Art Gallery, 1968 **Art and the industrial revolution** Manchester City Art Gallery, 1968 *Art and the Industrial Revolution* Fd Klingender, 1968 **Art and the Industrial Revolution** ,1968 *Art and the Industrial Revolution* Manchester City Art Gallery, Elizabeth Johnston, 1968
Scottish Art in the Industrial Age, 1800-1914 Elizabeth Cumming, 2025-11-11 This volume focuses on artists and writers associated with the Arts and Crafts movement Scottish Symbolism and the Celtic Revival The latter was spearheaded by the biologist and social reformer Patrick Geddes who encouraged artistic revival in Edinburgh In 1884 he founded the Edinburgh Social Union which commissioned mural schemes for public buildings from artists such as Phoebe Anna Traquair Geddes also invited contributions from contemporary artists through his avant garde journal The Evergreen whose art editor was John Duncan During the same period Glasgow flourished as an artistic centre under the leadership of Fra Newbery at Glasgow School of Art This period saw the rise in importance of the decorative arts and the emergence of a number of women designers among them Jessie Keppie Annie French and Ann Macbeth The leading artists at the turn of the century were Charles Rennie Mackintosh Herbert McNair and the Macdonald sisters who enjoyed an international reputation exhibiting at the Vienna Secession in 1900 Accompanied by extensive editorial commentary this collection will be of great interest to students of Art History and Scottish History **Art and the Industrial Revolution** ,1947 Art and the Industrial Revolution Arthur Elton, 1972 **Art and the Industrial Revolution, By Francis D. Klingender. Edited and Rev. by Arthur Elton** Francis Donald Klingender, 1968 Art and the Industrial Revolution Tony Bellette, 1986 Art and the Industrial Revolution Arthur Elton, 1968 Art and the industrial revolution: 31 May to 14 July 1968 exhibition catalogue Manchester City Art Gallery, 1969 The Industrial Revolution Francesca Petruzzelli, 2022 The industrial revolution marked the beginning of modern society It allowed for more efficiency in production greater output and general economic growth But industrialization affected a number of industries and among them was the art industry Artists benefited from mass production with the invention of portable paint tubes which allowed them to take their craft outside of their studio and ultimately provided the opportunity for artists to depict different subject matters in their work a departure from the

neoclassical style Given the timing of the evolution of art supplies and the shift in artistic subject matter I wondered whether the economic effects of France's industrial revolution were able to influence art In order to understand how depicted subject matter changed I turned to the Paris Salon catalogs that recorded the artwork exhibited throughout 19th century Paris I digitized the 1865 Paris Salon catalog and compiled it with categorizations made by Jon Whiteley and digitized by Diana Greenwald I recorded the artist's name gender and birthplace along with their Salon entry number the title of the painting and who the artist apprenticed to if applicable From there I divided the artists by birthplace into two groups Parisians and non Parisians to determine if artists born in Paris who were exposed to more urbanization and modernity chose to paint more urban or rural scenes in art This project takes an economic approach to examine how industrialization influenced art More specifically I focus on the question of how the subject matter being depicted in the 1865 Paris Salon exhibition was impacted by the industrial revolution Were Parisian artists able to paint more rural or urban scenes Is it possible industrialization influenced the scenes painters depict My argument is deeply rooted in economic history the art history data I have collected and the intersection between the two The interdisciplinary work has been a phenomenal exploration of combining quantitative and creative disciplines to determine how the art world hinges on the economy and its developments
