieth Century Beth Williamson, 2017-07-05 The work of mid twentieth century art theorist Anton Ehrenzweig is explored in this original and timely study An analysis of the dynamic and invigorating intellectual influences institutional framework and legacy of his work *Between Art Practice and Psychoanalysis* reveals the context within which Ehrenzweig worked how that influenced him and those artists with whom he worked closely Beth Williamson looks to the writing of Melanie Klein Marion Milner Adrian Stokes and others to elaborate Ehrenzweig's theory of art a theory that extends beyond the visual arts to music In this first full length study on his work including an inventory of his library previously unexamined archival material and unseen

artworks sit at the heart of a book that examines Ehrenzweig's working relationships with important British artists such as Bridget Riley Eduardo Paolozzi and other members of the Independent Group in London in the 1950s and 1960s In Ehrenzweig's second book *The Hidden Order of Art* 1967 his thinking on Jackson Pollock is important too It was this book that inspired American artists Robert Rauschenberg and Robert Morris when they deployed his concept of de-differentiation Here Williamson offers new readings of process art c 1970 showing how Ehrenzweig's aesthetic retains relevance beyond the immediate post war era

Stratified Modernism Sasha Colby, 2009 This book proposes an alternative modernist tradition a line of writers captured by the archaeological project and the poetic possibilities it created This tradition spans from Thophile Gautier's mid nineteenth century passion for Egyptology to Charles Olson's literal excavations on the Yucatan peninsula in the 1950s With attention to the historical development of archaeology the author argues that the archaeological became a rich site of cultural fantasy a location where modernity's alternatives could be considered imagined and transcribed These models taking their cue from new archaeological dynamics include the

ushering of primal intensities into the present the tapping of the subterranean unconscious and the decipherment of an original poetic language Ranging from psychic excavations to the reactivation of political templates the plumbing of the archaeological landscape became a key posture in modernist development which the author pursues through the work of both twentieth century modernists and their nineteenth century substrata Ambitious in scope this book provides a compelling argument about the role of archaeology in the modernist literary imagination and the century long evolution of the poetics of excavation

Marking Whiteness Sonita Sarker, Jennifer Nesbit, 2025-09-01 The collection is divided into three parts to address the practices of Whiteness in modernist studies Aesthetics Intersectionality and Inter disciplinary Practice We begin with aesthetics because modernism is the aesthetic produced in dynamic relation to the cultural formations of modernity perceived rapid changes in labor transportation technology and perceptions of body mind and even character Essays in this section examine how the production of Whiteness is baked in as a positive value in assessing the value of cultural production The second section focuses on the embodiment of Whiteness primarily through the gendered and racialized female body as a deflective practice that unmarks Whiteness while making it central to cultural crises around morality national borders and futurity The third section considers the tacit prioritization of Whiteness as a positive value through institutional structures and pedagogical practice these case studies ruminate on the generative potential of isolating and marking these effects In each essay scholars examine the stakes of marking Whiteness as a category of analysis distinct from yet wholly imbricated with racial categorization given the potential for reification inherent in all strategies of marking

The Poets of Rapallo Lauren Arrington, 2021 Explores W B Yeats and Ezra Pound s relationship as played out against the backdrop of Mussolini s Italy in the 1920s and 1930s and shows how Yeats Pound and others in their Italian network developed a late modernist style aimed at effecting world change

The Melancholy Art Michael Ann Holly, 2013-02-24 Why the art historian's craft is a uniquely melancholy art Melancholy is not only about sadness despair and loss As Renaissance artists and philosophers acknowledged long ago it can engender a certain kind of creativity born from a deep awareness of the mutability of life and the inevitable cycle of birth and death Drawing on psychoanalysis philosophy and the intellectual history of the history of art The Melancholy Art explores the unique connections between melancholy and the art historian's craft Though the objects art historians study are materially present in our world the worlds from which they come are forever lost to time In this eloquent and inspiring book Michael Ann Holly traces how this disjunction courses through the history of art and shows how it can give rise to melancholic sentiments in historians who write about art She confronts pivotal and vexing questions in her discipline Why do art historians write in the first place What kinds of psychic exchanges occur between art objects and those who write about them What institutional and personal needs does art history serve What is lost in historical writing about art The Melancholy Art looks at how melancholy suffuses the work of some of the twentieth century's most powerful and poetic writers on the history of art including Alois Riegl Franz Wickhoff Adrian Stokes Michael Baxandall Meyer Schapiro and Jacques Derrida A disarmingly personal meditation by one of our most distinguished art historians this book explains why to write about art is to share in a kind of intertwined pleasure and loss that is the very essence of melancholy History and Psyche S. Alexander, B. Taylor, 2012-11-28 Today a widening range of historical phenomena are being examined through the psychoanalytic lens while the psychoanalytic tradition itself is coming in for unprecedented historical scrutiny This collection of essays showcases the innovative and sometimes contentious encounters between psychoanalysis and history Ezra Pound and Referentiality Hélène Aji, 2003

Portrait of a Life Roger Amos, 2019-07-26 Melanie Klein was a Viennese psychoanalyst who extended the work of Sigmund Freud in significant and innovative ways She lived and worked in the UK from 1926 until her death in 1959 During her life she was a controversial and divisive figure and has remained so since her death conflict between the Freudian and Kleinian strands of psychoanalysis dominated the history of psychoanalysis in the latter half of the twentieth century The reasons why she polarised opinion are multiple and complex partly they were related to her psychoanalytic ideas and how she expressed them but they were also intrinsic to her personality In 2016 a pair of delicate low relief sculptures of Melanie Klein in profile were re-discovered having been hidden away for some eighty years and have been subsequently identified as the work of the sculptor Oscar Nemon Roger Amos was asked to write a brief

article about these sculptures for publication on the Melanie Klein Trust website During his research he discovered that Klein had destroyed two significant works of art depicting herself one a bust by the same sculptor as the low relief profiles Oscar Nemon and the other a portrait by William Coldstream This beautifully illustrated book is the first comprehensive review of all attempts to portray Klein during her lifetime from her earliest childhood until her old age including the work of painters sculptors and portrait photographers It reviews the history of each artistic project and the relationship between Klein and the artist involved locating them in a narrative of Klein s life The complex and interrelated reasons why she chose to destroy some of the representations of herself but kept others are identified and discussed Through an understanding of the subject artist relationship Amos illuminates Klein s professional life in the world of psychoanalysis A must read for all scholars and professionals working in the field of psychoanalysis psychotherapy and psychodynamic counselling plus those with an interest in Melanie Klein or aesthetics this enjoyable read shines a never before seen light on to the world of Melanie Klein

The Sound Sense of Poetry Peter Robinson,2018-09-13 Robinson explains how poetry makes things happen through the interaction of its chosen words and forms with the reader s responses **From Space in Modern Art to a Spatial Art History** Jutta Vinzent,2019-12-02 This book traces artists theories of constructive space in the first half of the twentieth century Drawing on these concepts and recent theories on space it develops a methodology termed Spatial Art History that conceives of artworks as physical spatio temporal things which produce the social to overcome the reductive understanding of art as a mere mirror or facilitator of society **Psychoanalysis and History** ,2003
