**Attention Equals Life** Andrew Epstein, 2016 Poetry has long been thought of as a genre devoted to grand subjects timeless themes and sublime beauty Why then have contemporary poets turned with such intensity to documenting and

capturing the everyday and mundane Drawing on insights about the nature of everyday life from philosophy history and critical theory Andrew Epstein traces the modern history of this preoccupation and considers why it is so much with us today *Attention Equals Life* argues that a potent hunger for everyday life explodes in the post 1945 period as a reaction to the rapid unsettling transformations of this epoch which have resulted in a culture of perilous distraction Epstein demonstrates that poetry is an important and perhaps unlikely cultural form that has mounted a response and even a mode of resistance to a culture suffering from an acute crisis of attention In this timely and engaging study Epstein examines why a compulsion to represent the everyday becomes predominant in the decades after modernism and why it has so often sparked genre bending formal experimentation With chapters devoted to illuminating readings of a diverse group of writers including poets associated with influential movements like the New York School language poetry and conceptual writing the book considers the variety of forms contemporary poetry of everyday life has taken and analyzes how gender race and political forces all profoundly inflect the experience and the representation of the quotidian By exploring the rise of experimental realism as a poetic mode and the turn to rule governed everyday life projects *Attention Equals Life* offers a new way of understanding a vital strain at the heart of twentieth and twenty first century literature It not only charts the evolution of a significant concept in cultural theory and poetry but also reminds readers that the quest to pay attention to the everyday within today's frenetic world of and social media is an urgent and unending task

Cinematernity Lucy Fischer, 2014-07-14 Noting that motherhood is a common metaphor for film production Lucy Fischer undertakes the first investigation of how the topic of motherhood presents itself throughout a wide range of film genres Until now discussions of maternity have focused mainly on melodramas which along with musicals and screwball comedies have traditionally been viewed as women's cinema Fischer defies gender based classifications to show how motherhood has played a fundamental role in the overall cinematic experience She argues that motherhood is often treated as a site of crisis for example the mother being blamed for the ills afflicting her offspring then shows the tendency of certain genres to specialize in representing a particular social or psychological dimension in the thematics of maternity Drawing on social history and various cultural theories Fischer first looks at Rosemary's Baby to show the prevalence of childbirth themes in horror films In crime films *White Heat* she sees the linkage of male deviance and mothering *The Hand That Rocks the Cradle* and *The Guardian* both occult thrillers uncover cultural anxieties about working mothers Her discussion covers burlesques of male mothering feminist documentaries on the mother daughter relationship trick films dealing with procreative metaphors and postmodern films like *High Heels* where fluid sexuality is the theme These films tend to treat motherhood as a locus of irredeemable conflict whereas *History and Memory* and *High Tide* propose a more sanguine dynamic and enabling view Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while

presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
