Thirtyone Days Bill McClure, 2012-04-18 Over the past few years I have become disillusioned with a 9 to 5 style of Christianity I have been pressing into God to find out more There has to be more to the Christian life than simply showing up to your local church on Sundays for forty five minutes As I have talked to God about this He told me that it has a lot to do with the fact that most Christians have forgotten who they are So I set out on a mission to rediscover what the Christian identity was

and an ethic of creation are not at odds but rather reinforce each other Gary Chartier articulates a love centered creation ethic or a creation centered love ethic and applies it to such issues as sex economic life love for enemies and political order In the book Chartier offers a powerful alternative both to natural law theories that seem to lose sight of the welfare of actual people and to the accounts of Christian love that embrace an alienating impartiality He develops an understanding of Christian love as focused on creation that can contribute effectively to enriching both social practices and personal lives Loving Creation is unabashedly theological But the theological considerations it adduces are ones that will allow Christians to engage in the public sphere with adherents of other religious traditions and of none It is a contribution not only to theological understanding but also to personal moral reflection to church practice and to Christian participation in public life

On Love & Psychological Exercises A. R. Orage,1998-01-15 An invaluable resource for students of self development especially those with a particular interest in the ideas of George Gurdjieff and Pyotr Ouspensky While editing a publication he cofounded The New Age A R Orage formed a study group of practicing psychologists including Dr Maurice Nicoll one of Jung s foremost exponents to study psychoanalysis They reached the conclusion that the need in psychology was not psychoanalysis but psycho synthesis Upon his introduction to P D Ouspensky and the ideas of Gurdjieff Orage informed his group that psycho synthesis had arrived Orage wrote On Love after spending years working with Gurdjieff and the Fourth Way System The three essays On Love On Religion and What Is the Soul explore personal self development These essays are still practical timely and important to students who seek a clear understanding of the self Psychological Exercises is the result of work with both Gurdjieff and Ouspensky and was written

during the seven years Orage spent organizing Fourth Way study groups for Gurdjieff in the United States It presents 200 plus psychological exercises designed to increase the flexibility and scope of our minds by working with numbers words verses and images These exercises pick up where conventional education leaves off teaching us to hone the conscious and deliberate manipulation of our mental resources Included are 15 essays covering various aspects of self development such as how not to be bored economizing personal energy acquiring intuition controlling our tempers and learning to observe and think

Sensationality William Clark,2006-10 If the contents of this publication were easy to understand it would be a much shorter book It s easy to wonder why being in love with someone or living in fear is so different from liking or being afraid of one thing or another Differences arise because what we like for example is definable but who we love isn t We assume that all words are definable but love isn t and neither is faith appreciation passion or a host of other words which relate to love In truth we can t define the sensation of fear sin or temptation either Why is it that we give such importance to words which can t be defined and why is it that many of our words including mind soul and God escape definition when we re certain that we know what they mean It s only by appreciating certain words that an understanding is achieved Our relationship with God the Father Christ the Son and the Holy Spirit are explored Not in a theological context but a sensational one not so different from a sixth sense perspective Contents of this book also include considerations of anger addiction homosexuality pain management and much more An attempt is made to tie up all these seemingly diverse subjects into one tightly knit package
