Crash Dive In Action With Hms Safari 1942 43:

Crash Dive Arthur Dickison,1999 The full range of the submariner s experience and of human emotion is here in this vivid eyewitness account BOOK JACKET **Crash Dive** Arthur Dickison,2007 This record of life on board HMS Safari is based on original first hand accounts As the boat s leading telegraphist the author s superior officer gave him insights into why they were doing what they did Over 18 months of war patrols the author kept a personal diary of life aboard the submarine Safari In it he records daily events ranging from the tedium of long sea passages to stalking enemy convoys crash dives and fighting it out on the surface **Burdened but Unruffled** James Gregan,2016-10-28 Launched in 1942 as World War II was raging HMS Unruffled patrolled the oceans for the remainder of the hostilities destroying nearly 40 000 tons of enemy shipping and one train before retiring battered and bruised but glorious and without losing a man James Gregan s home town of Colchester adopted the vessel and took its gallant crew to its heart and more than 70 years on Gregan has written this book to celebrate the forgotten submarine which he describes as not just another piece of war machinery but a boat which helped thirty three heroes to survive a war when so many brave young men did not return The book is a detailed thoroughly researched account of Unruffled s three and a half years of service from Norway to the Mediterranean and from Scotland to Bermuda with detailed accounts of every encounter every moment of fear and every hour of glory **Fittest of the Fit** Kevin Brown,2019-04-30 This WWII naval history examines the Royal Navy s health and fitness policies initiatives and innovations Fittest of the fit was the Royal Navy s boast about its personnel a claim based on a strict recruitment process This book examines the reality behind the motto through the difficult years of the Second World War Beginning with the medical aspects of recruitment historian Kevin Brown examines how health and fitness were maintained at sea including in the onerous extremes of Arctic and Tropical conditions Beyond physical health Brown also examines the importance of psychological factors and the maintenance of morale covering everything from entertainment to tolerance of onboard pets Inevitably the effects of battle injury and stress dominated naval medicine and wartime led to rapid changes in everything from basic preparations to protective clothing With revealing comparisons to other British services as well as US Navy practices Fittest of the Fit offers a unique look at life for the Royal Navy covering submariners and airmen as well as those in the surface fleet **British Submarines 1939-45** Innes McCartney,2013-01-20 The submarine was the invisible but formidable weapon of the Royal Navy during World War II This book examines the three major classes S T and U detailing their design development and modification The major submarine engagements of the war are recounted including the Norwegian campaign the battle of Malta in March 1942 Operation Pedestal and many other engagements in all theatres between the British subs German U Boats and Japanese subs Using many previously unpublished sources and his own extensive underwater explorations Innes McCartney gives a highly detailed account of the British submarine The Royal Navy in World War II Derek G. Law,2003 The Royal Navy in World War II is a comprehensive annotated bibliography of all

Sea Wolves Tim Clayton, 2011-07-07 Sea Wolves is the story of the crews who bravely manned British submarines in the Second World War This small band of highly trained and highly skilled individuals fought in the front line for six long years undertaking some of the most dangerous missions of the war Britain's Sea Wolves operated close to shore in mined waters attacking warships and heavily guarded convoys But in the course of these vital operations the submariners suffered devastating casualties This is the vivid thrilling story of the survivors and their promising young comrades who fought with such courage in the face of the sickening terror of depth charge attacks and the cold fear of having to escape from a sunken submarine filled with the bodies of close friends

Together We Stand James Holland, 2005 When the Axis forces were finally driven from North Africa in May 1943 over 250 000 were taken prisoner as many as had surrendered to the Russians at Stalingrad It was a major victory and a crucial stepping stone to the future invasion of Italy and France Yet just a year before the Allies had been facing one disaster after another In North Africa the Eighth Army's terrible defeat at Gazala represented Britain's nadir Slowly but surely however the Allies began to turn the tide This crucial period was a time of learning for both America and Britain and by the end of the Tunisian campaign they had finally gained material but also certain tactical advantages over Germany particularly in the air war As this book shows the development of a tactical air force principles that are still used to this day were founded over the skies of North Africa And yet this is also a book about the men and women who found themselves caught up in this struggle people drawn from all parts of the globe and brought together to make up these polyglot Allied forces British and American Nepalese and Punjabi South African and Australian Maori and Zulu and from all ranks and all services

The British National Bibliography Arthur James Wells, 2005

Witness To War Richard Aldrich, 2014-07-30 WITNESS TO WAR is an eye opening retelling of the war experience through the private diaries kept by people from all walks of life and from many countries The twentieth century's Second World War announced its arrival from a distance and as early as spring 1938 city dwellers across Europe expected destruction on an epic scale Men women and children most of whom had never kept a diary before began to chronicle their own responses to what they knew would be a unique moment in world history The cast of characters represented in these

diaries more than three hundred in number ranges from politicians soldiers and spies to ordinary citizens and housewives from a London schoolboy watching V 1 doodlebugs from his bedroom window to an interned German refugee robbed and beaten by British troops Many others are famous and this collection includes rare material from figures such as Joseph Goebbels Joyce Grenfell Jean Paul Sartre Evelyn Waugh and No l Coward It also contains the insights of many who were close to Winston Churchill and Adolf Hitler Most of these diaries involved a degree of danger and secrecy In occupied Europe a captured diary could betray friends and relatives to the enemy Some were downright illegal such as those kept by soldiers on the front line More than half a century after the end of the war these hidden treasures the voices of the past are still being unearthed Many of these accounts languished unread unpublished and gathering dust in scholarly archives around the world Richard Aldrich has devoted two decades to sustained research in more than a dozen countries This is war at first hand described in the most immediate terms not mediated through the voice of peripheral observers or shaded by fading memory or political allegiances
